

## New and Emerging Therapies for Multiple Sclerosis and the Role of Managed Care

This supplement to *The American Journal of Managed Care* reviews the efficacy, safety, and limitations of current first-line therapies for multiple sclerosis (MS), describes the mechanisms of action, efficacy, and safety of 4 emerging oral therapies for MS, and discusses the potential impact of oral MS agents on patients, physicians, and managed care organizations.

The contents of this supplement may include information regarding the use of products that may be inconsistent with or outside the approved labeling for these products in the United States. Physicians should note that the use of these products outside current approved labeling is considered experimental and are advised to consult prescribing information for these products.

### ■ Faculty

#### **Edward J. Fox, MD, PhD**

Central Texas Neurology Consultants  
Round Rock, Texas

#### **Robert J. Lipsy, PharmD, FASHP, BCPS**

Clinical Assistant Professor  
University of Arizona  
College of Pharmacy  
Tucson, Arizona

#### **Clyde E. Markowitz, MD**

Director, Multiple Sclerosis Center  
Associate Professor of Neurology  
University of Pennsylvania  
Philadelphia, Pennsylvania
