## NOTE NOTES

Per creare la composizione grafica dei **Gessati Anni '70** e **Decor Anni '70** i decori hanno un unico verso di posa ed è quello rappresentato a catalogo. To create the graphic composition, the '70s Gessati and '70s Wallpaper have a single direction of installation and it is the one shown in the catalogue.

La ripresa grafica tra le diverse lastre di decori può avere una tolleranza contenuta in 3mm. I decori della collezione Carta da Parati sono soggetti misti e sono inscatolati in modo casuale. The tile graphic between the different slabs of decors could have a tolerance included in 3 mm. Carta da Parati collection decorations are mixed subjects and are randomly packed.

I colori e le caratteristiche estetiche dei materiali illustrati nel presente catalogo sono da ritenersi puramente indicativi. Colours and optical features of the materials illustrated in this catalogue are to be regarded as mere indications.

### NOTE NOTES

\* È OBBLIGATORIO posare il Terminale a Elle Monolitico SFALSATO essendo di dimensione diversa rispetto alle piastrelle. Trattasi di materiale coordinato quindi la tonalità è abbinabile al fondo. It is MANDATORY to lay Terminale a Elle Monolitico STAGGERED (not following same joint) due to the difference in dimension between tiles and special pieces. The material is coordinated, so the shade can match to the floor.

### NOTE NOTES

\* È **OBBLIGATORIO** posare il Terminale a Elle Monolitico **SFALSATO** essendo di dimensione diversa rispetto alle piastrelle. Trattasi di materiale coordinato quindi la tonalità è abbinabile al fondo. It is **MANDATORY** to lay Terminale a Elle Monolitico **STAGGERED** (not following same joint) due to the difference in dimension between tiles and special pieces. The material is coordinated, so the shade can match to the floor.

Gres porcellanato impasto colorato Colored body porcelain stoneware

Conforme According to  
UNI EN 14411 - G BIa

La sezione Spessorati racchiude l'offerta di Cotto Petrus per le pavimentazioni esterne (aree urbane, viali, terrazze, piscine, parcheggi, giardini pubblici etc.). Lo spessore disponibile 20 mm e il nuovo 30 mm e le elevate prestazioni tecniche, unite alla semplicità di installazione e rimozione, rendono questi prodotti versatili e sicuri sia in aree pubbliche che private. Le tipologie di installazione, su erba, su sabbia, su ghiaia, su massetto con colla o sopraelevata, soddisfano le varie necessità. Spessorati is the Cotto Petrus solution for exterior flooring (urban areas, avenues, terraces, swimming pools, parking areas, public gardens, and many more...). The available thickness 20 mm and the new 30 mm and the high technical performance, combined with the simplicity of the installation and removal, make these products versatile and safe both in public and private areas. The types of installation, on grass, on sand, on gravel, screed with glue or raised, fully meet the various needs.

\* **Pavimentazione carrabile a basso traffico veicolare - Spessore 20 mm.** Installation on driveways with low vehicular traffic - Thickness 20 mm.  
 \* **Spessore 30 mm - Pavimentazione carrabile.** 30 mm Thickness - Installation on driveways.

## VANTAGGI PER TE E PER L'AMBIENTE | ADVANTAGES FOR YOU AND FOR THE ENVIRONMENT

### MECCANICI MECHANICAL

- **Resistente ai carichi di rottura**  
Resistant to breakage load
- **Resistente al graffio e alla scalfittura**  
Resistant to scratch
- **Resistente all'abrasione**  
Resistant to abrasion

### CHIMICO-FISICI CHEMICAL AND PHYSICAL

- **Resistente agli sbalzi termici**  
Resistant to thermal shock
- **Colori stabili nel tempo**  
Chromatic stability
- **Resistente al sale**  
Resistant to salt
- **Resistente agli agenti chimici e muffe**  
Resistant to chemical agents and moulds
- **Facile da pulire**  
Easy to clean

### PRESTAZIONALI PERFORMANCE

- **Facile da posare**  
Easy to install
- **Versatile**  
Versatile
- **Ispezionabile e removibile**  
Removable, easy to inspection (Installation without glue only)
- **Antiscivolo**  
Anti-slip

# SPESSORATI ISTRUZIONI INSTRUCTIONS

## POSA SU ERBA | INSTALLATION ON GRASS

**Posa diretta su erba**  
Direct installation on grass (Not suitable for lawn-mowers usage)

- 1 Manto erboso • Grass surface
- 2 Lastra • Slab

Per ottenere un effetto "tappeto":  
posizionare un cordolo in cemento  
per delimitare l'area da piastrellare.  
Realization of "carpet effect" flooring:  
a cement curb can be laid to delimit  
the area in which slabs are installed.

- A Cordolo in cemento • Cement curb

**Posa a secco su erba**  
Installation on grass (Suitable for lawn-mowers usage)

- 1 5/6 cm di profondità • 5/6 cm dragging

2 Lastra posizionata più in basso del manto erboso calpestabile • Slab to be laid below grass level

3 Letto di ghiaia di almeno 3 cm di profondità (granulometria > 4 mm)  
Layer of gravel, minimum 3 cm recommended (granulometry > 4mm)

4 Eventuale TNT • Macro-holed, non-woven polypropylene fabric

Distanza tra le lastre: posizionare le lastre distanziate tra loro in base all'effetto estetico che si vuole ottenere (camminamento "a passi", vialetto ecc).  
Distance between the slabs: slabs can be install to obtain several aesthetics effects/designs (walkway, stepping stone pattern and so on).  
Distance between slabs depends on the design we want to create.

Queste indicazioni rappresentano delle indicazioni generali basate sullo stato dell'arte e non vincolanti.  
The following tips and suggestions are not binding for the manufacturer.

# SPESSORATI ISTRUZIONI INSTRUCTIONS

## POSA SU SABBIA | INSTALLATION ONTO SAND

- 1 Strato di sabbia ben livellato 5/10 cm  
Layer of sand duly leveled 5/10 cm
- 2 Lastra • Slab

Pendenza sottofondo 2%  
Creation of 2% inclination during levelling and compacting phases.

## POSA SU GHIAIA | INSTALLATION ONTO GRAVEL

- 1 Asportare uno strato di terreno di 10-20 cm di profondità  
Drag a layer of ground (10-20 cm)
- 2 Cordolo in cemento o assi di legno • Cement curb or wooden plank
- 3 Pietrisco compatto granulometria mista (16-35 mm) per 10 cm di profondità • Crushed stone, mixed granulometry (16-35 mm), 10 cm depth
- 4 TNT • Macro-holed, non-woven polypropylene fabric
- 5 Ghiaia ben livellata granulometria 4-8 mm per 10 cm di profondità  
Duly leveled gravel, granulometry between 4-8 mm, 10 cm depth

Distanza tra le lastre: posizionare le lastre distanziate tra loro in base all'effetto estetico che si vuole ottenere (camminamento "a passi", vialetto ecc).  
Le fughe possono essere riempite con sabbia o ghiaia.  
Distance between the slabs: slabs can be install to obtain several aesthetics effects/designs (walkway, stepping stone pattern and so on). Distance between slabs depends on the design we want to create. Joints can be filled with sand or gravel.

Queste indicazioni rappresentano delle indicazioni generali basate sullo stato dell'arte e non vincolanti.  
The following tips and suggestions are not binding for the manufacturer.

# SPESSORATI ISTRUZIONI INSTRUCTIONS

## POSA SU MASSETTO CON COLLA | LAYING ON SCREED WITH ADHESIVE

Posa su pavimento esterno non impermeabilizzato (terreno)  
Installation on outdoor non waterproof floor (ground)

- 1 Terreno • Ground
- 2 Strato di ghiaia compatto eventualmente stabilizzato con calcestruzzo • Compact layer of gravel (eventually stabilized using concrete)
- 3 Strato di livellamento in calcestruzzo avente spessore adeguato. Pendenza 1,25-2,5% • Concrete leveling layer with adequate thickness. Inclination 1,25-2,5%
- 4 Massetto di 8-10 cm con rete elettrosaldata posizionata a metà dello spessore dello strato • 8-10 cm screed, arc welded mesh to be positioned in the centre
- 5 Lastra • Slab

Posa delle lastre con un collante per esterni seguendo sempre le indicazioni specifiche del produttore dell'adesivo utilizzato e seguendo la tecnica della doppia spalmatura • Slabs must be fixed by using an adhesive suitable for outdoor use and strictly following the instructions and specifications indicated by the adhesive's manufacturer (a double adhesive layer is always recommended)

Fughe: obbligatoria la fuga a giunto aperto con ampiezza di fuga variabile maggiore di 5 mm ed utilizzo di sigillanti cementizi di classe 2.  
I giunti di dilatazione sono obbligatori.  
Grout: using class 2 cement grouting and a minimum 5 mm grout line is mandatory.  
Expansion joints are mandatory too.

Queste indicazioni rappresentano delle indicazioni generali basate sullo stato dell'arte e non vincolanti.  
The following tips and suggestions are not binding for the manufacturer.

# SPESSORATI ISTRUZIONI INSTRUCTIONS

## POSA SOPRAELEVATA | INSTALLATION ONTO FLAT SURFACES (RAISED LAYING)

- 1 Terreno o struttura portante • Ground or floor
- 2 Massetto in pendenza • Screed with adequate inclination
- 3 Strato di impermeabilizzazione • Waterproofing layer
- 4 Strato di separazione termoisolante (foglio di polietilene)  
Heat insulating layer (polyethylene sheet)
- 5 Opzionale: pannello termoisolante di adeguata densità  
Optional: heat insulating panel with adequate density
- 6 Supporto da esterno in polipropilene (fisso, regolabile o autolivellante) •  
Polypropylene load-bearing supports suitable for outdoor (may be fixed, adjustable or self-levelling)
- 7 OUTDOOR spessore 20 • 30 mm  
OUTDOOR 20 • 30 mm thick slabs

Ad oggi non esiste una normativa specifica per i pavimenti sopraelevati da esterno, si rimanda pertanto al professionista progettista un'attenta valutazione dei requisiti del progetto. COTTO PETRUS suggerisce l'utilizzo di supporti aggiuntivi sotto le piastrelle, come da schema sotto riportato.  
To date, there is no existing regulatory standard regarding outdoor raised floors. Therefore, the Customer/Designer/Project Manager has to arrange for a careful assessment of the project and its requirements. COTTO PETRUS recommends the adoption of additional supports under the tiles, as per diagram below.

Per maggiore sicurezza e a tutela dell'utente, Cotto Petrus richiede di impostare un'altezza di sopraelevazione non superiore a 5 cm.  
Per altezze superiori consultare il progettista.  
For grater safety and protection of the user, Cotto Petrus requires an overlay height not exceeding 5 cm. For higher heights please consult the designer.

Queste indicazioni rappresentano delle indicazioni generali basate sullo stato dell'arte e non vincolanti.  
The following tips and suggestions are not binding for the manufacturer.

# SPESSORATI ISTRUZIONI INSTRUCTIONS

## PAVIMENTAZIONE CARRABILE | INSTALLATION ON DRIVEWAYS

L'impiego di lastre con spessore 30 mm permette la realizzazione di pavimentazioni carrabili senza l'utilizzo di collanti per la posa.  
30 mm porcelain pavers could be installed on driveways with no need of adhesives.

**CONSIGLI DI POSA**

Non si accettano reclami relativi a materiale già posato.  
 Per una posa eseguita a regola d'arte è richiesta, in generale, l'osservanza dei seguenti criteri:

1. Resistenze adeguate del sottofondo;
  2. Rispetto dei tempi di maturazione del massetto;
  3. Posa in ambienti di sole civili abitazioni.
- Applicazioni diverse dovranno essere sottoposte a verifica di **Cotto Petrus S.r.l.**;
4. Rispetto degli eventuali giunti strutturali presenti;
  5. Realizzazione di giunto elastico perimetrale, per ogni elemento in elevazione, con limitazione delle superfici continue a non oltre 50-60 m (25-30 m in presenza di grandi vetrate);
  6. Utilizzo di opportuno adesivo di classe C2 (per interno) o C2E (per esterno) secondo EN 12004, utilizzando la tecnica della doppia spalmatura;
  7. Utilizzo di idoneo stucco avendo cura di effettuare prove preventive di pulibilità in caso di stuccature a contrasto;
  8. All'atto della posa prelevare piastrelle alternativamente da diverse scatole;
  9. Controllare, prima della posa, tonalità, calibro e scelta.

Il prodotto rettificato consente anche di ottenere una superficie in cui la giunzione fra una lastra e l'altra è appena percettibile (minimo 2/3 mm). Nell'utilizzo del prodotto naturale si consiglia una fuga di 5/7mm tra una lastra e l'altra.

**CONSEILS DE POSE**

Aucune réclamation portant sur des matériaux déjà posés ne sera acceptée. Pour une pose dans les règles de l'art, il convient d'une manière générale de respecter les conditions suivantes:

1. Résistance adaptée de la sous-couche;
  2. Respect des temps de maturation de la chape;
  3. Pose uniquement dans des habitations civiles.
- Toute autre application sera soumise au contrôle de **Cotto Petrus S.r.l.**;
4. Respect des éventuels joints structurels présents;
  5. Réalisation d'un joint élastique périphérique, pour chaque élément surélevé, avec limitation des surfaces continues à un maximum de 50-60 m (25-30 m en présence de grandes baies vitrées);
  6. Utilisation d'une colle adaptée de classe C2 (pour intérieur) ou C2E (pour extérieur) conformément à la norme EN 12004, en utilisant la technique du double encollage;
  7. Utilisation d'un ciment-joint adapté en prenant soin de vérifier préalablement qu'il peut être nettoyé en cas de joints en contraste;
  8. Lors de la pose, prélever les carreaux en alternant entre différents paquets;
  9. Avant de procéder à la pose, contrôler la teinte, le calibre et l'aspect du carreau.

Le produit rectifié permet également d'obtenir une surface où la jonction entre une dalle et l'autre est à peine perceptible (2/3 mm minimum). Lors de l'utilisation du produit avec surface naturelle, il est conseillé de respecter un joint de 5/7 mm entre chaque dalle.

**ADVICE FOR INTALLATION**

We cannot accept complaints made after the material has been installed. To achieve a state-of-the-art installation the following criteria must be observed:

1. Adequate sub-base resistance;
  2. Respect of the slab setting times;
  3. Installation in residential environments only.
- Any different applications must be examined by **Cotto Petrus S.r.l.**;
4. Respect of any existing structural joints;
  5. Realization of expansion joint for the perimeter, for all raised elements, with limitation of continuous surfaces to no more than 50-60 sqm (25-30 sqm in areas containing large window/glass installations or when used externally);
  6. The use of a suitable C2 (for interior use) or C2E (for external use) adhesive according to EN12004, applied with the double spread coating technique;
  7. The use of a suitable grout, checked and tested first, in the case of contrasting grout, and tested in a small area to verify that it can be effectively cleaned away;
  8. During laying, pick tiles alternately from different boxes;
  9. Check that the calibre, shade and sorting grade are correct before installing.

Rectified products also enable to obtain surfaces where joints are hardly perceptible (minimum 2/3 mm). For the natural finish, a joint of 5/7 mm is recommended between one slab and the next.

**VERLEGEHINWEISE**

Es werden keine Reklamationen bezüglich von bereits verlegtem Material akzeptiert. Um nach allen Regeln der Kunst zu verlegen, müssen allgemein folgende Kriterien eingehalten werden:

1. Angemessene Widerstandsfähigkeit des Untergrunds;
2. Einhaltung der Reifungszeiten des Estrichs;
3. Verlegung in ausschließlich aus Zivilwohnungen bestehenden Umgebungen. Andere Anwendungsarten müssen von **Cotto Petrus S.r.l.** überprüft werden;
4. Einhaltung eventuell vorhandener Bauwerksfugen;
5. Errichtung einer Dehnungsrandfuge für jedes erhöhte Element mit Beschränkung der durchgehenden Flächen auf maximal 50-60 m (25-30 m, falls große Glasflächen vorhanden sind);
6. Verwendung eines geeigneten Klebers der Klasse C2 (für den Innenbereich) oder C2E (für den Außenbereich) nach EN 12004 unter Anwendung der Technik des zweifachen Kleberaufstrichs;
7. Verwendung eines geeigneten Fugenmittels, wobei man im Fall von kontrastierenden Fugen zuvor Reinigungstests durchführen sollte;
8. Bei der Verlegung die Fliesen abwechselnd aus verschiedenen Schachteln verwenden;
9. Vor dem Verlegen den Farbton, die Größenklasse und die Wahl kontrollieren.

Mit dem geschliffenen Produkt kann man auch eine Fläche mit einer kaum wahrnehmbaren Fuge zwischen den einzelnen Platten erzielen (mindestens 2-3 mm). Bei Verwendung des naturbelassenen Produkts wird empfohlen, eine 5-7 mm breite Fuge zwischen den einzelnen Platten einzuhalten.

## CONSIGLI PER LA PULIZIA DOPO POSA E MANUTENZIONE

IT

dei pavimenti in gres porcellanato **naturali** e **lappati** Cotto Petrus srl

### All'attenzione del posatore: prima pulizia

La cura con la quale si esegue la pulizia dopo posa influenzerà la pulibilità del pavimento per tutta la sua durata.

Importantissimo è pulire bene a fine posa, a pavimento nuovo. È necessario infatti, dopo aver applicato il fugante, togliere tutti i residui di cemento lasciati in fase di posa e stuccatura dai posatori con l'utilizzo di acido tamponato (tipo Keranet o similari). Lasciare agire per circa 40 minuti e poi risciacquare bene con appositi strumenti aspira liquidi fino a vedere l'acqua utilizzata limpida. A seguire effettuare un lavaggio con un prodotto sgrassante leggermente alcalino (tipo sgrassatore per cappe da cucina o tipo Chante Clair) ed un buon risciacquo. Dopo queste operazioni la messa in servizio del pavimento è terminata a regola d'arte.

**ATTENZIONE: Si consiglia di utilizzare fuganti non additivati con polimeri. In caso di utilizzo di questa tipologia si prega di pulire immediatamente con un detergente alcalino.**

Se queste operazioni non vengono effettuate correttamente il pavimento conserverà un invisibile strato di calcare che col tempo si potrà macchiare o impedire una pulizia profonda.

Fatto questo e avuta la certezza che le piastrelle siano ben pulite, il pavimento non presenterà problemi. Se però la pulizia iniziale non è stata eseguita correttamente ed il pavimento presenta aloni, macchie o piastrelle con superficie opacizzata è possibile rimediare ripartendo dalla prima pulizia, cioè utilizzando un detergente a base acida e risciacquando ripetutamente con acqua pulita, in quanto non esistono detergenti in grado di pulire all'istante e al solo passaggio un pavimento così sporco.

### Manutenzione e pulizia ordinaria

Si consiglia l'utilizzo di acqua e aceto una volta al mese per asportare il calcare che inevitabilmente si deposita sul pavimento durante le normali operazioni di pulizia.

Per la pulizia quotidiana è sufficiente utilizzare, con moderazione, un detergente neutro a basso residuo, prodotti acquistabili nei supermercati. È importante sciacquare spesso il panno utilizzato nella pulizia e non eccedere nella quantità di detergente, infatti l'uso di acqua sporca, prodotti auto lucidanti o eccesso di detergenti può formare, col tempo, una patina invisibile causa di aloni e macchie.

Di norma, i produttori consigliano di provare i loro detergenti su una piccola porzione nascosta del pavimento o del rivestimento prima di utilizzarli su tutta la superficie da trattare.

Nel caso di uso accidentale o volontario di prodotti chimici (detergenti, acidi o solventi), seguire attentamente le istruzioni d'uso previste per ogni prodotto, in particolare si suggerisce di effettuare una prova su una piccola porzione nascosta della superficie da trattare e comunque deve sempre seguire un abbondante risciacquo e accurata asciugatura.

**ATTENZIONE: di fondamentale importanza è non utilizzare mai smacchiatori tipo antiruggine o di tipo spray perché contengono acido fluoridrico, il danno che provocherà sarà irreversibile ed irreparabile in quanto non esiste pavimento resistente a tale acido.**

## ADVICE FOR CLEANING AFTER INSTALLATION AND FOR MAINTENANCE

EN

of Cotto Petrus srl **natural** and **lapped** porcelain stoneware floor tiles

### For installers: initial cleaning

Careful, scrupulous cleaning of new floors after installation will make them easier to clean for the rest of the time thereafter, so it is extremely important.

After the grout has been applied, all the cement residue left behind at the installation and grouting stage must be removed using buffered acid (such as Keranet or similar).

Leave the acid to work for about 40 minutes, then rinse thoroughly using suitable wet vacuum devices until the water runs clear.

After this, wash using a slightly alkaline degreasing product (such as the type used for kitchen hoods, Chante Clair or similar) and rinse carefully.

The flooring is now perfectly ready for use.

**N.B.: We recommend using grout without polymer additives. If this type of grout is used, cleaning must be carried out immediately using an alkaline detergent.**

If these operations are not carried out correctly, the floor will retain an invisible layer of limescale which in time may become soiled or prevent proper cleaning.

Once this has been done and you are sure the tiles have been properly cleaned, there will be no problems with the floor. If, however, this initial cleaning has not been carried out properly and there are shades or stains on the floor, or tiles with a dull surface, the problem can be solved by starting out from the initial cleaning process, i.e. using an acid-based detergent and rinsing repeatedly with clean water, because no detergent is able to clean such a dirty floor in just one go.

### Ordinary cleaning and maintenance

Water and vinegar should be used once a month to remove the limescale that inevitably settles on the floor during normal cleaning operations.

For everyday cleaning, it is sufficient to use a moderate amount of neutral, low-residue detergent, which can be purchased in supermarkets.

It is important to rinse the cloth used for cleaning frequently, and not to use too much detergent; in time, dirty water, self-polishing products or too much detergent can leave an invisible patina to form that causes shades and stains. Manufacturers generally recommend testing their detergents on a small section of floor or wall hidden from view before using it on the whole surface to be treated. If chemicals (detergents, acids or solvents) are used either accidentally or voluntarily, carefully follow the instructions provided for the product in question. We suggest trying products out on a small section hidden from view of the surface to be treated, and in all cases the surface must be thoroughly rinsed and dried.

**N.B.: spray stain removers or rust removers must never be used, because they contain hydrofluoric acid, which causes irreversible, irreparable damage to all kinds of flooring.**

## CONSEILS DE NETTOYAGE APRÈS LA POSE ET D'ENTRETIEN

FR

des revêtements de sol en grès cérame **naturels** et **polis** Cotto Petrus srl

### À l'attention de la personne en charge de la pose: premier nettoyage

Le soin apporté au nettoyage une fois la pose achevée a une incidence sur la nettoiyabilité du revêtement de sol pendant toute sa durée d'utilisation. Il est fondamental de procéder à un nettoyage correct du nouveau revêtement de sol une fois la pose achevée. Après le remplissage des joints, éliminer tous les résidus de ciment laissés lors de la pose et du remplissage des joints par les personnes en charge de la pose en utilisant de l'acide tamponné (type Keranet ou produit similaire). Laisser agir pendant environ 40 minutes puis rincer avec soin à l'aide d'outils adaptés d'aspiration de liquide, jusqu'à ce que l'eau utilisée soit limpide. Procéder ensuite à un nettoyage avec un produit dégraissant légèrement alcalin (comme un dégraissant pour hottes de cuisine ou un produit de type Chante Clair) et rincer convenablement. Une fois ces opérations réalisées, la mise en service du revêtement de sol est considérée comme achevée dans les règles de l'art.

**ATTENTION: il est recommandé d'utiliser des produits de jointoiment sans additifs polymères. En cas d'utilisation de ce type de produits, nettoyer immédiatement avec un produit de nettoyage alcalin.**

Si ces opérations ne sont pas réalisées correctement, une couche de calcaire invisible demeurera sur le revêtement de sol qui, avec le temps, pourrait se tacher ou empêcher un nettoyage en profondeur. Une fois ces opérations réalisées et lorsque l'on a la certitude que les carreaux sont bien propres, le revêtement de sol ne présente plus aucun problème. Cependant, si le nettoyage initial n'a pas été réalisé correctement et si le revêtement de sol présente des auréoles, des taches ou des carreaux dont la surface est opaque, il est possible d'y remédier en recommençant du nettoyage initial. Utiliser alors un produit de nettoyage à base acide puis rincer de manière répétée à l'eau propre, dans la mesure où il n'existe pas de produits capables de nettoyer instantanément et en un seul passage un revêtement de sol présentant un tel degré de saleté.

### Entretien et nettoyage ordinaire

Il est conseillé d'utiliser de l'eau et du vinaigre une fois par mois pour éliminer le calcaire qui se dépose inévitablement sur le revêtement de sol lors des opérations de nettoyage normales. Pour le nettoyage quotidien, il suffit d'utiliser, avec modération, un produit de nettoyage neutre à faible résidu, vendu couramment dans le commerce. Il est important de rincer régulièrement le linge utilisé pour le nettoyage et de ne pas utiliser une quantité excessive de produit de nettoyage. L'utilisation d'eau sale, de produits autolustrants ou d'une quantité excessive de produit nettoyant peut avec le temps entraîner la formation d'une patine invisible et l'apparition d'auréoles et de taches. Généralement, les fabricants recommandent d'essayer leurs produits de nettoyage sur une petite portion cachée du revêtement avant de les utiliser sur l'ensemble de la surface à nettoyer. En cas d'utilisation accidentelle ou volontaire de produits chimiques (produits de nettoyage, acides ou solvants), suivre attentivement les instructions d'utilisation de chaque produit, en particulier s'il est recommandé d'effectuer

un essai sur une petite portion cachée de la surface à traiter, et toujours procéder à un rinçage abondant et à un séchage méticuleux.

**ATTENTION: il est fondamental de ne jamais utiliser de détachants antirouille ou en spray, qui contiennent de l'acide fluorhydrique. Les dégâts causés seraient irréversibles et irréparables dans la mesure où il n'existe aucun revêtement de sol résistant à cet acide.**

## RATSCHLÄGE FÜR DIE REINIGUNG NACH DEM VERLEGEN UND DIE WARTUNG

DE

von **naturbelassenen** und **geläpften** Feinsteinzeugböden von Cotto Petrus srl

### Für den Verleger: erste Reinigung

Die Sorgfalt, mit der man die Reinigung nach dem Verlegen durchführt, wird die Reinigungsfähigkeit des Fußbodens während seiner gesamten Lebensdauer beeinflussen. Es ist sehr wichtig, den neuen Bodenbelag nach der Verlegung gut zu reinigen. So ist es notwendig, nach dem Auftragen der Fugenmasse alle beim Verlegen und Verfugen hinterlassenen Zementrückstände mit einer gepufferten Säure (der Art Keranet oder ähnlichem) zu entfernen.

Ungefähr 40 Minuten lang einwirken lassen und dann gut mit geeigneter Ausrüstung zur Ansaugung von Flüssigkeiten spülen, bis das verwendete Wasser klar bleibt. Danach eine Reinigung mit einem leicht alkalischen Entfetter (der Art der Entfetter für Abzughauben oder z.B. Chante Clair) ausführen und gut spülen.

Nach diesen Vorgängen ist der Fußboden nach allen Regeln der Kunst für eine Inbetriebnahme bereit.

**ACHTUNG: Es wird empfohlen, Fugengmittel ohne Polymerzusätze zu verwenden. Bei Verwendung dieser Typologie wird empfohlen, sofort mit einem alkalischen Reinigungsmittel nachzureinigen.**

Falls diese Vorgänge nicht korrekt durchgeführt werden, wird eine unsichtbare Kalkschicht auf dem Fußboden verbleiben, die mit der Zeit Flecken erzeugen oder eine tiefgehende Reinigung verhindern könnte. Nach diesen Maßnahmen und nachdem man sich vergewissert hat, dass die Fliesen gut gereinigt sind, wird der Fußboden keine Probleme aufweisen. Falls die Erstreinigung dagegen nicht korrekt ausgeführt wird und der Fußboden Schlieren, Flecken und Fliesen mit matter Oberfläche aufweist, kann man Abhilfe schaffen, indem man die Erstreinigung unter Verwendung eines Reinigungsmittels auf Säurebasis wiederholt und mehrmals mit sauberem Wasser nachspült, da es keine Reiniger mit sofortiger Wirkung gibt, die einen auf diese Weise verunreinigten Fußboden in einem Durchgang reinigen.

### Normale Wartung und Reinigung

Es wird empfohlen, einmal im Monat Wasser mit Essig zu verwenden, um den Kalk zu entfernen, der sich unvermeidlich bei der normalen Reinigung auf dem Fußboden ablagert. Für die tägliche Reinigung ist es ausreichend, mit Maßen einen in Supermärkten erhältlichen Neutralreiniger mit geringem Rückstand zu verwenden. Es ist wichtig, das bei der Reinigung verwendete Tuch häufig auszuspülen und nicht mit der Reinigermenge zu übertreiben, da die Verwendung von schmutzigem Wasser, Reinigen mit Selbstglanzeffekt oder zu viel Reinigungsmittel mit der Zeit eine unsichtbare Patina bilden kann, die Schlieren und Flecken erzeugt. Normalerweise empfehlen die Hersteller, die Reiniger auf einer kleinen, verborgenen Stelle des Fußbodens oder der Verkleidung zu testen, bevor man sie auf der gesamten zu behandelnden Fläche einsetzt. Im Fall einer unabsichtlichen oder gewollten Verwendung von chemischen Produkten (Reiniger, Säuren oder Lösungsmittel), die Gebrauchsanweisungen für das jeweilige Produkt aufmerksam befolgen, insbesondere wird empfohlen, einen Test auf einer kleinen verborgenen Stelle der zu behandelnden Fläche auszuführen und in jedem Fall reichlich abzuspülen und sorgfältig zu trocknen.

**ACHTUNG: Es ist von grundlegender Bedeutung, niemals Fleckenentferner der Art Rostschutzmittel oder Sprays zu verwenden, da sie Fluorwasserstoffsäure enthalten, die irreversible Schäden verursachen, da es keinen Fußboden gibt, der dieser Säure widersteht.**

**CONSIGLI PER LA PULIZIA DOPO POSA E MANUTENZIONE  
ADVICE FOR CLEANING AFTER INSTALLATION AND FOR MAINTENANCE**

**S.A.P. Distanziatore Livellante**

*La Soluzione per una Posa Perfetta*

Gentile cliente/posatore, le aziende ceramiche hanno immesso sul mercato pavimenti e rivestimenti di grandi formati rettificati che necessitano di una posa più specifica e accurata. Il **distanziatore livellante S.A.P.** è nato per migliorare la messa in opera delle piastrelle e semplificare il lavoro del posatore ottenendo così un prodotto finito esteticamente perfetto.

Per questo motivo, **COTTO PETRUS** consiglia di posare con il **distanziatore livellante S.A.P.** per prevenire gli inconvenienti che possono presentarsi durante la posa.

In particolare, il **distanziatore livellante S.A.P.:**

- Allinea piastrelle di diverso spessore
- Elimina il dislivello tra le piastrelle
- Assicura una fuga minima di 1 mm
- Non necessita di alcuno strumento aggiuntivo
- Diminuisce le contestazioni
- Risultati professionali

Per maggiori informazioni, visita il sito [www.andalsystem.it](http://www.andalsystem.it) oppure contatta i nostri tecnici **0962 431436 - info@andalsystem.it**

1 Posizionare due o più tiranti al di sotto della piastrella a circa 10 cm dagli angoli. Posizionare la piastrella successiva.

2 Far scivolare il cono all'interno del tirante, spingendo con forza fino all'allineamento delle piastrelle.

3 Una volta indurito il collante sarà sufficiente un calcio in linea di fuga sul tirante per eliminarlo.

**CONSEILS DE NETTOYAGE APRÈS LA POSE ET D'ENTRETIEN  
RATSCHLÄGE FÜR DIE REINIGUNG NACH DEM VERLEGEN UND DIE WARTUNG**

**FOR THE ATTENTION OF THE INSTALLER**

**S.A.P. LEVELING SPACERS:  
THE BEST SOLUTION FOR A PERFECT TILE INSTALLATION**

Dear customer/installer, large-format rectified porcelain produced by ceramic factories needs a more precise and accurate tile installation.

The **SAP leveling spacer** is designed to improve tile installation and oversimplify the work of the installer and achieve an excellent result. For all these reasons, **COTTO PETRUS** recommends to install tiles with the **SAP leveling spacer** in order to prevent inconveniences which may occur during tile installation.

In particular, the **SAP leveling spacer:**

- Aligns tiles of different thicknesses,
- Virtually eliminates lippage,
- Allows a minimum joint of 1 mm
- No special tools are required
- Decreases call-backs due to poor installation
- Professional results

**SYSTEM S.A.P. ZUM NIVELLIEREN  
VON FLIESEN BEI DER VERLEGUNG**

**COTTO PETRUS** empfiehlt Andalsystem: Mit diesem **SAP System** ist es möglich Fliesen absolut Plan zu verlegen. Überzähne werden zuverlässig vermieden. Die Anwendung ist einfach und schnell. Man spart Zeit und erhält einen perfekt verlegten Boden, bei geringem Kostenaufwand.

Besonders vorteilhaft erweist sich bei großformatigen und kalibrierten Fliesen. Die Zuglaschen (Weiß) werden bei der Verlegung in die Fugen (1 mm) eingesetzt.

Nach Einlegen der benachbarten Fliese drückt man den Keil (Gelb) mit der Spezialzange durch die Lasche, bis die Oberfläche beider Fliesen auf gleicher Ebene ist. Nach dem Erhärten des Klebers wird die Lasche an der Sollbruchstelle einfach abgebrochen. Der Keile kann wiederverwendet werden. Das System ist nach dem Ausfugen nicht mehr erkennbar.

Info unten [www.andalsystem.it](http://www.andalsystem.it) oder **0049 (0) 151 11 15 77 57 - info@andalsystem.it**

**A LA ATENCIÓN DEL ALICATADOR**

**SEPARADORES DE NIVELACIÓN S.A.P. :  
LA MEJOR SOLUCIÓN PARA UNA PERFECTA COLOCACIÓN**

Estimado cliente/alicatador, las empresas de cerámicos han introducido en el mercado pavimentos y revestimientos de gran formato rectificado que necesitan una colocación más precisa.

El **separador de nivelación S.A.P.** es un producto diseñado para mejorar la colocación de las baldosas y simplificar el trabajo del alicatador, así que logre un resultado excelente. Por este motivo, **COTTO PETRUS** recomienda colocar con el **separador de nivelación S.A.P.** para prevenir los inconvenientes que pueden verificarse durante la colocación.

En particular, el **separador de nivelación S.A.P.:**

- Nivelas baldosas de diferente espesor;
- Elimina el desnivel entre las baldosas;
- Permite una junta mínima de 1 mm;
- No necesita alguna herramienta adicional;
- Disminuye las contestaciones debidas a una incorrecta colocación;
- Resultados profesionales.

Para mayor informaciones, por favor visite nuestro sitio web [www.andalsystem.it](http://www.andalsystem.it) o contacte nuestros especialistas al número **0039 (0)962 431436 - info@andalsystem.it**

**À L'ATTENTION DE L'INSTALLATEUR**

**CRUISILLONS AUTONIVELANTS S.A.P. :  
LA MEILLEURE SOLUTION POUR POSER VOTRE CARRELAGE**

Cher client/installateur, Les sociétés de carreaux ont réalisé carreaux de grand format rectifié que exigent de une pose plus précise.

Le **croisillon autonivelant S.A.P.** est développé pour améliorer la pose des carreaux et simplifier le travail de l'installateur, obtenant un résultat excellent.

Pour toutes ces raisons, **COTTO PETRUS** préconise le **croisillon autonivelant S.A.P.** afin de prévenir problèmes que peuvent se produire pendant la pose des carreaux.

En particulier, le **croisillon autonivelant S.A.P.:**

- Est idéal pour une utilisation avec des carreaux de différentes épaisseurs;
- Permet d'éliminer tout décalage de niveau entre les carreaux;
- Permet un largeur minimale du joint de 1 mm entre les carreaux;
- Ne nécessite aucun outil particulier;
- Diminue rappels dus à une mauvaise installation;
- Résultats professionnels.

**NORMATIVA CONTRATTUALE** - Le presenti Condizioni Generali di Vendita, salvo modifiche o deroghe concordate per iscritto, disciplinano tutti i contratti vendita conclusi tra la Venditrice e l'Acquirente. Eventuali offerte, transazioni, accrediti e/o abbuoni accordati su iniziativa di Agenti o altri intermediari, non saranno vincolanti se non accettati per iscritto dalla Venditrice e comunque limitatamente al contratto al quale si riferiscono.

**OGGETTO DELLA FORNITURA** - La fornitura comprende esclusivamente quanto indicato nella conferma d'ordine della Venditrice. Il testo della conferma d'ordine prevale, in ogni caso, sul testo eventualmente difforme dell'offerta o dell'ordinazione, ed annulla e sostituisce eventuali accordi o trattative che non siano riportati nella conferma stessa. L'esecuzione parziale dell'ordine senza preventiva conferma non comporta approvazione per l'intero ordine, bensì approvazione parziale relativamente alla merce consegnata.

**CARATTERISTICHE DEI MATERIALI** - Le informazioni e i dati risultanti da cataloghi o illustrazioni, così come le caratteristiche dei campioni e dei modelli di Cotto Petrus S.r.l. sono sempre approssimativi ed è quindi facoltà della Venditrice apportare ai prodotti quelle variazioni, senza alterarne le caratteristiche essenziali, che si ritenessero necessarie o opportune senza obbligo di preavviso. I toni dei colori campionati hanno carattere puramente indicativo e non vincolante, così come la possibilità di ripetere tonalità precedentemente fornite che, pertanto, non rappresentano impegno per la Venditrice e motivo di reclamo per l'Acquirente. Salvo specifiche richieste da concordare prima della conferma d'ordine, la Venditrice non garantisce che l'ordine del singolo articolo venga integralmente evaso con un medesimo lotto di produzione.

**ORDINI** - Sono sempre impegnativi e irrevocabili per l'Acquirente: la Venditrice sarà vincolata solo dopo la conferma scritta. S'intende comunque che ogni ordine viene fatto con la completa accettazione da parte dell'Acquirente di tutte le presenti Condizioni Generali. Nell'ordinazione dovranno essere contemplati soltanto articoli di produzione corrente: non saranno comunque oggetto di conferma quei materiali per i quali la Venditrice in dipendenza di esigenze interne o di mercato, ha ritenuto opportuno sospendere la produzione. Ogni ordine deve essere inoltrato per iscritto, anche se, per ragioni di urgenza dovesse essere preceduto da comunicazione telefonica.

**TERMINE DI CONSEGNA** - I termini di consegna decorrono dalla data della conferma d'ordine e, salve diverse pattuizioni scritte, hanno carattere puramente indicativo e non essenziale. Eventuali ritardi nelle consegne, interruzioni, sospensioni totali o parziali delle forniture non daranno all'Acquirente alcun diritto ad indennizzi o risarcimenti, ogni eccezione rimossa.

**CONSEGNA E TRASPORTO** - Salvo patto contrario, la vendita s'intende Franco Fabbrica Cotto Petrus S.r.l. e ciò anche quando sia convenuto che la spedizione o parte di essa venga curata dalla Venditrice. Ad ogni effetto di legge, il luogo di consegna della merce è quello nel quale la fornitura viene messa a disposizione dell'acquirente o all'atto della consegna al Vettore. In ogni modo, quali che siano i termini di resa pattuiti, la merce viaggia sempre a rischio e pericolo dell'Acquirente ed ogni responsabilità della Venditrice cessa, al più tardi, con la consegna al Vettore, nei confronti del quale l'Acquirente dovrà sporgere eventuali reclami relativi ad ammanchi o rotture.

Il Compratore è tenuto a precisare al momento dell'ordine dettagliate modalità di trasporto: la Venditrice spedisce la merce col mezzo ritenuto più opportuno qualora mancassero preventive indicazioni al riguardo, senza che ciò costituisca per il Compratore motivo di reclamo.

**ASSICURAZIONE** - Se richiesta è sempre a carico dell'acquirente.

**IMBALLO** - Salvi diversi accordi scritti, l'imballo sarà sempre in cartoni: avvenuta la consegna all'Acquirente o al Vettore senza reclami o riserve,

cessa ogni responsabilità della Venditrice. **Saranno addebitate le spese di imballo (europallet ed eventuali rinforzi) che verranno stabilite al momento della vendita.**

**GARANZIA** - La Venditrice garantisce la qualità di quanto fornito conformemente alle scelte richieste dall'Acquirente. In particolare, la garanzia riconosciuta dalla Venditrice è relativa ai prodotti di prima scelta con tolleranza del 5%. La merce in scelta differente dalla prima (seconda, terza scelta, stock, partite occasionali ecc.), s'intende sempre venduta come "vista e piaciuta". E' fatto obbligo all'Acquirente verificare la merce in termini di qualità e quantità entro breve termine dalla consegna. Nel caso l'Acquirente rivenda la merce a soggetti che rivestono la qualifica di Consumatori, è escluso il diritto di cui all'art. 131 del Codice di Consumo decorso un anno dalla consegna da parte della Venditrice.

**RECLAMI** - Eventuali contestazioni dovranno essere inviate a mezzo racc.a.r. presso la sede legale della Venditrice, nei termini di legge. La posa del materiale determina la decadenza dall'azione per vizi e/o difetti, importando rinuncia implicita alla garanzia di cui all'art. 1490 c.c.. In ogni caso la garanzia comprende unicamente la sostituzione dei soli pezzi difettosi o la riparazione, con esclusione di ogni ulteriore e diversa obbligazione, anche risarcitoria. La presenza di piastrelle difettose non inficia la qualità dell'intera fornitura né comporta l'obbligo della integrale sostituzione.

**SOLVE ET REPETE** - Eventuali contestazioni sul materiale non danno diritto all'Acquirente di sospendere o ritardare in tutto o in parte il pagamento, nei termini pattuiti, della merce oggetto di contestazione, né, tanto meno, di altre forniture.

**PREZZI** - Si intendono sempre riferiti al listino in vigore al momento della conferma della Venditrice. Salvo diversa pattuizione scritta, sono sempre al netto e relativi a merce franco fabbrica, non comprendendo quindi altri oneri e spese, che saranno sempre a carico del Compratore.

**PENALE PER ANNULLAMENTO ORDINI** - In caso di annullamento da parte del Compratore di un ordine confermato e pronto per il carico, è in facoltà della Venditrice di addebitare una penale pari al 20% del valore del materiale.

**PAGAMENTI** - I pagamenti dovranno essere effettuati come indicati nella conferma d'ordine: a tutti gli effetti, il luogo di pagamento resta fissato nella sede della Cotto Petrus S.r.l. anche se effettuati a mezzo di personale autorizzato, rimessa diretta, tratte autorizzate, ricevute bancarie o effetti cambiari. In caso di ritardato o mancato pagamento anche parziale, così come nel caso di mutamento delle condizioni patrimoniali dell'Acquirente, sarà in diritto della Venditrice esigere gli interessi di mora al tasso commerciale corrente, così come sospendere l'esecuzione delle forniture in corso e/o risolvere in tutto o in parte qualsiasi contratto in atto, senza che l'Acquirente possa rivendicare risarcimenti diretti e/o indiretti di alcun tipo.

**RISERVA DI PROPRIETÀ** - Nel caso in cui il pagamento, per accordi contrattuali, debba essere effettuato in tutto o in parte dopo la consegna, la merce consegnata resta in proprietà di Cotto Petrus S.r.l. fino al completo pagamento del prezzo.

**LEGGE APPLICABILE - FORO COMPETENTE** - Il contratto è disciplinato dalla legge italiana. La definizione di qualsiasi controversia derivante, dipendente o conseguente dai contratti di vendita con Cotto Petrus S.r.l., anche se riferibili ad affari trattati da propri dipendenti o incaricati fuori dalla propria Sede, è soggetta alla giurisdizione dello Stato Italiano e unico Foro competente in via esclusiva è quello di Reggio Emilia.

**CONTRACTUAL RULES** - These General Conditions of Sale, unless changes or exceptions agreed in writing, govern all the sale contracts completed between the Seller and the Buyer. Any offers, transactions, credits and / or rebates granted by agents or other intermediaries will not be binding unless accepted in writing by the Seller and in any case limited to the contract to which they refer.

**OBJECT OF THE SUPPLY** - The supply includes only what is indicated in the Seller's order confirmation. The text of the order confirmation prevails, in any case, over the text that may differ from the offer or order, and cancels and replaces any agreements or negotiations that are not indicated in the confirmation itself. Partial execution of the order without prior confirmation does not imply approval for the entire order, but partial approval for the goods delivered.

**MATERIAL FEATURES** - The informations and datas on catalogues or flyers, as well as the characteristics of the samples and collection of Cotto Petrus S.r.l. are always approximate and it is therefore the Seller's right to make those variations to the products, without changing their essential characteristics, which were deemed necessary or appropriate without prior notice. The shades of the sampled colors are only indicative and not binding, as well as the possibility of repeating previously provided shades which, therefore, do not represent a commitment for the Seller and a reason for complaint for the Buyer. Except for specific requests to be agreed before the order confirmation, the Seller does not guarantee that the order of the single item will be fully processed with the same production batch.

**ORDERS** - They are always binding and irrevocable for the Buyer: the Seller will be bound only after written confirmation. It is understood, however, that each order is made with the complete acceptance by the Purchaser of all these General Conditions. When ordering, only items of current production must be contemplated: those materials for which the Seller, depending on internal or market needs, has deemed it appropriate to suspend production, will not be confirmed. Each order must be sent in writing, even if, for reasons of urgency, it should be preceded by telephone communication.

**DELIVERY TIME** - The delivery terms start from the date of the order confirmation and, unless otherwise agreed in writing, are purely indicative and not essential. Eventual delays in deliveries, interruptions, total or partial suspensions of supplies will not give the Purchaser any right to compensation, any exception removed.

**DELIVERY AND TRANSPORT** - Unless otherwise agreed, the sale is understood to be EX FACTORY Cotto Petrus S.r.l. and this also when it is agreed that the shipment or part of it will be handled by the Seller. For all legal purposes, the place of delivery of the goods is that in which the supply is made available to the buyer or upon delivery to the Carrier. In any case, whatever yield agreed upon, the goods always travel at the risk and peril of the Buyer and any liability of the Seller ends, at the latest, with the delivery to the Carrier, against which the Buyer must protrude any complaints relating to shortages or breakages. At the time of the order, the Buyer is required to specify detailed instructions of transport: the Seller will ship the goods by the means deemed most appropriate if there are no prior indications in this regard, without this being a reason for the Buyer to complain.

**INSURANCE** - If requested it is always paid by the buyer.

**PACKAGING** - Unless otherwise agreed in writing, the packaging will always be in cartons: after delivery to the Buyer or to the Carrier without complaints or reservations, all Seller's liability ceases. **Packaging costs (Euro-pallets and any reinforcing) shall be charged as established at the time of the sale.**

**WARRANTY** - The Seller guarantees the quality of what is supplied in accordance with the preferences requested by the Buyer. In particular, the guarantee recognized by the Seller relates to first choice products with a tolerance of 5%. The goods in a different choice from the first (second, third choice, stock, occasional lots, etc.), are always intended as "seen and liked". The Buyer is obliged to check the goods in terms of quality and quantity within a short time of delivery. If the Buyer resells the goods to subjects who qualify as Consumers, the right pursuant to art. 131 of the Consumer Code is excluded after one year of delivery by the Seller.

**COMPLAINTS** - Any disputes must be sent by registered mail at the Seller's legal office, in accordance with the law. The installation of the material causes the forfeiture of any action due to defects, meaning an implicit waiver of the guarantee pursuant to art. 1490 of the Italian Civil Code. In any case, the guarantee only includes the replacement of only defective parts or repair, with the exclusion of any further and different obligation, including compensation. The presence of defective tiles does not affect the quality of the entire supply nor does it involve the obligation of full replacement.

**SOLVE ET REPETE** - Any disputes on the material do not entitle the Purchaser to suspend or delay payments in whole or in part, within the agreed terms, of the goods subject of the dispute, let alone other supplies.

**PRICES** - They are always referred to the price list in force at the time of the Seller's confirmation. Unless otherwise agreed in writing, they are always net and related to ex-works goods, therefore not including other charges and expenses, which will always be borne by the Buyer.

**PENALTY FOR ORDERS CANCELLATION** - In the event of cancellation by the Buyer of a confirmed order ready for loading, the Seller has the right to charge a penalty equal to 20% of the value of the material.

**PAYMENTS** - Payments must be made as indicated in the order confirmation: for all intents and purposes, the place of payment remains fixed at the headquarters of Cotto Petrus S.r.l. even if completed by authorized personnel, direct remittance, authorized draft, bank receipts or bills of exchange. In the event of delayed or missing-payment, even partial, as well as in the case of a change in the Buyer's financial conditions, the Seller will be entitled to request the interest at the current commercial rate, as well as to interrupt the execution of supplies in progress and / or terminate in whole or in part any contract in progress, without the Buyer being able to claim direct and / or indirect compensation of any kind.

**RESERVATION OF TITLE-OWNERSHIP** - In the event that the payment, by contractual agreements, must be made in whole or in part after delivery, the delivered goods remain of property of Cotto Petrus S.r.l. until full payment has been completed.

**APPLICABLE LAW - COMPETENT COURT** - The contract is governed by Italian law. The definition of any controversy deriving, dependent or consequent from the sales contracts with Cotto Petrus Srl, even if referable to business dealt with by its employees or appointed outside of its headquarters, is subject to the jurisdiction of the Italian State and of the competent Court of Reggio Emilia.

LA NOSTRA STORIA

**EcoDado+ Group** è uno gruppo industriale italiano che produce e commercializza rivestimenti in bicottura atomizzata e pavimenti in gres porcellanato. Grazie all'utilizzo delle più moderne tecnologie e alla solida esperienza di persone dedicate con passione alla ricerca di design e della qualità, soddisfiamo le esigenze dei nostri clienti in tutto il mondo.

**ecodado+™ Group**

OUR HISTORY

**EcoDado+ Group** is an industrial group based in Italy that manufactures and sells double-fired wall tiles and porcelain stoneware tiles. Thanks to the use of the most modern technologies and the decennial know-how of people dedicated with passion to the research of design and quality, we meet the needs of our customers all over the world.

RICERCA E SVILUPPO • RESEARCH AND DEVELOPMENT

Prestando sempre la massima attenzione alle nuove soluzioni tecnologiche ed alle tendenze di mercato, la nostra area ricerca e sviluppo raccoglie costantemente idee e le elabora affinché divengano prototipi capaci di ispirare nuove superfici ed ambienti con la solita minuziosa attenzione alla qualità sostenibile. While paying the utmost attention to technological innovations, our research and development department constantly collects ideas and processes them to become prototypes capable of inspiring new surfaces and environments with the usual meticulous attention to sustainable quality.

MISSION

Il nostro impegno quotidiano e la nostra esperienza e professionalità sono tutte concentrate al miglioramento degli ambienti e delle persone, proiettandoci verso il futuro con un ruolo da protagonista nel rispetto delle nuove generazioni. Our daily commitment and our experience and professionalism are focused on improving the environment and people, projecting us towards the future with a leading role in respecting the new generations.

LA NOSTRA STORIA

**Cotto Petrus** nasce nel 1972 a Roteaglia (RE) come produttore di cotto forte, supporto per la bicottura tradizionale. Per oltre 40 anni è stato punto di riferimento in quanto fornitore di tutte le più importanti aziende di rivestimento Italiane. Nel 2013 cessa la produzione di cotto forte e con grandi investimenti inizia a produrre gres porcellanato. **Oggi è una realtà industriale moderna e dinamica**, che produce materiali ceramici di elevate prestazioni tecniche, garantendo una qualità estetica in linea con le tendenze contemporanee.

**Cotto Petrus** è partner attivo di **ecodado+™ Group** formato dalla collaborazione industriale e commerciale di **Dado Ceramica, Antica Ceramica Rubiera e Cotto Petrus.**

OUR HISTORY

**Cotto Petrus** was born in 1972 in Roteaglia (RE) as a producer of cotto forte, a traditional double firing support. For over 40 years it has been landmark as a supplier of all the most important Italian coating companies. In 2013 the production of cotto forte ended and with large investments began to produce porcelain stoneware. **Today it is a modern and dynamic reality**, which produces high technical performing tiles, providing aesthetic of contemporary trends.

**Cotto Petrus** is an active partner of **ecodado+™ Group** the industrial partnership with **Dado Ceramica and Antica Ceramica Rubiera.**

**CERTIFICAZIONI**

IT

**EcoDado+ Group** ha sempre ritenuto che la qualità del proprio servizio fosse il fondamento del successo commerciale dell'Azienda ed ha quindi ritenuto opportuno istituire un **Sistema di Gestione per la Qualità**, con l'obiettivo di migliorare continuamente il grado di soddisfazione della propria clientela. In quest'ottica, nel mese di luglio 2014, **EcoDado+ Group** ha ottenuto dall'ente TÜV Austria Cert GmbH la certificazione che attesta la conformità dell'organizzazione aziendale ai requisiti della norma **UNI EN ISO 9001**. Il Gruppo ha implementato inoltre un Sistema di Gestione Ambientale ottenendo nel 2015 la certificazione che attesta la conformità ai requisiti della norma **ISO 14001**. Nel 2016 è stata ottenuta la conformità ai requisiti della norma **UNI CEI EN ISO 50001:2011 Sistemi di Gestione dell'Energia**, consentendo a **EcoDado+ Group** il miglioramento continuo della propria prestazione energetica, comprendendo in questa l'efficienza energetica nonché il consumo e l'uso dell'energia. I controlli previsti da queste normative sono i più accurati e comprendono tutte le funzioni aziendali: la progettazione, gli approvvigionamenti, i controlli sui prodotti e sul processo produttivo, la commercializzazione, l'assistenza post-vendita per tutti i marchi commerciali. Sempre nel 2016 è stata ottenuta anche la certificazione **UNI EN ISO 45001**, che si occupa di salute e sicurezza dei lavoratori, assicurando l'ottemperanza ai requisiti previsti per i Sistemi di Gestione della Salute e Sicurezza sul Lavoro. Nel 2017 è stata ottenuta la certificazione **UNI EN ISO 14021:2016** (etichettatura del materiale riciclato). Ancora nel 2017 **EcoDado+ Group** si è associata al **Green Building Council Italia**, organismo indipendente che ha come obiettivo la diffusione di una cultura dell'edilizia sostenibile ed in particolare la promozione del sistema di certificazioni **LEED Leadership in Energy and Environmental Design**.

I prodotti di **EcoDado+ Group** contengono almeno il **19% di materia prima riciclata** e consentono ai loro utilizzatori di accedere ai crediti LEED. L'azienda risulta conforme agli standard richiesti per il miglioramento della **Qualità dell'Aria in ambienti Interni (IAQ)**.

Le certificazioni rappresentano il **coronamento di un'esperienza pluriennale** ed il riconoscimento dell'**impegno costante** che l'azienda ha posto nella ricerca della qualità come fattore strategico prioritario. In accordo con la politica della qualità opera **la sezione di verifica ed archiviazione dei campioni base e della produzione corrente**; questa sezione controlla costantemente le **caratteristiche tecniche ed estetiche** della produzione e la loro **conformità** con i campioni base per assicurare la massima qualità e precisione nella fornitura.

**CERTIFICATIONS**

EN

**EcoDado+ Group** has always considered the quality of the service provided as the foundation of the company's success, so the Group has decided to implement a **Quality Management System**, with a view to constantly boosting customer satisfaction. With this objective in mind, in July 2014, **EcoDado+ Group** obtained, from TÜV Austria Cert GmbH, the certification that the Group's corporate organisation complies with the requisites of the **UNI EN ISO 9001 standard**. The Group has also implemented an Environmental Management System, and in 2015, it obtained the certification of compliance with the requisites of the **ISO 14001 standard**.

In 2016, compliance was obtained with the requirements of the **UNI CEI EN ISO 50001:2011 Energy Management Systems standard**, allowing **EcoDado+ Group** to continually improve its energy performance, in terms of both energy efficiency and the use and consumption of energy.

The checks provided for under these regulations are particularly rigorous, and regard all company departments and functions: planning and design, provisioning, checks on products and the production process, sales, post-sales assistance for all brands.

In 2016, the Group also obtained **UNI EN ISO 45001 certification**, which regards the health and safety of workers, guaranteeing compliance with the requisites contemplated for Workplace Health and Safety Management Systems.

In 2017, **EcoDado+ Group** obtained both **UNI EN ISO 14021:2016 certification** (labelling of recycled material).

In 2017, **EcoDado+ Group** became a member of **Green Building Council Italia**, an independent body that seeks to spread a sustainable building culture, and in particular, to promote the **LEED Leadership in Energy and Environmental Design certification system**.

**EcoDado+ Group** products contain at least **19% of recycled raw materials**, allowing users to obtain LEED credits. The company complies with the standards requested for the improvement of **Indoor Air Quality (IAQ)**.

These certifications are the **crowning glory of many years' experience**, and acknowledge the **company's constant commitment** to quality, the strategic factor that is top priority for **EcoDado+ Group**. In accordance with the corporate quality policy, there is a **section that checks and files base samples and samples of the current production**; this section constantly monitors the **technical and aesthetic characteristics** of the products, **ensuring they comply with the base samples** in order to guarantee completely accurate, quality supplies.
