Renishaw's inVia™ confocal Raman microscope has a new functionality

TAU Systems to Establish TAU Labs, a New Laser Plasma Accelerator Application Center

TAU Systems plans to establish TAU Labs, a new next-generation, laser-driven plasma accelerator laboratory, in Carlsbad, Calif.

[/ read more /](#)

We're pleased to introduce fluorescence lifetime imaging microscopy (FLIM) functionality to the inVia™ confocal Raman microscope. In partnership with Becker & Hickl GmbH, the system combines both Raman and FLIM in a single instrument. This integration can overlay both FLIM and Raman images with pixel-to-pixel correlation, thus increasing understanding of samples across a range of applications.

DRUG SOLUTIONS PODCAST

Gliding Through the Ins and Outs of the Pharma Supply Chain

In this episode of the Drug Solutions podcast, Jill Murphy, former editor, speaks with Bourji Mourad, partnership director at ThermoSafe, about the supply chain in the pharmaceutical industry, specifically related to packaging, pharma air freight, and the pressure on suppliers with post-COVID-19 changes on delivery.
