OUTSOURCING and Consulting Services

Patheon

Company Description

Patheon is a leading global provider of contract development and manufacturing services to the global pharmaceutical industry. Patheon prides itself in providing the highest quality products and services to approximately 300 of the world's leading pharmaceutical and biotechnology companies. Patheon's services range from preclinical development through commercial manufacturing of a full array of dosage forms including parenteral, solid, semi-solid and liquid forms. Patheon uses many innovative technologies including single-use disposables, liquid-filled hard capsules and a variety of modified release technologies. Patheon's comprehensive range of fully integrated Pharmaceutical Development Services includes pre-formulation, formulation, analytical development, clinical manufacturing, scale-up and commercialization. Patheon can take customers direct to clinic with global clinical packaging and distribution services and Patheon's Quick to Clinic™ programs can accelerate early phase development projects to clinical trials while minimizing the consumption of valuable API. Patheon's integrated development and manufacturing network of 15 sites across North America and Europe strive to ensure that customer products can be launched timely and confidently anywhere in the world.

What we do

- Over 40 conventional and specialized dose formulations
- The global leader in Pharmaceutical Development Services with the broadest range of dose forms from Early Development through Commercial Manufacturing
- Offer a broad range of Commercial Manufacturing capabilities and services
- Global network of world class facilities that guarantee on time delivery for every new commercial contract
