OUTSOURCING and Consulting Services

Lonza

Company description

Lonza is one of the world's leading suppliers to the pharmaceutical, healthcare, and life-science industries. For more than 30 years, Lonza Custom Manufacturing has been helping emerging and large biotech and pharmaceutical companies improve and advance their products. Whether it is for clinical or commercial supply, Lonza's full set of development services, industry-leading manufacturing processes, and broad chemical and biotechnology platforms enable your products to reach their full potential.

Markets served

- Pharmaceutical and biotechnology
- Biological development and manufacturing
- Chemical development and manufacturing

Major products & services

Lonza has extensive experience in a variety of products and services including chemical synthesis, advanced intermediates, APIs, HAPs, antibody drug conjugates, microbial fermentation,

peptides, oligonucleotides, and vaccines among several others. We have the know-how and experience to handle almost any pharmaceutical or biotechnological challenge in the world.

Facilities

Lonza's headquarters are located in Basel, Switzerland, with many other sites located throughout North America, South America, Europe, and Asia.
