

Clara is more than just a bar—it's a space for storytelling, expression, and unforgettable nights. With each menu, we dive into new worlds, blending art, culture, and flavor into something truly special.

For this edition, we take inspiration from Frank Ockenfels, a visionary artist who transforms photography into layered narratives of identity, rebellion, and raw emotion. Our five new cocktails echo his striking works—each sip capturing his bold contrasts, fractured perspectives, and fearless creativity.

Alongside these, our Clara Classics return, a lineup of signature cocktails that stand the test of time. Whether you're drawn to Ockenfels' avant-garde vision or the timeless appeal of our fan favorites, this menu is crafted for those who drink with intention.

Sip the story. Stay for the moment.
