## ABOUT MYSELF

I'm Panagiotis Saridis, a passionate Computer Science bachelor graduate from the University of Macedonia in Greece. With a keen interest in programming since a young age, I embarked on my journey by building and designing websites using WordPress and developing my own applications using PHP and Laravel. These early experiences ignited my love for software development and laid the foundation for my career.

I started my professional journey as a Junior Backend Developer at Spotawheel, where I was an integral part of a dynamic team responsible for the backend development of the startup's innovative product. This experience allowed me to hone my technical skills and collaborate effectively to deliver high-quality solutions.

Currently, I am thriving as a Consultant on the Salesforce E-Commerce team at Deloitte. Here, I leverage my technical expertise and business acumen to analyze and optimize e-commerce solutions for our clients, contributing to their digital transformation journey. I am driven by the opportunity to solve complex problems and make a tangible impact through technology. I continuously seek new challenges and opportunities for growth in the ever-evolving field of software development.

## WORK EXPERIENCE

**02/2022 – 10/2022** Greece

### Backend Developer SpotaWheel

As a Junior Backend Developer at SpotaWheel, I specialized in utilizing Laravel framework to contribute to the development and maintenance of the company's backend systems. I worked closely with the development team to ensure seamless integration between the front-end and back-end components of various projects.

**Skills:** PHP, Laravel, Git, VueJS, Symfony

Thessaloniki, Greece

### Web Developer Ministry of Web

Doing freelance work for [Ministry of Web](#)

**10/2022 – 07/2024** Thessaloniki, Greece

### Business Analyst Deloitte Digital

As a Business Analyst at Deloitte, I play a key role in driving the success of major ecommerce projects by leveraging my expertise in Salesforce and Apex code. I collaborate closely with cross-functional teams to gather requirements, analyze business processes, and design effective solutions that meet client objectives.

**01/08/2024 – CURRENT** Thessaloniki, Greece

### Consultant Deloitte Digital

As a consultant on the Deloitte Salesforce E-commerce team I play a bigger role in the project planning, developments and the management of the Business Analysts of the team.
