## OUTSOURCING and Consulting Services

# UPM Pharmaceuticals, Inc.

### Corporate Description

UPM Pharmaceuticals, Inc. is a Baltimore-based, independent drug development and contract manufacturer. The company provides high quality pharmaceutical drug development services including formulation development, cGMP manufacturing, analytical methods development and stability testing. UPM's services are characterized by a core commitment to meeting the client's objectives with the highest quality while maintaining tight timelines and controlling costs. The company's extensive train of equipment, experienced staff, and commitment to quality, translates into success for each and every project.

### Technical Services

UPM's scientific team includes some of the industry's best analytical chemists, formulators, and manufacturing specialists. The company's experienced scientists provide innovative ideas and guidance to address clients' unique product development challenges such as, low dose content uniformity, high dose compressibility, controlled drug release rates and experimental designs for limited API availability. The UPM staff utilizes daily planning meetings and a master scheduling process to ensure that every project will be completed efficiently and on time. Their highly experienced quality assurance personnel implement complete cGMP quality systems that support formulation development, clinical batch manufacturing and analytical testing.

### Formulation Development

- Solid Oral Dosage Forms
- Liquids & Gels
- Coating
- CII-CV Controlled-drug Substances
- Particle Size Analysis

### cGMP Manufacturing

- Feasibility to Small Scale Commercial
- Wet/Dry Granulation
- Roller Compaction
- Immediate and Controlled-release Tableting
- Encapsulation (powders, granules, tablets, & combo's)
- Over-encapsulation
- Direct API into Capsules
- Solid-dose and Liquid Packaging

### Analytical Services

- HPLC Based
- Full ICH Stability Testing
- Dissolution Testing

### Facilities

The Baltimore, MD facility is DEA licensed and FDA inspected. It features cGMP pharmaceutical manufacturing and packaging suites. The facility includes analytical and R&D laboratories staffed by industry veterans.

### Markets Served

UPM is a provider of high quality services to the pharmaceutical, biotechnology, government, and university markets. The company's history includes successful collaborative interactions with virtual to multi-million dollar clients.
