Business Strategies

40 Protecting IP Throughout the Product Lifecycle

Bruce Rubinger and Howard Davis, Global Prior Art Industry can no longer afford an intellectual property strategy that relies on a few early-stage patents. To stay competitive, companies must file patents at every phase of a product's lifecycle.

Human Resource Strategies

50 Managing the Innovator

Adam Zuckerman, PhD, and Leo Brajkovich, PhD, ISR Employee opinion surveys reveal crucial information about R&D employees—and how to manage them.

EXECUTIVE PROFILE

30 Allergan: More Than Just a Pretty Face

by L.J. Sellers

Before Botox became a popular beauty treatment, Allergan was just a small ophthalmic business that made prescription eye therapies and contact lens care products. CEO David Pyott outlines how the company transformed its business to generate 23 percent annual growth.
