

### **Pre-packaged HPLC mobile phases**

Chata offers pre-mixed HPLC mobile phases and solutions delivered in disposable CHEM+NECT bag packaging. The degassed and filtered solutions are formulated according to customer specifications or standard off-the-shelf solutions commonly used in many laboratories. The flexible film packaging is designed to extend shelf-life and ensure solution sterility. The company offers solutions with stability data to validate long-term consistency. Chata Biosystems, Inc., Fort Collins, CO.
