Introducing a podcast series you can't afford to miss.

PAREXEL Insights 1 to 1 is a series of dialogs with innovative thinkers that could transform your approach to biopharmaceutical product development and marketing. Topics will include the move from clinical trials outsourcing to a partnering model, pharmacovigilance, regulatory issues, time and cost saving efficiencies and much more.

Podcast

**Technology to improve
clinical trial decision
making and operations**

With Dr. Barbara Tardiff,
Vice President eClinical
and Perceptive Informatics,
a PAREXEL company

**Don't miss any of these critically important
interviews. Subscribe to the podcasts now
