

IMPROVING LAB EFFICIENCY

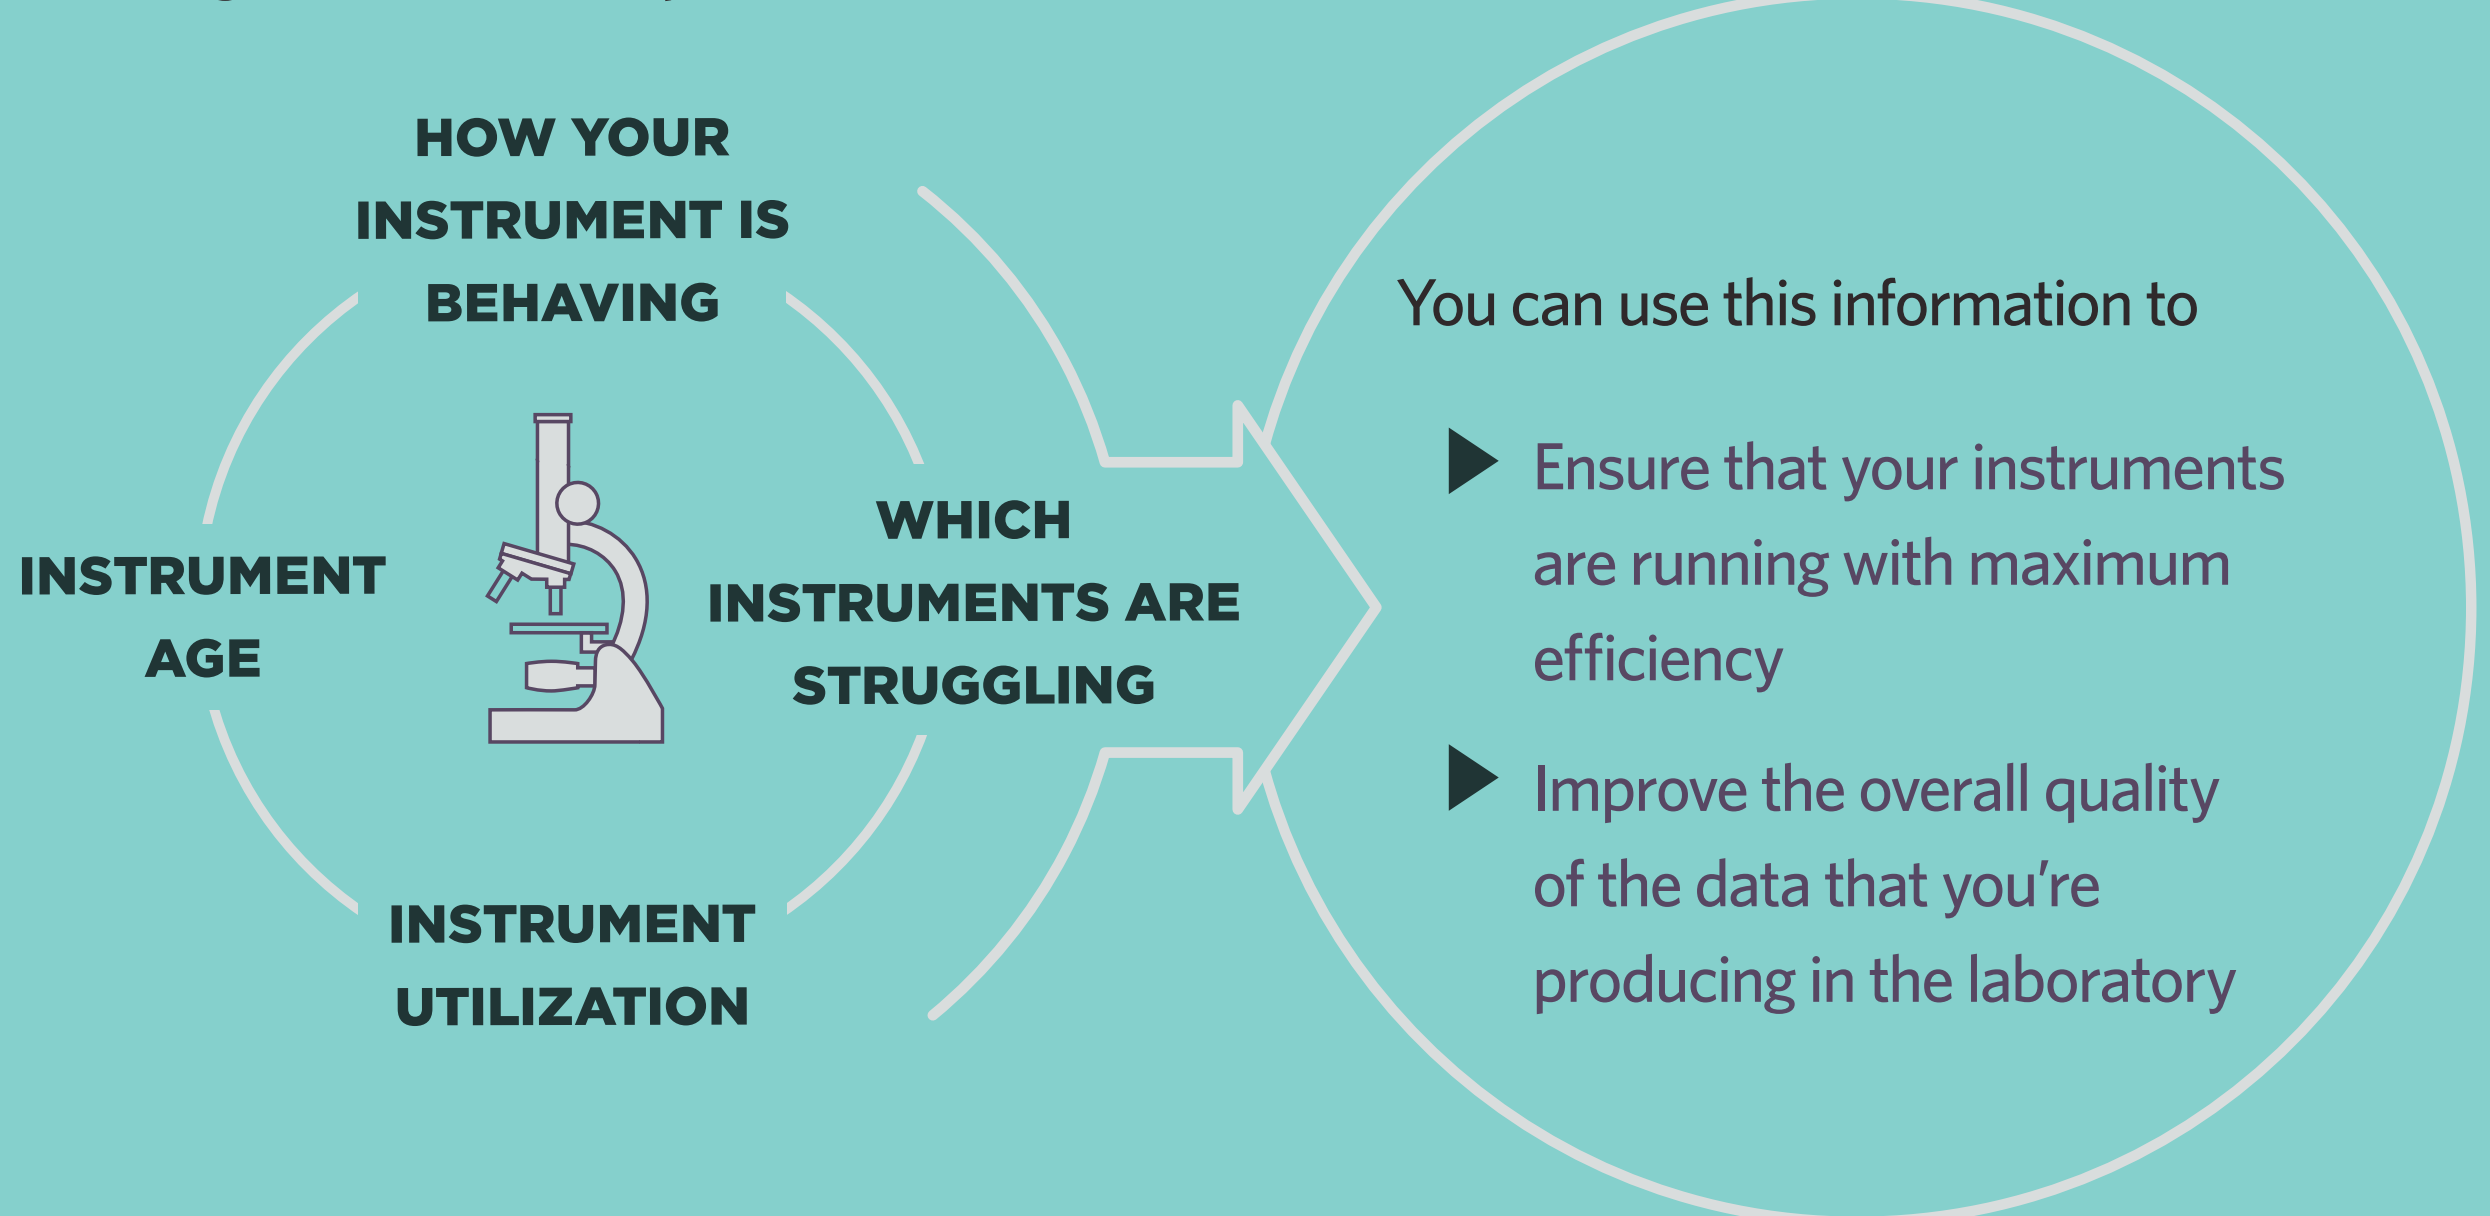

THROUGH NEW MOBILITY AND DATA VISUALIZATION TECHNIQUES

As a scientist, you know what it's like to struggle with vast amounts of complex data from a multitude of instruments. Fortunately, there is analytical software available that empowers you to perform complex analysis and create visual dashboards of your lab operational data—all from a single database.

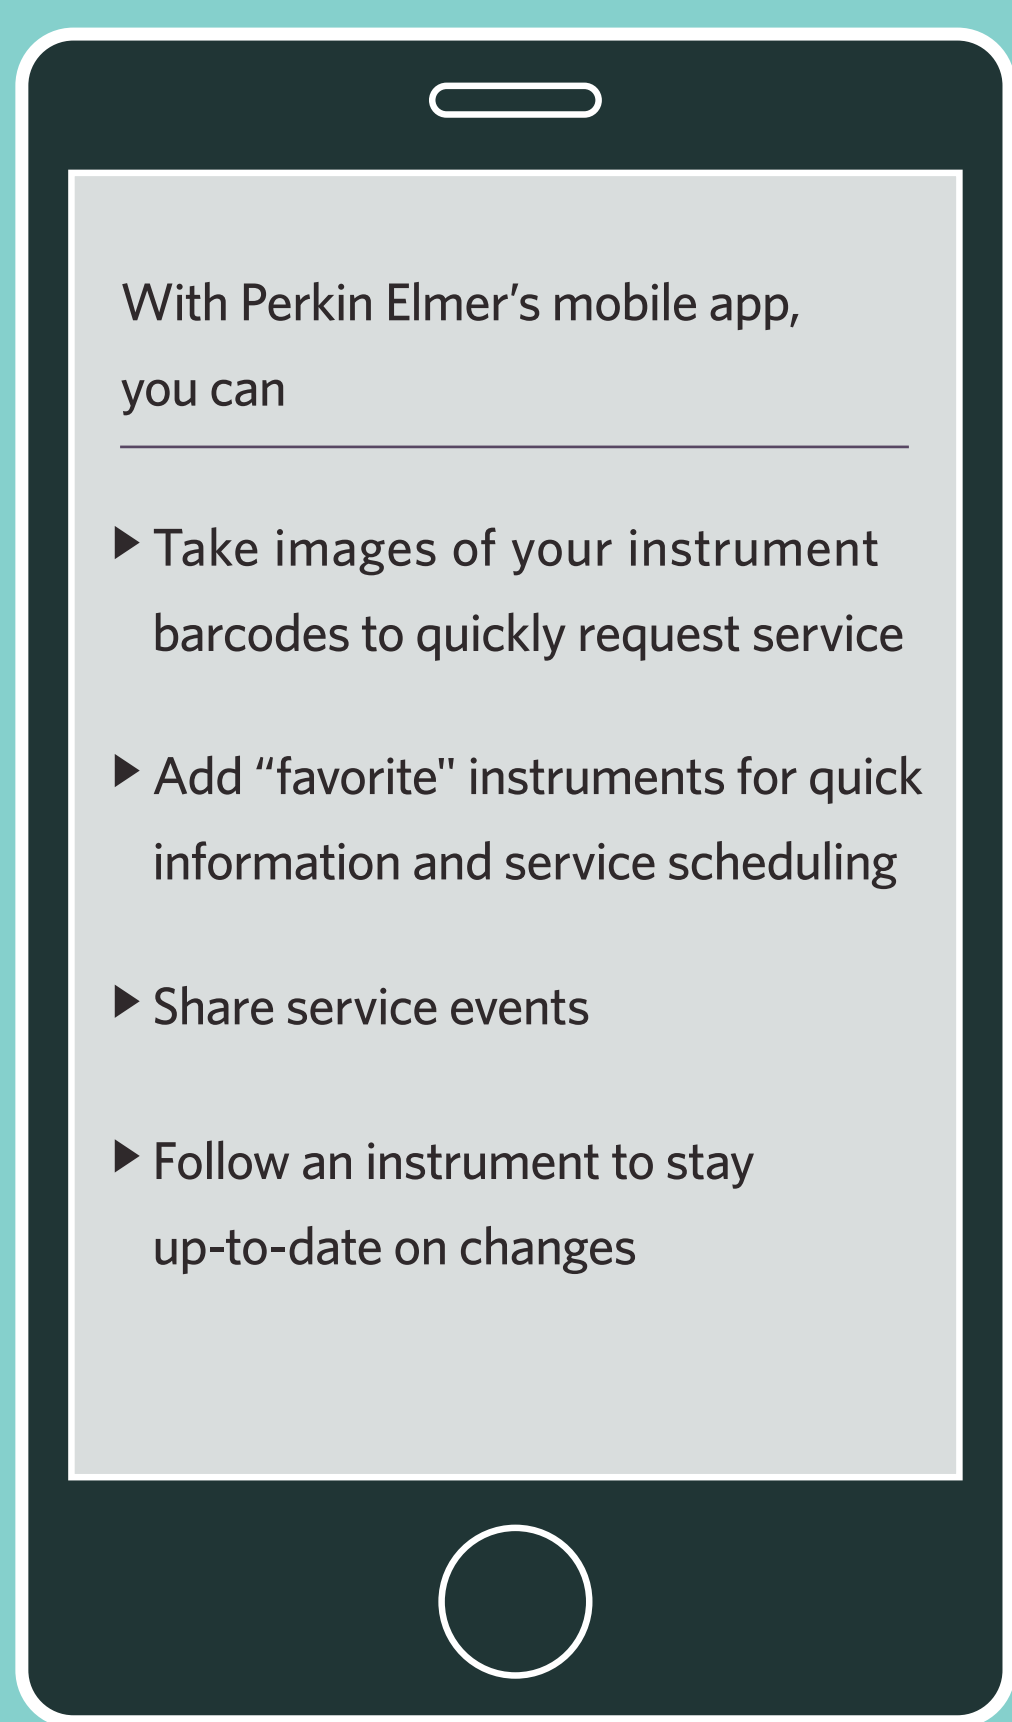

360 DEGREE VIEW

The OneSource Analytics Portfolio provides a 360-degree view of lab operational data on

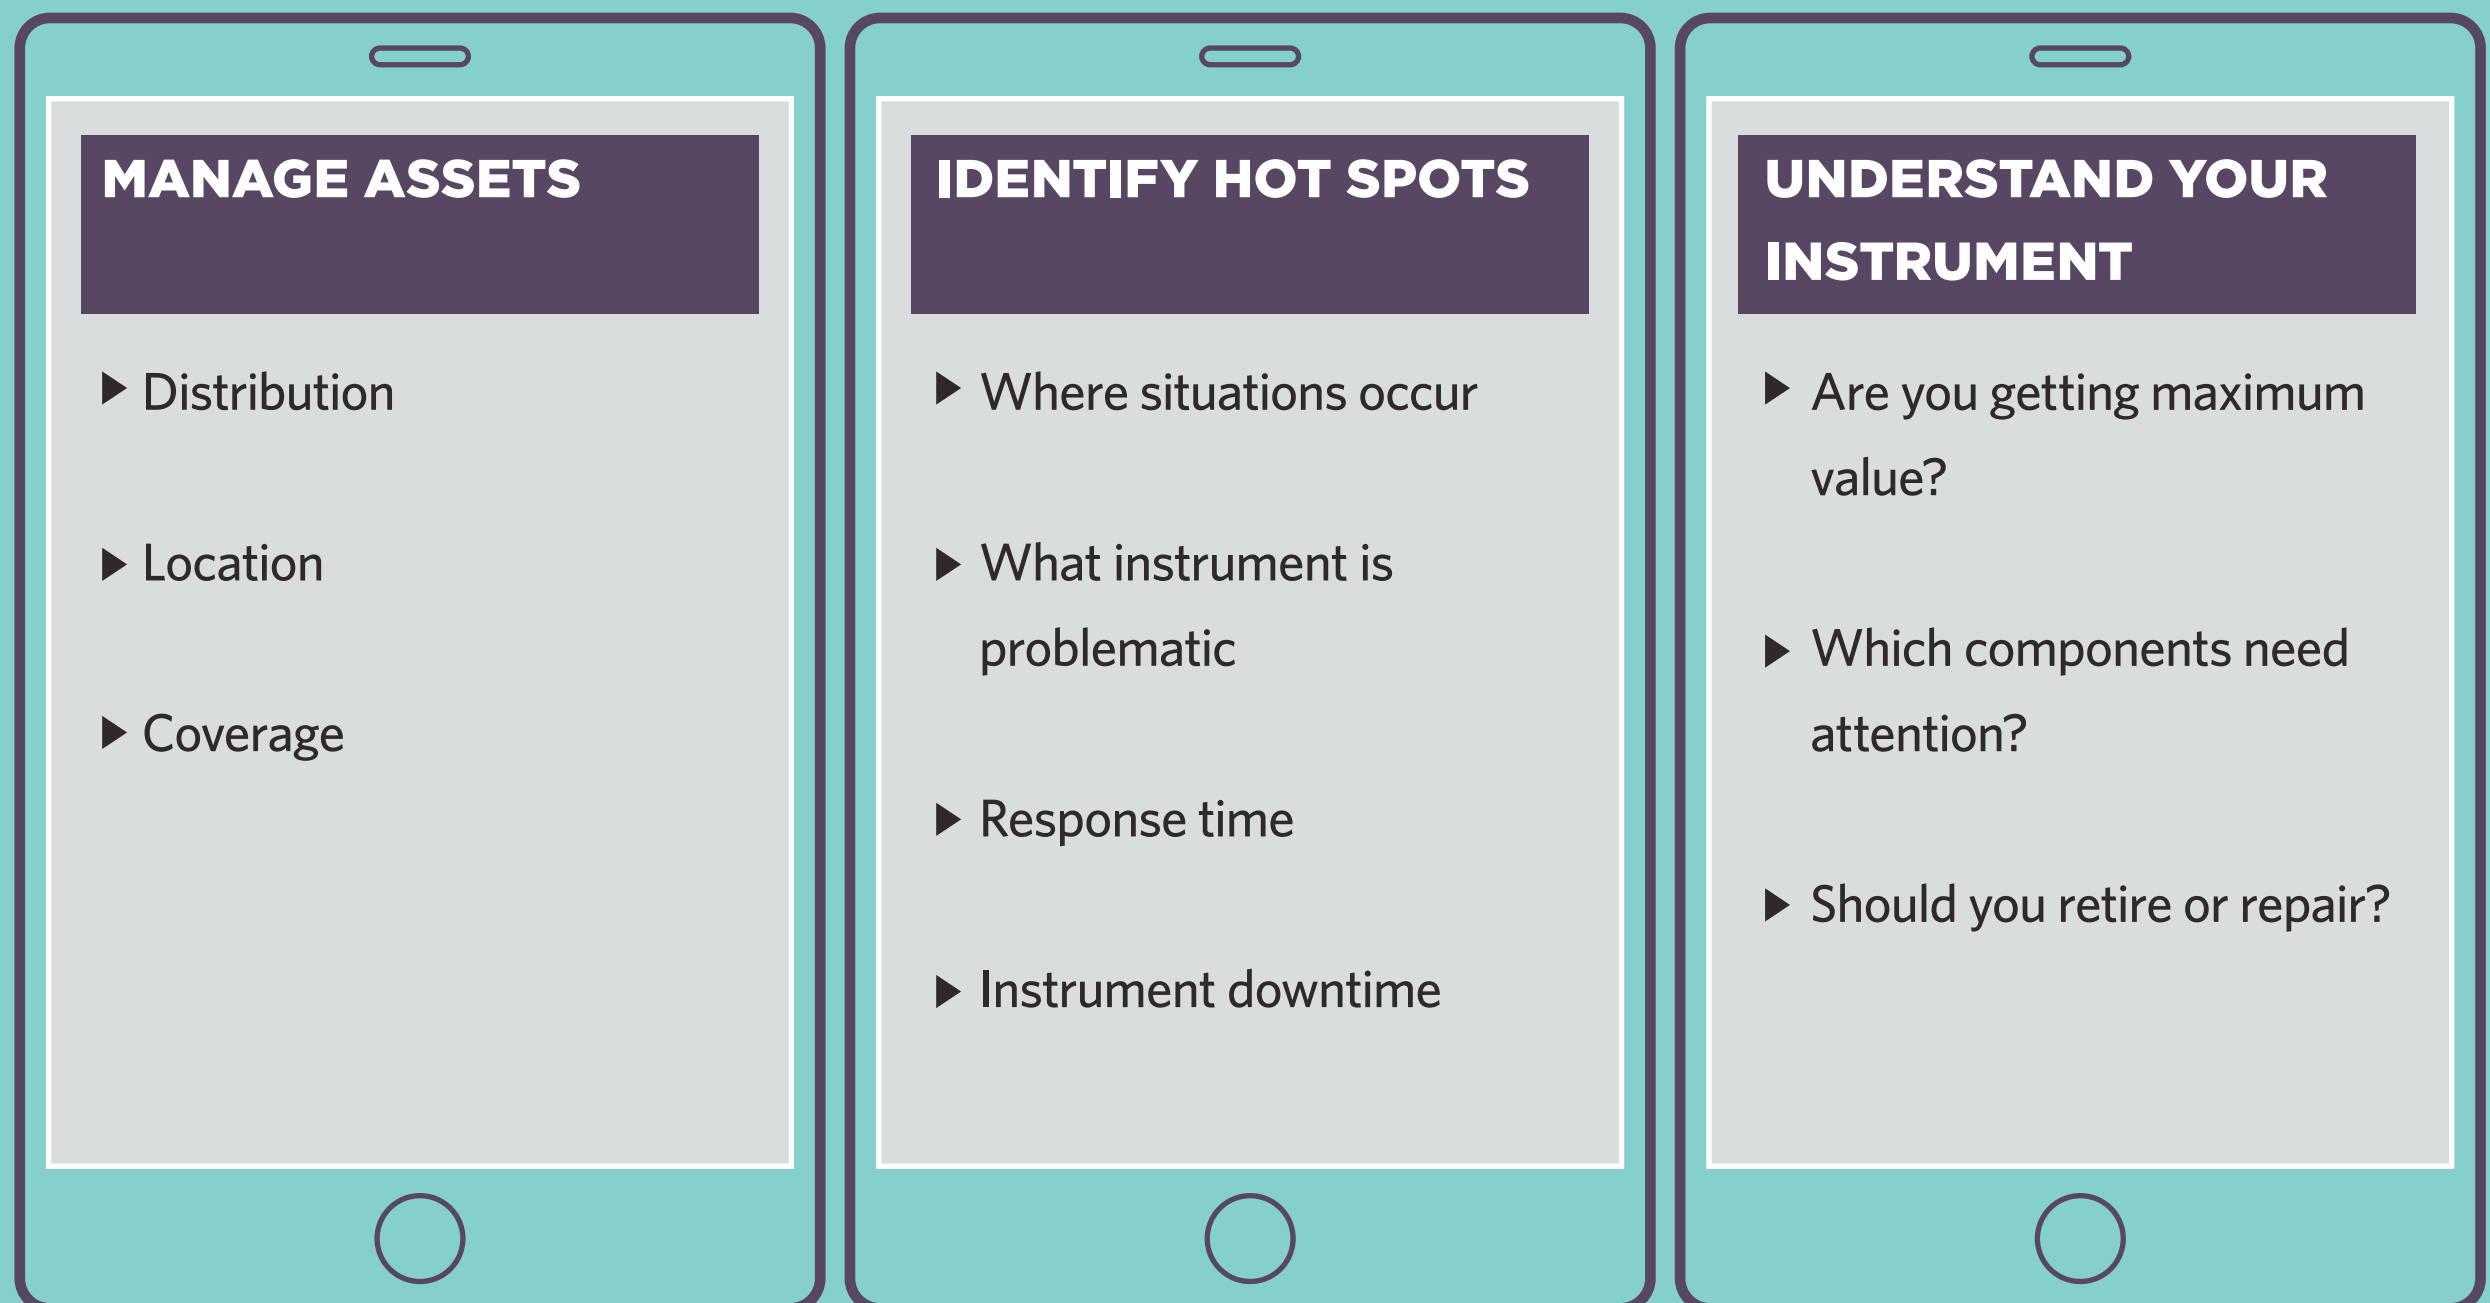

MOBILE APP
