## Cardinal Health Specialty Solutions

### Company Description

The Regulatory Sciences group of Cardinal Health Specialty Solutions is a regulatory consulting group with more than 150 technical specialists who are proficient in all areas of drug development. We provide strategic pharmaceutical development services to help companies obtain global product approval and maintain filings throughout the entire product lifecycle.

Through FDA and industry training, our consultants have experience in a variety of fields, and have developed successful relationships with regulatory agencies throughout the world. Our strategies are designed to expedite the development process, providing a distinct advantage to our clients.

We help pharmaceutical, biotechnology and medical device companies achieve success throughout the entire lifecycle of a product, while reducing costs, improving efficiency and increasing profitability.

### Markets Served

Since 1976, Cardinal Health has provided a wide range of consulting services required to obtain approval for drugs, biologics and medical devices in global markets.

### Facilities

Headquarters: Metropolitan Kansas City (Overland Park, KS)

Regional Offices: St. Louis, MO; La Jolla, CA; Washington, D.C.; Additional remote associates located throughout the United States.
