

SPEX CertiPrep, Inc.

Major Products/Services

The products currently available from SPEX CertiPrep include aqueous and organometallic solution standards for ICP-MS, ICP and AA; organic standards for GC, GC-MS and HPLC; Ion Chromatography and ion selective electrode standards; inorganic, organic and micro Quality Control and NVLAP approved Enviro-PT, inorganic, organic and microbiological Proficiency Testing Samples; and Fusion Fluxes for XRF. Our newest Contamination Control product line includes the new Pipette

Washer/Dryer used for cleaning Class A volumetric pipettes and an Acid Distiller. Stock orders ship within 24-48 hours from our Metuchen, NJ facility. Technical customer service is available Monday through Friday 8:00 am – 6:00 pm EST.

Facilities

Our US headquarters is located in Metuchen, NJ. All our products are manufactured and shipped from this facility. SPEX CertiPrep, Ltd., is the European subsidiary of SPEX CertiPrep, Inc., located in Middlesex, England. Local distributors throughout Europe support this branch.

Company Description

SPEX CertiPrep has 50 years of experience in manufacturing superior sample preparation equipment and certified reference materials for analytical spectroscopy and chromatography. We have the experience, skills and specialized training to serve scientists throughout the world. The Certified Reference Materials (CRM) Division offers an unparalleled selection of inorganic standards for ICP, ICP-MS and AA as well as Ion Chromatography standards. Protocol Analytical, LLC, member SPEX CertiPrep Group manufactures a full line of organic certified reference materials for GC, GC-MS and HPLC. These certified reference materials are manufactured with the highest purity materials available and are tested on our state-of-the-art instrumentation under an Underwriter's Laboratories, Inc., internationally accredited ISO 9001:2000 quality assurance program. Every CRM is supplied with our uniquely comprehensive SPEXertificate, of Analysis. Inorganic and Organic custom standards are also available upon request.

Chief Spectroscopic Techniques Supported

- ICP • IC • AA • XRD
- ICP-MS • GC • GC-MS
- HPLC • ISE • XRF

Markets Served

SPEX CertiPrep supplies Certified Reference materials to the following markets: Research and Development Laboratories, Environmental Laboratories, Wastewater Treatment Facilities, Cement Facilities, Government Agencies, Industrial Laboratories, Semiconductor, Clinical, Colleges and Universities, Public Utilities, Oil Refiners, Nuclear Plants, etc.
