

2007 Article Index

Subjects

ACUPUNCTURE

Research Updates: Effects of electrostimulated acupuncture in dogs with elbow arthritis; January, p 21.

ADVERSE FOOD REACTIONS

Dermatologic manifestations and nutritional management of adverse food reactions; January, pp 51-64.

Client handout: How to conduct a limited-antigen diet trial; January, p 57.

AFLATOXICOSIS

Toxicology Brief: The critical care of aflatoxin-induced liver failure in dogs; October, pp 644-651.

ANALGESIA

Leading Off: Putting the new pain management guidelines into practice; November, pp 704-705.

ANIMAL SHELTERS

Animal sheltering in the United States: Yesterday, today, and tomorrow; October, pp 656-663.

ANIMAL WELFARE

Leading Off: Are you doing all you can to reduce euthanasia of healthy, adoptable pets? October, p 638.

Animal sheltering in the United States: Yesterday, today, and tomorrow; October, pp 656-663.

The euthanasia problem: How practitioners can help; October, p 667.

Offer basic behavior counseling for every pet at every visit; October, pp 668-672.

Promote and perform early spaying and neutering; October, pp 674-676.

Assist owners in selecting the best pets for their lifestyles; October, pp 678-679.

Champion animal welfare in your community; October, pp 680-684.

ARTHRITIS

Research Updates: Effects of electrostimulated acupuncture in dogs with elbow arthritis; January, p 21.

Practical Matters: That old, slow dog: Is it really arthritis? March, p 163.

BACTERIAL PNEUMONIA

Endoscopy Brief: Identifying the cause of acute cough and respiratory distress in a toy poodle; January, pp 16-20.

BEHAVIOR

Understanding rabbit behavior and preventing and treating behavior problems; February, pp 104-113.

Client handout: How to litter-box-train your pet rabbit; February, p 116.

How I treat food-related aggression in dogs; April, pp 247-252.

Canine housetraining challenges; April, pp 254-262.

Client handout: 10 easy steps to housetrain your dog; April, p 263.

Practical Matters: Use caution when prescribing transdermal medications for feline behavior problems; September, p 580.

Offer basic behavior counseling for every pet at every visit; October, pp 668-672.

Assist owners in selecting the best pets for their lifestyles; October, pp 678-679.

Client handout: Teaching your puppy the right way to play; December, p 759 (online only).

Counseling new puppy owners: Normal play vs. aggressive tendencies; December, pp 786-787.

BETA₂ AGONIST INHALERS

Toxicology Brief: Breathe with ease when

managing beta₂ agonist inhaler toxicoses in dogs; June, pp 369-373.

CALCULI

Research Updates: Spontaneous retrograde movement of ureteroliths; June, pp 361-364.

Practical Matters: Radiography helps confirm complete radiopaque calculi removal; September, p 580.

CARDIOLOGY

Pimobendan treatment in dogs with congestive heart failure; November, pp 736-740.

CESTODES

An overview of cestode infections in dogs and cats; March (suppl.), pp 15-17.

CLIENT HANDOUTS

How to conduct a limited-antigen diet trial; January, p 57.

How to litter-box-train your pet rabbit; February, p 116.

10 easy steps to housetrain your dog; April, p 263.

How to brush your pet's teeth; May, p 304.

Teaching your puppy the right way to play; December, p 759 (online only).

CLINICAL EXPOSURES

Cytologic examination of a cutaneous mast cell tumor in a boxer; March, pp 165-168.

Vertebral articular process hypertrophy causing spinal cord compression in a Great Dane; May, pp 291-294.

Feline infectious peritonitis: Typical findings and a new PCR test; June, pp 375-379.

A retained testis and spermatic cord torsion in a boxer; November, pp 708-710.

Canine dermatophyte infection; December, pp 771-774.

2007 Article Index

CONGESTIVE HEART FAILURE

Pimobendan treatment in dogs with congestive heart failure; November, pp 736-740.

CRYPTOCOCCOSIS

A challenging case: Blindness and a history of cutaneous nodules in a cat; July, pp 454-461.

CVC CENTRAL HIGHLIGHTS

Client handout: Teaching your puppy the right way to play; December, p 759 (online only).

Answers to three commonly asked questions about Lyme disease; December, pp 778-779.

Practical ideas for managing common internal medicine problems; December, pp 780-781.

A tip for interpreting *Leptospira* species titers; December, p 782.

Investigating proteinuric kidney disease; December, pp 784-785.

Counseling new puppy owners: Normal play vs. aggressive tendencies; December, pp 786-787.

DENTAL CORNER

Educate your clients about dental home care for their pets; May, pp 296-300.

Client handout: How to brush your pet's teeth; May, p 304.

Properly equip your dental suite; July, pp 446-450.

DENTAL RADIOGRAPHY

How to obtain the best dental radiographs; October (suppl.), pp 1-15.

Interpreting dental radiographs: The clues to clinical disease; October (suppl.), pp 16-24.

DENTISTRY

Pediatric dentistry: An overview of common problems you'll see in practice; February, pp 118-132.

Dental Corner: Educate your clients about

dental home care for their pets; May, pp 296-300.

Client handout: How to brush your pet's teeth; May, p 304.

Dental Corner: Properly equip your dental suite; July, pp 446-450.

How to obtain the best dental radiographs; October (suppl.), pp 1-15.

Interpreting dental radiographs: The clues to clinical disease; October (suppl.), pp 16-24.

DERMATOLOGY

Research Updates: Role of subcutaneous tissues in skin wound healing; January, p 24.

Dermatologic manifestations and nutritional management of adverse food reactions; January, pp 51-64.

Client handout: How to conduct a limited-antigen diet trial; January, p 57.

What's new in dermatologic therapy? June, pp 384-391.

Diagnosis and treatment of solar dermatitis in dogs; August, pp 511-515.

Clinical Exposures: Canine dermatophyte infection; December, pp 771-774.

DERMATOPHYTOSIS

Clinical Exposures: Canine dermatophyte infection; December, pp 771-774.

DIABETES MELLITUS

The latest management recommendations for cats and dogs with nonketotic diabetes mellitus; September, pp 600-616.

DIAGNOSTIC IMAGING

Practical Matters: Ultrasonography's limits in staging tumors; March, p 164.

Research Updates: Using computed tomography to find nongastrointestinal foreign bodies; June, p 360.

Practical Matters: Canine pregnancy diagnosis: serum relaxin or ultrasonography? June, p 366.

Diagnostic imaging for linear foreign bodies in cats; August, pp 518-526.

Practical Matters: Radiography helps confirm complete radiopaque calculi removal; September, p 580.

How to obtain the best dental radiographs; October (suppl.), pp 1-15.

Interpreting dental radiographs: The clues to clinical disease; October (suppl.), pp 16-24.

DIAGNOSTIC PROCEDURES

Help us help you! Getting the most from a diagnostic toxicology laboratory; March, pp 179-186.

Clinical Exposures: Feline infectious peritonitis: Typical findings and a new PCR test; June, pp 375-379.

Practical ideas for managing common internal medicine problems; December, pp 780-781.

A tip for interpreting *Leptospira* species titers; December, p 782.

Investigating proteinuric kidney disease; December, pp 784-785.

DRUG THERAPY

Practical Matters: Consider underlying problems and referral before changing NSAID therapy; June, p 366.

What's new in dermatologic therapy? June, pp 384-391.

Ophthalmic drugs: What's new? August, pp 540-545.

EDITORS' GUEST

Editors' Guest: My eye-opening experience in editing a veterinary journal; December, p 763.

ENDOCRINOLOGY

Primary hypoparathyroidism in dogs and

2007 Article Index

cats: Physiology, clinical signs, and initial diagnostic testing; January, pp 30-37.

Diagnosing and treating primary hypoparathyroidism in dogs and cats; January, pp 40-50.

Hyperlipidemia in dogs and cats; September, pp 588-599.

The latest management recommendations for cats and dogs with nonketotic diabetes mellitus; September, pp 600-616.

ENDOSCOPY BRIEF

Identifying the cause of acute cough and respiratory distress in a toy poodle; January, pp 16-20.

EUTHANASIA

Leading Off: Are you doing all you can to reduce euthanasia of healthy, adoptable pets? October, p 638.

The euthanasia problem: How practitioners can help; October, p 667.

Offer basic behavior counseling for every pet at every visit; October, pp 668-672.

Promote and perform early spaying and neutering; October, pp 674-676.

Assist owners in selecting the best pets for their lifestyles; October, pp 678-679.

Champion animal welfare in your community; October, pp 680-684.

FELINE INFECTIOUS PERITONITIS

Clinical Exposures: Feline infectious peritonitis: Typical findings and a new PCR test; June, pp 375-379.

FIBROCARILAGINOUS EMBOLI

Research Updates: Fibrocartilaginous emboli of the spinal cord in cats; January, p 22.

FOOD RECALL

Toxicology Brief: Pet food recall—Aminopterin and melamine; April, p 231.

FOOD-RELATED AGGRESSION

How I treat food-related aggression in dogs; April, pp 247-252.

FOREIGN BODIES

Research Updates: Using computed tomography to find nongastrointestinal foreign bodies; June, p 360.

Diagnostic imaging for linear foreign bodies in cats; August, pp 518-526.

FROM THE EDITORS

Veterinary Medicine wired; January, p 10.

GERIATRICS

Practical Matters: That old, slow dog: Is it really arthritis? March, p 163.

HEARTWORM DISEASE

Commentary: An argument for year-round heartworm prevention in dogs; March (suppl.), pp 4-6.

Feline heartworm disease: Solving the puzzle; March (suppl.), pp 7-14.

Leading Off: Make sure you're up-to-date on your heartworm disease recommendations; September, p 572.

HEPARIN THERAPY

Unfractionated and low-molecular-weight heparin for hypercoagulability in dogs and cats; March, pp 187-202.

HISTIOCYTIC DISORDERS

An overview of canine histiocytic disorders; July, pp 464-480.

HOUSETRAINING

Understanding rabbit behavior and preventing and treating behavior problems; February, pp 104-113.

Client handout: How to litter-box-train your pet rabbit; February, p 116.

Canine housetraining challenges; April, pp 254-262.

Client handout: 10 easy steps to houstrain

your dog; April, p 263.

HYPERCALCEMIA

Treating paraneoplastic hypercalcemia in dogs and cats; May, pp 314-331.

HYPERCOAGULABILITY

Unfractionated and low-molecular-weight heparin for hypercoagulability in dogs and cats; March, pp 187-202.

HYPERLIPIDEMIA

Hyperlipidemia in dogs and cats; September, pp 588-599.

HYPOPARATHYROIDISM

Primary hypoparathyroidism in dogs and cats: Physiology, clinical signs, and initial diagnostic testing; January, pp 30-37.

Diagnosing and treating primary hypoparathyroidism in dogs and cats; January, pp 40-50.

IMMUNE-MEDIATED DISEASE

Overcoming the diagnostic and therapeutic challenges of canine immune-mediated thrombocytopenia; August, pp 527-538.

Is it immune-mediated neutropenia? November pp 724-733.

IN MEMORIAM

Dr. James R. Richards; June, p 354.

INSULIN

The latest management recommendations for cats and dogs with nonketotic diabetes mellitus; September, pp 600-616.

INTERVERTEBRAL DISK DISEASE

Research Updates: Recovery from disk surgery without intraoperative methylprednisolone sodium succinate; June, p 359.

On the Forefront: Prophylactic laser disk ablation in dogs at Oklahoma State University; July, pp 440-442.

KIDNEYS

Investigating proteinuric kidney disease; De-

2007 Article Index

ember, pp 784-785.

11 guidelines for conservatively treating chronic kidney disease; December, pp 788-799.

LASERS

On the Forefront: Prophylactic laser disk ablation in dogs at Oklahoma State University; July, pp 440-442.

LEADING OFF

Make sure you're up-to-date on your heartworm disease recommendations; September, p 572.

Are you doing all you can to reduce euthanasia of healthy, adoptable pets? October, p 638.

Putting the new pain management guidelines into practice; November, pp 704-705.

LEPTOSPIROSIS

A tip for interpreting *Leptospira* species titers; December, p 782.

LETTERS

Dr. Robert Leighton: A professor for us all to admire (Grasse, F.J.); June, p 352.

And nothing but the truth (Rathfon, B.L.); June, p 352.

Thank you, Dr. Miller, for saving my life (Neilson, J.); September, p 570.

Thank you, Dr. Kay (Newman, P.); December, p 762.

LIVER

Toxicology Brief: The critical care of aflatoxin-induced liver failure in dogs; October, pp 644-651.

LYME DISEASE

Answers to three commonly asked questions about Lyme disease; December, pp 778-779.

MAST CELL TUMOR

Clinical Exposures: Cytologic examination of

a cutaneous mast cell tumor in a boxer; March, pp 165-168.

MELAMINE

Toxicology Brief: Pet food recall—Aminopterin and melamine; April, p 231.

METFORMIN

Toxicology Brief: Metformin overdose in dogs and cats; April, pp 231-234.

METHYLPREDNISOLONE

Research Updates: Recovery from disk surgery without intraoperative methylprednisolone sodium succinate; June, p 359.

MIND OVER MILLER

Stuck in the 1950s—we are not! January, p 74.

Observations of a veterinarian's wife; February, p 142.

A lifetime of cartooning; March, p 210.

To confess mistakes or not, that is the question; April, p 270.

We are patients, too; May, p 338.

You must be old if you remember...; June, p 422.

A truckload of camels, and other nightmares; July, p 490.

I can drive 55; August, p 558.

R-E-S-P-E-C-T: Find out what it means to new associates; September, p 626.

Finding a good home for a discarded animal; October, p 694.

Foie gross! November, p 750.

'Twas the night before Christmas; December, p 810.

MUSHROOM POISONING

Toxicology Brief: Mushroom poisoning in dogs; February, pp 95-100.

NEUROLOGIC DISEASE

Research Updates: Fibrocartilaginous emboli of the spinal cord in cats; January, p 22.

Research Updates: Clinical features of spinal abscess in dogs; January, p 22.

A challenging case: Progressive, generalized pain in a young English bulldog; April, pp 238-246.

Clinical Exposures: Vertebral articular process hypertrophy causing spinal cord compression in a Great Dane; May, pp 291-294.

Research Updates: Recovery from disk surgery without intraoperative methylprednisolone sodium succinate; June, p 359.

Practical Matters: How you can easily assess motor function and pain perception in nonambulatory animals; June, p 368.

On the Forefront: Prophylactic laser disk ablation in dogs at Oklahoma State University; July, pp 440-442.

NEUTROPENIA

Is it immune-mediated neutropenia? November pp 724-733.

NUTRITION

Dermatologic manifestations and nutritional management of adverse food reactions; January, pp 51-64.

Client handout: How to conduct a limited-antigen diet trial; January, p 57.

Toxicology Brief: Pet food recall—Aminopterin and melamine; April, p 231.

Hyperlipidemia in dogs and cats; September, pp 588-599.

11 guidelines for conservatively treating chronic kidney disease; December, pp 788-799.

ON THE FOREFRONT

Looking at canine angular limb deformities in a new way; March, pp 160-162.

2007 Article Index

Prophylactic laser disk ablation in dogs at Oklahoma State University; July, pp 440-442.

ONCOLOGY

Practical Matters: Ultrasonography's limits in staging tumors; March, p 164.

Clinical Exposures: Cytologic examination of a cutaneous mast cell tumor in a boxer; March, pp 165-168.

Treating paraneoplastic hypercalcemia in dogs and cats; May, pp 314-331.

Feline oral squamous cell carcinoma: An overview; June, pp 392-408.

An overview of canine histiocytic disorders; July, pp 464-480.

ONYCHECTOMY

Research Updates: Laser vs. scalpel onychectomy in cats; June, p 360.

OPHTHALMOLOGY

A challenging case: An unusual cause of blindness in a Siberian husky; March, pp 172-178.

A challenging case: Blindness and a history of cutaneous nodules in a cat; July, pp 454-461.

Ophthalmic drugs: What's new? August, pp 540-545.

A challenging case: Uveitis and secondary glaucoma in a cat; November, pp 714-721.

ORTHOPEDICS

On the Forefront: Looking at canine angular limb deformities in a new way; March, pp 160-162.

PARANEOPLASTIC HYPERCALCEMIA

Treating paraneoplastic hypercalcemia in dogs and cats; May, pp 314-331.

PARASITOLOGY

Companion-animal parasitology: Still a long way to go; March (suppl.), p 2.

Commentary: An argument for year-round heartworm prevention in dogs; March (suppl.), pp 4-6.

Feline heartworm disease: Solving the puzzle; March (suppl.), pp 7-14.

An overview of cestode infections in dogs and cats; March (suppl.), pp 15-17.

Zoonotic parasitic infections contracted from dogs and cats: How frequent are they? March (suppl.), pp 18-24.

What your clients know—or don't know—about parasite control; March (suppl.), pp 26-29.

Promoting the value of your veterinary expertise in parasite prevention; March (suppl.), pp 30-32.

Leading Off: Make sure you're up-to-date on your heartworm disease recommendations; September, p 572.

Answers to three commonly asked questions about Lyme disease; December, pp 778-779.

PEDIATRICS

Pediatric dentistry: An overview of common problems you'll see in practice; February, pp 118-132.

Practical Matters: Carefully consider drug dosages in puppies and kittens; September, p 581.

Promote and perform early spaying and neutering; October, pp 674-676.

PHARMACOLOGY

What's new in dermatologic therapy? June, pp 384-391.

Ophthalmic drugs: What's new? August, pp 540-545.

Practical Matters: Use caution when prescribing transdermal medications for feline behavior problems; September, p 580.

Practical Matters: Carefully consider drug dosages in puppies and kittens; September, p 581.

Pimobendan treatment in dogs with congestive heart failure; November, pp 736-740.

PIMOBENDAN

Pimobendan treatment in dogs with congestive heart failure; November, pp 736-740.

PRACTICAL MATTERS

That old, slow dog: Is it really arthritis? March, p 163.

Use lower doses of oxytocin for dystocia; March, p 163.

Ultrasonography's limits in staging tumors; March, p 164.

Consider underlying problems and referral before changing NSAID therapy; June, p 366.

Canine pregnancy diagnosis: serum relaxin or ultrasonography? June, p 366.

How you can easily assess motor function and pain perception in nonambulatory animals; June, p 368.

Use caution when prescribing transdermal medications for feline behavior problems; September, p 580.

Radiography helps confirm complete radiopaque calculi removal; September, p 580.

Carefully consider drug dosages in puppies and kittens; September, p 581.

PRIMARY HYPOPARATHYROIDISM

Primary hypoparathyroidism in dogs and cats: Physiology, clinical signs, and initial diagnostic testing; January, pp 30-37.

Diagnosing and treating primary hypoparathyroidism in dogs and cats; January, pp 40-50.

2007 Article Index

PROTEINURIA

Investigating proteinuric kidney disease; December, pp 784-785.

PROTOTHECOSIS

A challenging case: An unusual cause of blindness in a Siberian husky; March, pp 172-178.

RABBITS

Understanding rabbit behavior and preventing and treating behavior problems; February, pp 104-113.

Client handout: How to litter-box-train your pet rabbit; February, p 116.

REPRODUCTION

Practical Matters: Use lower doses of oxytocin for dystocia; March, p 163.

Practical Matters: Canine pregnancy diagnosis: serum relaxin or ultrasonography? June, p 366.

Clinical Exposures: A retained testis and spermatic cord torsion in a boxer; November, pp 708-710.

RESEARCH UPDATES

Effects of electrostimulated acupuncture in dogs with elbow arthritis; January, p 21.

Fibrocartilaginous emboli of the spinal cord in cats; January, p 22.

Clinical features of spinal abscess in dogs; January, p 22.

Effects of extensive small bowel resection in dogs and cats; January, p 24.

Role of subcutaneous tissues in skin wound healing; January, p 24.

Recovery from disk surgery without intraoperative methylprednisolone sodium succinate; June, p 359.

Laser vs. scalpel onychectomy in cats; June, p 360.

Using computed tomography to find non-gastrointestinal foreign bodies; June, p 360.

Accuracy of splenic aspirate cytologic diagnoses; June, p 361.

Spontaneous retrograde movement of ureteroliths; June, pp 361-364.

RESPIRATORY DISEASE

Endoscopy Brief: Identifying the cause of acute cough and respiratory distress in a toy poodle; January, pp 16-20.

SALIVARY MUCOCELES

Salivary mucoceles in cats: A retrospective study of seven cases; September, pp 582-585.

SHELTER MEDICINE

Animal sheltering in the United States: Yesterday, today, and tomorrow; October, pp 656-663.

SMALL BOWEL RESECTION

Research Updates: Effects of extensive small bowel resection in dogs and cats; January, p 24.

SOLAR DERMATITIS

Diagnosis and treatment of solar dermatitis in dogs; August, pp 511-515.

SPERMATIC CORD TORSION

Clinical Exposures: A retained testis and spermatic cord torsion in a boxer; November, pp 708-710.

SPINAL DISEASE

Research Updates: Fibrocartilaginous emboli of the spinal cord in cats; January, p 22.

Research Updates: Clinical features of spinal abscess in dogs; January, p 22.

A challenging case: Progressive, generalized pain in a young English bulldog; April, pp 238-246.

Clinical Exposures: Vertebral articular process hypertrophy causing spinal cord compression in a Great Dane; May, pp 291-294.

Practical Matters: How you can easily assess motor function and pain perception in nonambulatory animals; June, p 368.

SPLENIC ASPIRATES

Research Updates: Accuracy of splenic aspirate cytologic diagnoses; June, p 361.

SQUAMOUS CELL CARCINOMA

Feline oral squamous cell carcinoma: An overview; June, pp 392-408.

SURGERY

Research Updates: Effects of extensive small bowel resection in dogs and cats; January, p 24.

On the Forefront: Looking at canine angular limb deformities in a new way; March, pp 160-162.

Managing dogs with thoracic impalement injuries: A review of nine cases; May, pp 307-313.

Research Updates: Laser vs. scalpel onychectomy in cats; June, p 360.

On the Forefront: Prophylactic laser disk ablation in dogs at Oklahoma State University; July, pp 440-442.

Salivary mucoceles in cats: A retrospective study of seven cases; September, pp 582-585.

Promote and perform early spaying and neutering; October, pp 674-676.

TAPEWORMS

An overview of cestode infections in dogs and cats; March (suppl.), pp 15-17.

THORACIC TRAUMA

Managing dogs with thoracic impalement injuries: A review of nine cases; May, pp 307-313.

THROMBOCYTOPENIA

Overcoming the diagnostic and therapeutic challenges of canine immune-mediated thrombocytopenia; August, pp 527-538.

2007 Article Index

TOXICOLOGY

Help us help you! Getting the most from a diagnostic toxicology laboratory; March, pp 179-186.

TOXICOLOGY BRIEF

Mushroom poisoning in dogs; February, pp 95-100.

Pet food recall—Aminopterin and melamine; April, p 231.

Metformin overdose in dogs and cats; April, pp 231-234.

Breathe with ease when managing beta₂ agonist inhaler toxicoses in dogs; June, pp 369-373.

The critical care of aflatoxin-induced liver failure in dogs; October, pp 644-651.

TOXOPLASMOSIS

A challenging case: Uveitis and secondary glaucoma in a cat; November, pp 714-721.

TRAUMA

Managing dogs with thoracic impalement injuries: A review of nine cases; May, pp 307-313.

UVEITIS

A challenging case: Uveitis and secondary glaucoma in a cat; November, pp 714-721.

VERTEBRAL PHYSITIS

A challenging case: Progressive, generalized pain in a young English bulldog; April, pp 238-246.

VETERINARY MEDICINE INTERVIEW

Wayne L. Hunthausen; January, pp 12-13.
Bernard E. Rollin; February, pp 88-90.
Joseph W. Bartges; March, pp 156-159.
Timothy M. Fan; April, pp 224-226.
Karen A. Moriello; May, pp 284-285.
David S. Bruyette; June, pp 356-357.
Jacqueline C. Neilson; July, pp 436-438.
Richard B. Ford; August, pp 503-504.
William J. Kay; September, pp 574-575.
Kevin Fitzgerald; October, pp 640-642.

Lila Miller; November, pp 706-707.

Joseph Harari; December, pp 768-770.

VETERINARY VOICES

The caribou project: A veterinary student realizes her wildest dreams; January, pp 14-15.

Writing on the range; May, pp 286-290.

A pathologist with a penchant for piano tuning; August, pp 506-507.

WOUNDS

Research Updates: Role of subcutaneous tissues in skin wound healing; January, p 24.

ZOONOSIS

Zoonotic parasitic infections contracted from dogs and cats: How frequent are they? March (suppl.), pp 18-24.
