Subject: When meeting laboratory deadlines is in question, Xevo(TM) TQ MS is your answer

We are pleased to provide you with information on products and services that might be of interest to you.

[When meeting laboratory deadlines is in question, Xevo™ TQ MS is your answer.](#)

Producing robust, accurate, high-quality information quickly and easily is essential – whether you're developing life-saving medicines; safeguarding the integrity of food, drinking water, and the environment; or presenting reliable forensic evidence that can withstand legal scrutiny.

Waters Xevo TQ MS provides the ultimate in quantitative capabilities for the most complex sample matrices. It is a highly-advanced tandem quadrupole mass spectrometer with fast, simple access to superior HPLC and UPLC®/MS/MS performance. You can enjoy unmatched speed, exceptional quantitative analysis, and the very best chromatographic resolution.

Purposeful Innovation

Xevo TQ MS is equipped with unique collision cell technology to provide new enhanced spectral LC/MS/MS data acquisition capabilities. Unlike conventional tandem quadrupole mass spectrometers, the Xevo TQ MS is designed not only to provide the very best quantitative data, but also to provide you with superior spectral MS/MS information.

Xevo TQ MS offers you much more versatility in a single instrument platform that is adaptable to a variety of different UPLC/MS/MS applications both quantitative and qualitative: bioanalysis, ADME screening, food safety, environmental monitoring, forensic, and more.
