ACT Direct is published three times a month to highly engaged clinical trials professionals. Each edition features a premium collection of news, blogs, an advertiser Marketplace, events/webcasts, people moves – and an audio interview with a top clinical trials expert.

In 2012, we've increased the frequency as well as the topics of our popular *ACT Direct, Applied Clinical Trials* e-newsletter. *ACT Direct's Special Edition* newsletters will be delivered twice-monthly, in addition to the general industry directed *ACT Direct*. These Special Edition newsletters contain only the latest news, original reporting, featured articles and events specific to the targeted topic. This year, *ACT Direct's Special Editions* include the new At-Home Study Services, Subject Recruitment, IRBs, and Patient Reported Outcomes, joining the established topic areas of Cardiac Safety, Labs, Oncology and eClinical.

COMPLIMENTARY WHITE PAPER

What if you could reduce the cost of your services and simultaneously increase revenues?

▶ You can. [Download this white paper](#) to find out how SAS[®] Clinical Data Integration makes it easy to deliver data to sponsors and lower costs.

SAS Clinical Data Integration gives you the power to deliver high-quality data to sponsors at a lower cost while increasing revenues through new service offerings, such as legacy data migration projects or CDISC standards consulting.

SAS Clinical Data Integration gives you the power to easily:

- Reduce costs and improve quality through automation.
- Speed data standardization for delivery and submission.
- Integrate data from disparate sources.
- Create new revenue opportunities to migrate legacy data to modern standard models.
- Transfer responsibilities to lower-cost resources.
- Eliminate data delivery errors through prebuilt, yet customizable, standards-adherence checking.

Virtual Clinical Organizations - The New Clinical Development Operating Model

Clinical development executives are facing more pressure than ever to reduce costs while maintaining quality and improving operational efficiency. As a result, clinical development organizations are rethinking their operating models. Mergers and acquisitions, outsourcing, downsizing and strategic alliances have become the new normal. As the industry continues to evolve, one thing has become clear: The new clinical development operating model will be a partnership-driven one. Partners can provide the global capabilities, a flexible resource pool and the supporting technology needed to run large global trials and manage a widely diversified product portfolio. This paper will discuss the critical success factors for creating a virtual clinical organization and how this emerging model differs from traditional vendor or preferred partner relationships.

Applied Clinical Trials' webcast program is a moderated online "panel" discussion conducted as a live event or pre-recorded for on-demand playback (or both) through an interface that can display slides and audio; streaming video, and an array of interactive features like polling, chat and much more. Our webcast platform does not require any software downloads that frequently block access to these popular broadcasts.

ACT offers you the opportunity to participate in our webcasts as an exclusive sponsor. We offer a variety of webcast formats and suggested topics to provide our audiences with insights on current news, new products and applications, and important trends. Our editorial staff works with you to customize the panel discussion/presentation to attract the most relevant listener base and to demonstrate your connection and/or expertise on the topic(s).

Beyond the benefits of associating yourself with thought leadership and high quality content, our webcasts feature a powerful **lead generation** tool allowing you to retrieve qualified leads from a real time reporting platform that includes contact info, demographics and other qualifying questions from your webcast attendees and all registrants. An aggressive, targeted and integrated marketing campaign is used to leverage the extensive reach of our brands to enhance your brand equity and generate a qualified audience for your sales and marketing efforts.

The screenshot shows a webcast interface with the following elements:

- Title:** Improving Clinical Decision Making Through Integrated Performance Management
- Category:** ON DEMAND WEBCAST
- Presented by:** APPLIED CLINICAL TRIALS
- Sponsored by:** ORACLE HEALTH SCIENCES
- Moderator:** Lisa Henderson, Editor in Chief, Applied Clinical Trials Magazine
- Speaker:** Jonathan Palmer, Product Strategy Director, Oracle Health Sciences
- Slide Content:** ORACLE logo, title 'Improving Clinical Decision Making Through Integrated Performance Management', and speaker name 'Jonathan Palmer, Director, Product Strategy, Intelligence and Insight, Oracle Health Sciences'.
- Interactive Buttons:** ENLARGE SLIDES, DOWNLOAD SLIDES, SPEAKER BIOS, HELP, and a 'SUBMIT' button for a comment field.
- Footer:** PRESENTED BY: APPLIED CLINICAL TRIALS and SPONSORED BY: ORACLE HEALTH SCIENCES.

Applied Clinical Trials' audio podcast is a digital recording formatted like a radio call-in show which can be listened to through a "media player" on our website without any special software, or by adding the "feed" to be automatically delivered to your online "news aggregator service" such as iTunes, MyYahoo and Newsgator for on-demand playback on laptops, PCs and a host of mobile devices.

We offer you the opportunity to participate in our podcasts as an exclusive sponsor. *ACT* offers a variety of podcasts to provide our audiences with keen insights on current news, new products, applications and important trends. Our editorial staff works with you to customize programming to attract the most relevant listener base and to demonstrate your connection or expertise with the topic(s). Our sponsored podcast program delivers a unique combination of an easily used media format in high demand, flexible lead generation and multiple points of access from our electronic products to your digital assets.

Podcast: Parexel's Ethnobridging Expert Discusses Its Importance as a Development Strategy
