

Put your RIM System needs in our hands

red nucleus

We pride ourselves on a collaborative approach that is centered on our clients, contributes to strategic value, and ensures success on every engagement. In selecting our Partner Vault, you will see firsthand that we not only have the best practices for system implementation, but we are also submission experts.

Red Nucleus's system support is unmatched by others and offers the very best practices for system implementation and ongoing management.

Introducing Red Nucleus Partner Vault

Red Nucleus has partnered with Veeva to provide a state of the art, efficient, and cost-effective solution. Now is the time to take advantage of Red Nucleus' partnership and best practices where all the technological aspects of managing and maintaining your system will be accomplished by our expert management consultants. Red Nucleus will also decrease the burden on you by applying our industry-respected proprietary toolkit to implement Partner RIM Vault. The toolkit includes best practices and guides you through the top business process requirements, such as:

Document & Metadata Standards & Rule

Training

Security, License & Access Matrix

Help Desk & Ongoing

In addition, Red Nucleus manages and maintains the technical aspects to the Partner RIM Vault through:

Configuration Logs & Specifications

Validation Plans

User Requirement Specifications & Acceptance Testing

Traceability Matrix Post Execution Review

One of the challenges of optimizing the efficiency of a system when you are a smaller company is the tedious task of managing heavy resources and controlling the system properly with a limited labor pool to implement change controls, new releases, and configuration requirements. Red Nucleus takes the burden out of your hands and puts it into ours.

About Red Nucleus

Red Nucleus's experts appreciate the intricacies of life sciences programs. We offer solutions to complex problems that demand a unique combination of cross-functional expertise and a process-driven approach, delivered via a proven methodology. Whether you are looking to build new capabilities, optimize existing processes, or partner with us for operational solutions, Red Nucleus has the solutions that you need.
