

Examining the Issue of Nonsteroidal Anti-Inflammatory Drug-Associated Gastropathy

The subject matter in this supplement is based on issues that were addressed at a symposium held during Digestive Diseases Week. The information presented here has been compiled from several talks given during the conference and has undergone a clinical review. The supplement also contains an interview conducted by the journal with an expert in gastroenterology. The interview examines the many issues surrounding nonsteroidal anti-inflammatory drug-associated gastropathy.

The supplement has been developed under the direction of Lawrence J. Cheskin, MD, Johns Hopkins University School of Medicine, for CME accreditation. Glen Farr, PharmD, University of Tennessee College of Pharmacy, has reviewed the supplement for CPE accreditation.

FACULTY

Lawrence J. Cheskin, MD

Associate Professor
Medicine and Human Nutrition
Director
Gastroenterology Division
Johns Hopkins Bayview
Medical Center

Denis McCarthy, MD

Professor of Medicine
Division of Gastroenterology
University of New Mexico
Albuquerque, New Mexico

David Bjorkman, MD

Senior Associate Dean
University of Utah School
of Medicine
Salt Lake City, Utah

DISCLOSURE STATEMENT

It is the policy of the Johns Hopkins University School of Medicine to ensure fair balance, independence, objectivity, and scientific rigor in all sponsored programs. All faculty participating in a continuing medical education activity are expected to disclose to the audience any relationship with a pharmaceutical or equipment company that might pose potential, apparent, or real conflict of interest with regard to their contribution to the program.

It is also the policy of *The American Journal of Managed Care* to have all faculty who participate in programs sponsored by corporate organizations disclose any real or apparent conflicts of interest.

These participants have declared the following affiliations with corporate organizations.
