

2008 Annual Index

SUBJECTS

ACE inhibitors

Video: Proteinuria in cats with chronic kidney disease; September, p 477.

Addison's disease

Updates on canine hypoadrenocorticism; June, pp 320-334.

CVC Central 2008 Highlights: Managing atypical and critical cases of primary hypoadrenocorticism in dogs; December, pp 650-651.

Adverse events

Leading Off: How we can contribute to clinical research; September, pp 482-489.

Aggression

Video: Gender-specific behaviors in dogs and cats: A surprising difference; December, p 633.

Analgesia

Video: Early feeding and pain control help dogs with parvovirus infection; March, p 133.

Improve patient comfort with these 10 analgesic strategies; June (suppl.), pp 1-3.

Practical Matters: Prudent NSAID use helps prevent adverse effects; August, p 431.

Video: How to use meloxicam in cats with osteoarthritis; November, p 582.

Osteoarthritis in cats: What we now know about recognition and treatment; November, pp 611-616.

Video: Do cats become dysphoric when given opioids? December, p 633.

Anaplasmosis

An update on anaplasmosis in dogs; April, pp 212-222.

Anemia

IMHA: Diagnosing and treating a complex disease; December, pp 660-671.

Animal welfare

The *Veterinary Medicine* Interview: Dr. Melinda D. Merck; February, pp 72-74.

10 life-threatening behavior myths; September, pp 504-515.

Client information sheet: Why punishment fails; what works better; September, p 510.

Antifungals

A review of selected systemic antifungal drugs for use in dogs and cats; January, pp 41-50.

Canine and feline histoplasmosis: A review of a widespread fungus; May, pp 248-264.

Arthritis

Have You Heard? Measuring cats' activity levels; March, p 133.

Video: How to use meloxicam in cats with osteoarthritis; November, p 582.

Osteoarthritis in cats: What we now know about recognition and treatment; November, pp 611-616.

Practical Matters: Early screening and the role of DARthroplasty as an intervention in young dogs with hip dysplasia; December, pp 642-646.

Ataxia

Practical Matters: Don't jump to conclusions in ataxic dogs; July, p 358.

Atopic dermatitis

A busy clinician's review of cyclosporine; May, pp 266-274.

Avian influenza

Have You Heard? A potential flu vaccine; December, p 633.

Bandaging

Video: How to apply a spoon splint; December, p 633.

- Part 1
- Part 2
- Part 3
- Part 4

CVC Central 2008 Highlights: Avoid common bandaging mistakes in dogs and cats; December, pp 658-659.

Bats

Have You Heard? How man-made and natural noises affect bats' foraging behavior; November, p 582.

Baylisascaris procyonis

Just Ask the Expert: Dr. Kevin R. Kazacos; November, p 592.

Behavior

Help! My dog licks everything; April, pp 198-211.

Video: Overactive pets and dogs that pull on their leashes; May, p 237.

Make behavioral counseling an integral part of every visit; June (suppl.), pp 4-5.

Leading Off: Not all animal behaviorists are created equal; August, p 422.

10 life-threatening behavior myths; September, pp 504-515.

Client information sheet: Why punishment fails; what works better; September, p 510.

Have You Heard? How man-made and natural noises affect bats' foraging behavior; November, p 582.

Video: Gender-specific behaviors in dogs and cats: A surprising difference; December, p 633.

CVC Central 2008 Highlights: Why do dogs and cats eat grass? December, pp 648-649.

CVC Central 2008 Highlights: Behaviors suggestive of postoperative pain in cats; December, pp 652-654.

Benazepril

Have You Heard? Pimobendan vs. benazepril; August, p 417.

Bleach

Toxicology Brief: Sodium hypochlorite bleach ingestion in two dogs; January, pp 13-18.

Blood pressure

Video: Blood pressure measurement in cats; August, p 417.

Brunfelsia species

Toxicology Brief: *Brunfelsia* species: Beautiful but deadly; March, pp 138-143.

Calcium

Guidelines for evaluating hypercalcemic cats; July, pp 392-403.

Practical Matters: Do not institute calcium supplementation during canine pregnancy; September, p 490.

Canine transmissible venereal tumor

Clinical Exposures: Canine transmissible venereal tumor: The cytologic clues; June, pp 296-304.

CAPC

Rational guidelines, reliable parasiticides: Working together to keep pets healthy; March (suppl.), p 2.

CAPC primary guidelines; March (suppl.), pp 28-30.

Leading Off: Taking the parasite control message to the people; June, p 295.

On the road with CAPC; July, p 351.

Cardiology

The indications and technique for continuous ambulatory electrocardiographic recording in dogs; January, pp 28-40.

Have You Heard? Pimobendan vs. benazepril; August, p 417.

CATalyst

Leading Off: CATalyst: Fighting indifference about feline health; May, p 240.

Centrifugal fecal flotation

Why fecal centrifugation is better; June (suppl.), pp 8-9.

Chemotherapy

An update on diagnosing and treating primary lung tumors; March, pp 154-169.

Have You Heard? How owners perceive their pets' responses to chemotherapy; April, p 185.

Chylothorax

A challenging case: Thymic cyst and recurrent chylothorax in a cat; September, pp 492-503.

Clarifications

Idea Exchange: Sometimes you can judge a bottle by its wrapping (April 2008); July, p 362.

Client information sheets

Demodicosis in dogs; August, p 451.

Client consent form: Ivermectin for the treatment of demodicosis; August, p 455.

Why punishment fails; what works better; September, p 510.

Clinical Exposures

Canine transmissible venereal tumor: The cytologic clues; June, pp 296-304.

Incidental finding of a peritoneopericardial hernia in a cat; October, pp 538-539.

Preovulatory stasis and dystocia in oviparous lizards; November, pp 595-598.

Clinical trials

Leading Off: How we can contribute to clinical research; September, pp 482-489.

ClinQuiz

Parasitology; February, pp 86-90.

Ectoparasites; August, pp 423-428.

Compulsive disorder

Help! My dog licks everything; April, pp 198-211.

Congestive heart failure

Have You Heard? Pimobendan vs. benazepril; August, p 417.

Conjunctival lymphoma

A challenging case: Conjunctival lymphoma in a cat; June, pp 310-319.

Copper-associated hepatopathy

Diagnosing and treating canine copper-associated hepatopathies; August, pp 434-440.

Cushing's syndrome

Trilostane: A therapeutic consideration for canine hyperadrenocorticism; February, pp 104-117.

CVC Central 2008 Highlights

Why do dogs and cats eat grass? December, pp 648-649.

Managing atypical and critical cases of primary hypoadrenocorticism in dogs; December, pp 650-651.

Behaviors suggestive of postoperative pain in cats; December, pp 652-654.

What to consider when considering digital radiography; December, pp 656-657.

Avoid common bandaging mistakes in dogs and cats; December, pp 658-659.

Cycad palms

Toxicology Brief: Cycad toxicosis in dogs; May, pp 242-244.

Cyclosporine

A busy clinician's review of cyclosporine; May, pp 266-274.

IMHA: Diagnosing and treating a complex disease; December, pp 660-671.

Cytology

Video: How to manage iron deficiency in dogs; when to perform cytologic examinations; February, p 67.

Slideshow: Cytology sample interpretation; June, p 291.

Clinical Exposures: Canine transmissible venereal tumor: The cytologic clues; June, pp 296-304.

Cutaneous cytology: A quick review of an indispensable test; June (suppl.), pp 20-21.

Practical Matters: Vaginal cytology: Its value in detecting the cause of vulvar discharge; July, pp 358-359.

Practical Matters: Vaginal cytology for ovulation timing: Not necessarily an accurate indicator; November, p 599.

DARthroplasty

Practical Matters: Early screening and the role of DARthroplasty as an intervention in young dogs with hip dysplasia; December, pp 642-646.

Degenerative joint disease

Osteoarthritis in cats: What we now know about recognition and treatment; November, pp 611-616.

Dehydration

Practical Matters: Identifying dehydration in puppies and kittens; August, p 431.

Demodicosis

Canine and feline demodicosis; August, pp 444-461.

Client information sheet: Demodicosis in dogs; August, p 451.

Client consent form: Ivermectin for the treatment of demodicosis; August, p 455.

Kudos and a *Demodex* species mite treatment update (Savell, C.); November, p 593.

2008 Annual Index

Dental Corner

Dental Corner: Dental fracture treatment options in dogs and cats; July, pp 363-371.

Dental fractures

Dental Corner: Dental fracture treatment options in dogs and cats; July, pp 363-371.

Dentistry

Dental Corner: Dental fracture treatment options in dogs and cats; July, pp 363-371.

Just Ask the Expert: Daniel T. Carmichael, DVM, DAVDC; September, p 477.

Dermatology

A challenging case: Glucagonoma-associated superficial necrolytic dermatitis in a dog; March, pp 146-153.

A busy clinician's review of cyclosporine; May, pp 266-274.

Slideshow: Cytology sample interpretation; June, p 291.

Cutaneous cytology: A quick review of an indispensable test; June (suppl.), pp 20-21.

Canine and feline demodicosis; August, pp 444-461.

Client information sheet: Demodicosis in dogs; August, p 451.

Client consent form: Ivermectin for the treatment of demodicosis; August, p 455.

Diabetes mellitus

Don't overlook these 4 noteworthy advances in endocrinology; June (suppl.), pp 16-18.

Video: Insulin availability: Our latest options; December, p 633.

Diagnostic procedures

Video: Performing a neurologic examination; January, p 7.

- Part 1: Observation, palpation, and postural reactions
- Part 2: Cranial nerve evaluation
- Part 3: Spinal and cutaneous reflexes
- Part 4: Assessing for pain

Video: Identifying dogs with leptospirosis; April, p 185.

Slideshow: Cytology sample interpretation; June, p 291.

Why fecal centrifugation is better; June (suppl.), pp 8-9.

10 simple but essential tests; June (suppl.), pp 10-14.

Cutaneous cytology: A quick review of an indispensable test; June (suppl.), pp 20-21.

The diagnostic approach to hematuria; July, pp 374-391.

Guidelines for evaluating hypercalcemic cats; July, pp 392-403.

Leading Off: Why the physical exam is still really necessary; October, pp 534-536.

Digital radiography

CVC Central 2008 Highlights: What to consider when considering digital radiography; December, pp 656-657.

Dysphoria

Video: Do cats become dysphoric when given opioids? December, p 633.

ECG recording

The indications and technique for continuous ambulatory electrocardiographic recording in dogs; January, pp 28-40.

Ectoparasites

ClinQuiz: Ectoparasites; August, pp 423-428.

Editors' Guest

Editors' Guest: Candidates' pets can make a difference at the ballot box; November, p 590.

Editors' Note

Our new home is your new online resource: dvm360.com; August, p 419.

Emergency medicine

Research Updates: Effect of the moon on emergency room visits; February, pp 79-80.

Endocrinology

Trilostane: A therapeutic consideration for canine hyperadrenocorticism; February, pp 104-117.

A challenging case: Glucagonoma-associated superficial necrolytic dermatitis in a dog; March, pp 146-153.

Updates on canine hypoadrenocorticism; June, pp 320-334.

Don't overlook these 4 noteworthy advances in endocrinology; June (suppl.), pp 16-18.

Video: Insulin availability: Our latest options; December, p 633.

CVC Central 2008 Highlights: Managing atypical and critical cases of primary hypoadrenocorticism in dogs; December, pp 650-651.

Esophageal leiomyoma

A challenging case: Esophageal leiomyoma in a dog; November, pp 606-610.

Esophagus

A challenging case: Esophageal leiomyoma in a dog; November, pp 606-610.

Exotic-animal medicine

Clinical Exposures: Preovulatory stasis and dystocia in oviparous lizards; November, pp 595-598.

Famotidine

Have You Heard? Famotidine in cats: IV or SC? May, p 237.

Foxhounds

Video: Leishmaniasis in North American foxhounds; June, p 291.

Fungal disease

A review of selected systemic antifungal drugs for use in dogs and cats; January, pp 41-50.

Canine and feline histoplasmosis: A review of a widespread fungus; May, pp 248-264.

Gender

Video: Gender-specific behaviors in dogs and cats: A surprising difference; December, p 633.

Glucagonoma

A challenging case: Glucagonoma-associated superficial necrolytic dermatitis in a dog; March, pp 146-153.

Glucocorticoid deficiency

Updates on canine hypoadrenocorticism; June, pp 320-334.

CVC Central 2008 Highlights: Managing atypical and critical cases of primary hypoadrenocorticism in dogs; December, pp 650-651.

Grass

CVC Central 2008 Highlights: Why do dogs and cats eat grass? December, pp 648-649.

2008 Annual Index

Have You Heard?

Squirrels can disguise themselves as snakes; January, p 7.

Toxoplasmosis and schizophrenia: A link? February, p 67.

Measuring cats' activity levels; March, p 133.

How owners perceive their pets' responses to chemotherapy; April, p 185.

Famotidine in cats: IV or SC? May, p 237.

Pimobendan vs. benazepril; August, p 417.

How man-made and natural noises affect bats' foraging behavior; November, p 582.

A potential flu vaccine; December, p 633.

Heartworm disease

A guide to canine parasiticides; March (suppl.), pp 6-19.

A guide to feline parasiticides; March (suppl.), pp 20-26.

Hematuria

The diagnostic approach to hematuria; July, pp 374-391.

Hemolysis

Have You Heard? Famotidine in cats: IV or SC? May, p 237.

Hip dysplasia

Practical Matters: Early screening and the role of DARTroplasty as an intervention in young dogs with hip dysplasia; December, pp 642-646.

Histoplasmosis

Canine and feline histoplasmosis: A review of a widespread fungus; May, pp 248-264.

Holter monitoring

The indications and technique for continuous ambulatory electrocardiographic recording in dogs; January, pp 28-40.

Hyperadrenocorticism

Trilostane: A therapeutic consideration for canine hyperadrenocorticism; February, pp 104-117.

Hypercalcemia

Guidelines for evaluating hypercalcemic cats; July, pp 392-403.

Hypertension

Video: Blood pressure measurement in cats; August, p 417.

Hypoadrenocorticism

Updates on canine hypoadrenocorticism; June, pp 320-334.

CVC Central 2008 Highlights: Managing atypical and critical cases of primary hypoadrenocorticism in dogs; December, pp 650-651.

Imaging

Research Updates: How well does abdominal ultrasonographic evaluation guide surgeons? February, p 78.

Practical Matters: Importance of thoracic radiography in patients with cancer; August, p 432.

Practical Matters: Consider cross-sectional imaging before surgery for feline injection-site sarcomas; September, p 490.

Clinical Exposures: Incidental finding of a peritoneopericardial hernia in a cat; October, pp 538-539.

Practical Matters: Use comparison radiographs when identifying orthopedic lesions in young dogs; November, p 599.

CVC Central 2008 Highlights: What to consider when considering digital radiography; December, pp 656-657.

Immune-mediated hemolytic anemia

IMHA: Diagnosing and treating a complex disease; December, pp 660-671.

Immunology

Have You Heard? A potential flu vaccine; December, p 633.

Immunosuppressive therapy

IMHA: Diagnosing and treating a complex disease; December, pp 660-671.

Infectious disease

Video: Early feeding and pain control help dogs with parvovirus infection; March, p 133.

Video: Identifying dogs with leptospirosis; April, p 185.

An update on anaplasmosis in dogs; April, pp 212-222.

Insulin therapy

Don't overlook these 4 noteworthy advances in endocrinology; June (suppl.), pp 16-18.

Video: Insulin availability: Our latest options; December, p 633.

Iron deficiency

Video: How to manage iron deficiency in dogs; when to perform cytologic examinations; February, p 67.

Just Ask the Expert

Daniel T. Carmichael, DVM, DAVDC; September, p 477.

Dr. Kevin R. Kazacos; November, p 592.

Kidneys

Screening and medical management of feline kidney transplant candidates; February, pp 92-103.

Video: Proteinuria in cats with chronic kidney disease; September, p 477.

Video: Diet considerations in pets with kidney disease; October, p 531.

Stalking stones: An overview of canine and feline urolithiasis; October, pp 542-561.

Leading Off

A challenge that could save pets' lives; April, p 192.

CATalyst: Fighting indifference about feline health; May, p 240.

Taking the parasite control message to the people; June, p 295.

The feline vaccine guidelines are more accessible than ever; July, p 356.

Not all animal behaviorists are created equal; August, p 422.

How we can contribute to clinical research; September, pp 482-489.

Why the physical exam is still really necessary; October, pp 534-536.

Making the most of specialty referral services; November, pp 586-587.

Leash pulling

Video: Overactive pets and dogs that pull on their leashes; May, p 237.

2008 Annual Index

Leishmaniasis

Video: Leishmaniasis in North American foxhounds; June, p 291.

Leptospirosis

Video: Identifying dogs with leptospirosis; April, p 185.

Letters

Dr. Miller's admirable stance (Elkins, A.D.; Trupin, V.); January, p 12.

Providing the right fluids in patients with hypernatremia (Noll, J.A.); Response (Chapman, S.); April, p 190.

Our youngest reader (Blakely, J.); April, p 190.

A heads up on ensuring adequate sterilization (Schuerger, R.J.); April, p 190.

Kudos and a *Demodex* species mite treatment update (Savell, C.); November, p 593.

More support for the physical exam (Elkins, A.D.); December, p 639.

Behavior information that is fit to be shared (Meyer, E.K.); December, p 639.

After all these years, Dr. Miller has still got it (Tripp, R.); December, p 639.

Licking

Help! My dog licks everything; April, pp 198-211.

Liver

Diagnosing and treating canine copper-associated hepatopathies; August, pp 434-440.

Lizards

Clinical Exposures: Preovulatory stasis and dystocia in oviparous lizards; November, pp 595-598.

Lunar cycle

Research Updates: Effect of the moon on emergency room visits; February, pp 79-80.

Lungs

An update on diagnosing and treating primary lung tumors; March, pp 154-169.

Mange

Canine and feline demodicosis; August, pp 444-461.

Client information sheet: Demodicosis in dogs; August, p 451.

Client consent form: Ivermectin for the treatment of demodicosis; August, p 455.

Kudos and a *Demodex* species mite treatment update (Savell, C.); November, p 593.

Meloxicam

Video: How to use meloxicam in cats with osteoarthritis; November, p 582.

Osteoarthritis in cats: What we now know about recognition and treatment; November, pp 611-616.

Mind Over Miller

The interview: Species-specific silliness; January, p 58.

Exercise your right to write prescriptions; February, p 126.

A little bit of horse sense; March, p 178.

There go we all; April, p 230.

When discussing life and death, words matter; May, p 282.

Our profession's behavior problem; June, p 342.

A really good dog; July, p 410.

Not all of my patients are animals; August, p 470.

Crutches add a new perspective; September, p 522.

We do what we have to do! October, p 574.

Things change, appreciation remains; November, p 626.

The ghosts of Christmas past; December, p 678.

Mineralocorticoid deficiency

Updates on canine hypoadrenocorticism; June, pp 320-334.

CVC Central 2008 Highlights: Managing atypical and critical cases of primary hypoadrenocorticism in dogs; December, pp 650-651.

Mycoplasma species

Practical Matters: What's the significance of *Mycoplasma* species in the urogenital tract? December, p 646.

Neurology

Video: Performing a neurologic examination; January, p 7.

- Part 1: Observation, palpation, and postural reactions
- Part 2: Cranial nerve evaluation
- Part 3: Spinal and cutaneous reflexes
- Part 4: Assessing for pain

Practical Matters: Don't jump to conclusions in ataxic dogs; July, p 358.

NSAIDs

Practical Matters: Prudent NSAID use helps prevent adverse effects; August, p 431.

Nutrition

Video: Early feeding and pain control help dogs with parvovirus infection; March, p 133.

Video: Diet considerations in pets with kidney disease; October, p 531.

CVC Central 2008 Highlights: Why do dogs and cats eat grass? December, pp 648-649.

Obesity

Leading Off: A challenge that could save pets' lives; April, p 192.

Oncology

Research Updates: The prevalence of and risk factors for canine appendicular osteosarcoma; February, p 79.

A challenging case: Glucagonoma-associated superficial necrolytic dermatitis in a dog; March, pp 146-153.

An update on diagnosing and treating primary lung tumors; March, pp 154-169.

Have You Heard? How owners perceive their pets' responses to chemotherapy; April, p 185.

Clinical Exposures: Canine transmissible venereal tumor: The cytologic clues; June, pp 296-304.

A challenging case: Conjunctival lymphoma in a cat; June, pp 310-319.

Practical Matters: Importance of thoracic radiography in patients with cancer; August, p 432.

Practical Matters: Consider cross-sectional imaging before surgery for feline injection-site sarcomas; September, p 490.

2008 Annual Index

A challenging case: Esophageal leiomyoma in a dog; November, pp 606-610.

Ophthalmology

A challenging case: Conjunctival lymphoma in a cat; June, pp 310-319.

Opioids

Video: Do cats become dysphoric when given opioids? December, p 633.

Orthopedics

Practical Matters: Don't jump to conclusions in ataxic dogs; July, p 358.

Practical Matters: Use comparison radiographs when identifying orthopedic lesions in young dogs; November, p 599.

Practical Matters: Early screening and the role of DARTHroplasty as an intervention in young dogs with hip dysplasia; December, pp 642-646.

Osteoarthritis

Video: How to use meloxicam in cats with osteoarthritis; November, p 582.

Osteoarthritis in cats: What we now know about recognition and treatment; November, pp 611-616.

Osteosarcoma

Research Updates: The prevalence of and risk factors for canine appendicular osteosarcoma; February, p 79.

Overactivity

Video: Overactive pets and dogs that pull on their leashes; May, p 237.

Pain

Video: Early feeding and pain control help dogs with parvovirus infection; March, p 133.

Improve patient comfort with these 10 analgesic strategies; June (suppl.), pp 1-3.

Practical Matters: Prudent NSAID use helps prevent adverse effects; August, p 431.

Video: How to use meloxicam in cats with osteoarthritis; November, p 582.

Osteoarthritis in cats: What we now know about recognition and treatment; November, pp 611-616.

Video: Do cats become dysphoric when given opioids? December, p 633.

CVC Central 2008 Highlights: Behaviors suggestive of postoperative pain in cats; December, pp 652-654.

Parasitology

Have You Heard? Toxoplasmosis and schizophrenia: A link? February, p 67.

ClinQuiz: Parasitology; February, pp 86-90.

Rational guidelines, reliable parasiticides: Working together to keep pets healthy; March (suppl.), p 2.

A guide to canine parasiticides; March (suppl.), pp 6-19.

A guide to feline parasiticides; March (suppl.), pp 20-26.

CAPC primary guidelines; March (suppl.), pp 28-30.

An update on anaplasmosis in dogs; April, pp 212-222.

Video: Leishmaniasis in North American foxhounds; June, p 291.

Leading Off: Taking the parasite control message to the people; June, p 295.

Why fecal centrifugation is better; June (suppl.), pp 8-9.

On the road with CAPC; July, p 351.

ClinQuiz: Ectoparasites; August, pp 423-428.

Just Ask the Expert: Dr. Kevin R. Kazacos; November, p 592.

Parvovirus

Video: Early feeding and pain control help dogs with parvovirus infection; March, p 133.

Pediatrics

Video: Early feeding and pain control help dogs with parvovirus infection; March, p 133.

Practical Matters: Identifying dehydration in puppies and kittens; August, p 431.

Practical Matters: Early screening and the role of DARTHroplasty as an intervention in young dogs with hip dysplasia; December, pp 642-646.

Perianal fistula

A busy clinician's review of cyclosporine; May, pp 266-274.

Peritoneopericardial hernia

Clinical Exposures: Incidental finding of a peritoneopericardial hernia in a cat; October, pp 538-539.

Pharmacology

A review of selected systemic antifungal drugs for use in dogs and cats; January, pp 41-50.

A busy clinician's review of cyclosporine; May, pp 266-274.

Phimosis

A challenging case: Phimosis in a young adult dog; January, pp 22-26.

Pimobendan

Have You Heard? Pimobendan vs. benazepril; August, p 417.

Practical Matters

Don't jump to conclusions in ataxic dogs; July, p 358.

Vaginal cytology: Its value in detecting the cause of vulvar discharge; July, pp 358-359.

Prudent NSAID use helps prevent adverse effects; August, p 431.

Identifying dehydration in puppies and kittens; August, p 431.

Importance of thoracic radiography in patients with cancer; August, p 432.

Consider cross-sectional imaging before surgery for feline injection-site sarcomas; September, p 490.

Do not institute calcium supplementation during canine pregnancy; September, p 490.

Use comparison radiographs when identifying orthopedic lesions in young dogs; November, p 599.

Vaginal cytology for ovulation timing: Not necessarily an accurate indicator; November, p 599.

Early screening and the role of DARTHroplasty as an intervention in young dogs with hip dysplasia; December, pp 642-646.

What's the significance of *Mycoplasma* species in the urogenital tract? December, p 646.

2008 Annual Index

Practice Makes Perfect

Practice Makes Perfect: A tale of two blogs; November, p 594.

Prepuce

A challenging case: Phimosis in a young adult dog; January, pp 22-26.

Presidential election

Editors' Guest: Candidates' pets can make a difference at the ballot box; November, p 590.

Preventives

Rational guidelines, reliable parasiticides: Working together to keep pets healthy; March (suppl.), p 2.

A guide to canine parasiticides; March (suppl.), pp 6-19.

A guide to feline parasiticides; March (suppl.), pp 20-26.

CAPC primary guidelines; March (suppl.), pp 28-30.

Leading Off: Taking the parasite control message to the people; June, p 295.

On the road with CAPC; July, p 351.

Proteinuria

Video: Proteinuria in cats with chronic kidney disease; September, p 477.

Punishment

Client information sheet: Why punishment fails; what works better; September, p 510.

Radiography

Practical Matters: Importance of thoracic radiography in patients with cancer; August, p 432.

Clinical Exposures: Incidental finding of a peritoneopericardial hernia in a cat; October, pp 538-539.
