Open Programs: Development programs for professionals and executives.
Welcome to WHU Executive Education: Leading Minds.

“We prepare the leaders of today and tomorrow for the upcoming economic and social challenges.”

We are convinced that preparing leaders for today’s challenges and the ones yet to come is of the utmost importance. Now is the time to master change, lead transformation, rethink business models and enhance the entrepreneurial mindset. We are delighted to present our Open Programs Portfolio for the year 2023 in this brochure. We have again added new development opportunities on high-potential, middle management and executive level. We are looking forward to welcoming you to our in-class and online programs!

Advanced Management

**Advanced Management for Senior Professionals Program**

This advanced management program is specifically designed for senior professionals on their way up the corporate ladder within their organizations, or business owners who aim at preparing themselves to face future business challenges. In this intense 5-day program (2 modules à 2.5 days with additional short online sessions in between modules), you will sharpen your leadership personality, and interact with peers beyond your own industry background.

**Participant Profile**
- Senior professionals who have recently made a transition to an executive management position or board-level position, or who are preparing to do so in the near future
- Senior HR development professionals who are driving the development agenda for senior-level positions within their organization
- Participants should have more than ten years of leadership experience

**Your Benefits**
- Enhance your strategic impact and drive corporate transformation
- Reflect on inspirational leadership and the power of emotions
- Prepare to compete in market environments with disruptive innovators
- Excel in the execution of strategic or change initiatives
- Become part of an active network of peers and past program alumni

---

**Advanced Management Programm für Ärztinnen/Ärzte**

This intense and exclusive program addresses the daily challenges of medical doctors with regards to entrepreneurial decision-making in the face of the everyday struggle between reason and profit. A special focus is on the topics of finance, taxes, and digitalization. Further, participants will reflect on their leadership personalities and will learn to become more resilient toward challenges and setbacks.

**Participant Profile**
- Experienced clinical doctors, such as senior physicians who are working towards becoming chief physicians
- Non-hospital doctors in the outpatient sector who manage, or are in the process of setting up or restructuring, a large organization
- Experienced doctors who are interested in setting up on their own or are keen to learn more about economic issues

**Your Benefits**
- Gain a broader perspective on the changes in your market environment and learn about the impacts these will have on your working practice
- Learn about “best practices” in the field of digitalization – both in a practical and a clinical setting
- Reflect on your authenticity as an executive and decision-maker; learn how to motivate high-performance teams
- Expand your professional network and use the protected space to reflect on your own challenges and receive feedback
- Learn about relevant tools for better management of the economic aspects of your everyday work

Management-Führungs-kräfteprogramm für Non-Profits

The Management Program for Executives in the Non-profit Sector (Management-Führungs-kräfteprogramm für Non-Profits) by WHU and DSA helps you expand your strategic toolkit and establish additional networks. During the program week, you will engage in discussions with our lecturers in interactive learning sessions, consider practical cases in small groups, and put agile methods into practice.

In cooperation with:

Participant Profile
- High-potentials and executives from the foundation and not-for-profit sector
- DSA and WHU alumni, as well as graduates of other programs in foundation management
- Participants should have at least five years experience in management, governance, or project management at non-profits

Your Benefits
- Management in the non-profit context: outlook on the latest management techniques and insights into new management approaches
- Context: strategic implications of new legal and fiscal/financial frameworks
- Transformation: digitalization of civil society as an opportunity and challenge for non-profit actors
- Innovative business models: social enterprises as an innovative instrument for extensive and sustainable social impact
- Agile methods & ways of working: opportunities for deploying agile methods (e.g., design thinking) in the non-profit context

Short Facts
- Location: Düsseldorf, Germany
- Format: 5 days
- Language: German
- Fee: € 3,850*

The Essence of Coaching for Senior Leaders Program

During this program, you will learn how to authentically add coaching to your leadership signature. You will primarily learn how coaching works from a practical perspective. Using the Leadership Choices coaching model, you will be given insights into powerful questions and levels of listening. Plenty of practical coaching work will take place in the classroom. You will also be asked to work with three real coachees, i.e., coaching clients during the program.

In cooperation with:

leadership choices

Participant Profile
- Experienced managers who want to reflect upon and improve their leadership portfolio
- Managers who want to prepare themselves for their next leadership challenge
- HR professionals who want to help their managers grow and want to create a coaching culture in their organizations

Your Benefits
- Enhance the impact and effectiveness of your leadership
- Ascertain your own leadership style portfolio
- Learn how to turn random interactions into powerful coaching conversations
- Unleash the creativity and accountability of the people you lead
- Maximize your potential as a senior leader through this unique learning experience with intensive, hands-on exercises

Short Facts
- Location: Düsseldorf, Germany & Online
- Format: 5 days & virtual sessions
- Language: English
- Fee: € 5,950*
- Website: ee.whu.edu/cesl

* including tuition, session materials, meals during the day. Special fees available.
Data Science for Decision Makers

WHU’s “Data Science for Decision Makers” program equips participants with the knowledge they need to successfully work with data scientists. The aim is not to train participants to become data scientists themselves, but rather to develop a level of data science understanding that reduces the communication barriers between decision makers and data scientists. You will learn how to make sense of data using machine learning tools and how to critically evaluate the merit of data science project proposals.

Participant Profile
− Professionals who want to …
  − gain a thorough understanding of the essential frameworks of data collection and data analysis
  − leverage data-driven insights for decision-making
  − enhance their knowledge of machine learning and artificial intelligence
  − improve their ability to critically assess data science project proposals and to interact with data scientists in or outside their organization.

Your Benefits
− Enhance your skills to successfully collaborate with data scientists
− Enrich your ability to strategically leverage data-driven insights
− Get a good understanding of how machine learning and artificial intelligence can drive competitive advantage
− Acquire the knowledge of how to use the analysis of big data to make effective decisions
− Learn how to contribute to the digital transformation in your organization
Financial Literacy Program

Understand the basics of financial data and its impact on decision-making processes within a company. This program enables you to make informed and effective decisions that create value for your company. It is targeted at managers who are not financial specialists but want to develop an understanding of the "numbers side" of business.

Innovation & Corporate Entrepreneurship Essentials Program

The Innovation & Corporate Entrepreneurship Essentials Program will equip you with insights, skills, and tools to generate game-changing innovations and create an innovation powerhouse. You will experience learning in different formats: lectures, group work, case studies, and simulations. Be a leader in a digital, disruptive environment and power your future growth!

Participant Profile

- Participants who have an educational background in a field other than finance
- Participants who are in transition into a leadership position and would like a compact overview of the “numbers side” of business
- Participants who want to learn the impact of financial statements on a company's strategy

Your Benefits

- Learn to read, understand, and derive conclusions from financial statements
- Understand fundamental concepts in finance & accounting
- Get the necessary practical skills to estimate the cost of capital of a single project or a firm
- Understand the main characteristics of different financing sources

Participant Profile

Professionals who want to expand their ability to...
- foster and drive innovation
- better understand and serve customer needs, accelerating the time from idea to market
- initiate and lead innovation-driven organizational transformation

Your Benefits

- Learn why most companies struggle with innovation, why most innovations fail and how breakthrough innovations really happen in leading companies
- Understand how to make a compelling case for innovation, and lead the charge for innovation in your organization
- Learn how to deal with creative destruction and disruption to establish an entrepreneurship spirit within your company
Leadership Essentials Program

Transition from a crucial team contributor into an inspiring team leader so that others follow you. Explore the key elements of leadership by focusing on your personal situation and learn about the difficulties of taking action and responsibility. Prepare yourself for the next career level!

The General Management Program in Sports Business is a development program for future leaders in the sports business industry. The program content and selection of faculty are based on the latest scientific findings and most current industry trends. In cooperation with:

### Participant Profile
- Future executives and high potentials from the sports business industry and related industries

### Your Benefits
- Gain knowledge in strategy, finance, leadership, sales, entrepreneurship, and marketing applied to the sports industry
- Extend your personal network
- Grow as a leader
- Obtain 15 ECTS credits upon successful program completion

---

How good is our strategy? Which markets are profitable for us? How valuable is our market positioning? How can we achieve operational excellence? WHU’s Executing Strategy for Organizational Growth Program will help you find answers to these questions. Test your strategic mind, implement a business strategy and execute it in a competitive environment. WHU’s Executing Strategy for Organizational Growth Program challenges experienced professionals to enhance their strategy implementation skills.

### Participant Profile
- Experienced professionals from all business functions, general managers, and business owners who are interested in strategy implementation
- Participants should have at least 8 years of professional experience and 2 years of experience making strategic or tactical decisions
- Business background is not required

### Your Benefits
- Enhance your ability to formulate and execute a business strategy in a highly competitive, complex market environment
- This program enables you to use tools of economic analysis to anticipate competitors’ actions, understand the consequences of environmental changes and make investment decisions
- The program prompts you to use financing tools to leverage your business and use cost and productivity analyses to optimize operational performance
- Challenge your leadership and management skills to deal with the increasing complexity of your firm (interrelated business functions) and accomplish multiple tasks under severe time pressure

  - Interest in multidisciplinary approaches

- **Your Benefits**
  - Enhanced understanding of the specific features of family businesses and families in business
  - Awareness of the pitfalls makes it easier to approach family businesses
  - Familiarization with best practices for dealing with family businesses
  - Cross-disciplinary discussion of experience with family businesses
  - Consolidation of learning outcomes by working through a prototypical case study
  - Gain enhanced expertise in the area of family businesses, and learn how to deal with family businesses as clients
Transformational Technologies: Applied Lessons from Sports

Learn about game-changing technologies in a digestible, engaging, asynchronous online format, illustrated through first-hand examples from the fascinating world of sports. Explore how you can apply these technologies to your own context and industry as part of a (digital) transformation process – the WHU and MIT xPRO way. This program is particularly suited for professionals interested in learning about emerging technologies and applying insights from professional sports to their respective industry.

Participant Profile

- Business professionals from different industries looking to better understand game-changing technologies like artificial intelligence, blockchain, internet of things (IoT), robotics, and web 3.0
- Business professionals eager to discover new opportunities in technology through examples from the sports industry to generate a competitive advantage within their industry
- Sports business professionals seeking to strengthen knowledge on implementing the latest technologies

Your Benefits

- Understand the fundamentals of physical, information processing, and human interaction technologies and how they change existing business models and consumer behavior in your industry
- Identify opportunities and threats associated with technological changes in your industry
- Apply technology use cases and articulate key success factors for implementing them in your organization
- Design a process to identify relevant technology trends and effective responses to stay ahead of your competitors
- Understand the fundamentals of emerging technologies and how these technologies create opportunities in your respective industry
- Identify key factors for transferring and implementing successful use cases into your organization

Scholarships & special offers

Education is an investment in time and money, especially when you want to deepen your knowledge in a certain professional field or if you are aiming for a leadership position. Please check our special financing options for women and high-potentials:

For most of our Open Programs, we offer scholarships for ambitious women and emerging market leaders (ee.whu.edu/scholarships).

Young leaders may check out our Management Essentials Program, which combines three select Management Programs at a special fee (ee.whu.edu/me).

For more savings, check out our Early Bird Specials on the website: ee.whu.edu
Our Customized Programs are tailor-made for companies that would like to train their executives and managers in general management or specific management topics. Both topics and methodology will be adjusted to the individual needs of program participants and the company’s culture and strategy. This approach generates a measurable, relevant, and long-term learning experience.
When working with us for a Customized Program you will benefit from:

- Many years of experience in Management Education
- Close collaboration with our clients in regards to the development, execution, and adaptation of the program
- A broad range of topics
- Renowned WHU professors and adjunct faculty members with several years of experience

Special offer for small groups

Teamwork is often more efficient than entrusting tasks or large projects to single managers. We believe in team effort and in a joint learning experience. Therefore, we offer special conditions for companies who would like multiple employees to participate in one of our Open Programs.

“You think your company is too small for a unique customized program? Let us know and we will aim at grouping a small consortium of companies that face the same challenges, but do not compete with each other.”

Dr. Heike Brost-Steffens, Director Customized Programs

FAQ

No 1 What is a “WHU Certified in Program”?

WHU Certified in Programs are short courses at the MBA level specializing in management topics. Upon successful completion of a “WHU Certified in Program,” participants will be awarded a WHU certificate with 8 ECTS which are valid when pursuing an MBA at WHU.

No 2 What is the target group of WHU’s Certified in Programs?

The Certified in Programs are targeted at professionals who have gained 2–10 years of professional experience in various sectors. They are specially designed for professionals interested in certain parts of an MBA, or those who do not have the time or resources to attend a full MBA program.

Participants should be willing and able to engage fully during the courses, as teamwork makes up a substantial part of the programs and course gradings. The participants come from diverse industry and organizational backgrounds, further enriching the learning experience and creating a valuable network of peers.

No 3 Do I get a certification?

Yes, upon successful completion of a WHU Certified in Program, you will be awarded a certificate with 8 ECTS credits. To receive a certificate with ECTS credits*, you are obliged to participate in 4 courses of your choice and successfully pass each course’s examination. An attendance of 75% is mandatory. The certificate grants 8 ECTS credits (13% of an MBA). A Certificate of Participation without 8 ECTS credits will be granted for each taken course.

*For ECTS credits to be granted, a proof of a Bachelor or equivalent first degree is necessary.

No 4 What is the format and when do the courses take place?

The program consists of 4 courses, including 12 teaching days. The courses are held on Saturdays and Sundays at WHU Campus Düsseldorf. Program dates are updated regularly and will be published on the website.

About WHU’s Online Certified in Programs

WHU’s Online Certified in Programs are short courses at the MBA level specializing in management topics. Upon successful completion of a “WHU Online Certified in Program,” participants will be awarded a WHU certificate with 10 ECTS credits which are valid when pursuing an (Online) MBA at WHU.

Target Group
The Online Certified in Programs are targeted at professionals who have gained 2 – 10 years of professional experience in various sectors. They are specially designed for professionals interested in certain parts of an (Online) MBA, or those who do not have the time or resources to attend a full (Online) MBA program. The courses are taught fully online, which gives participants the opportunity to learn at their own pace.

Teaching Format
The Online Certified in Programs entail two learning formats: During live-teaching sessions, you will meet our renowned WHU faculty, and you will have the possibility to interact with your fellow students. The live-teaching sessions take place on Saturdays at 1.00 pm (CEST). Next to that, you will work through self-paced online modules in our e-learning platform. All courses last 4 weeks and include a final examination. The exams take place fully online (e.g., take-home assignments, presentations, case studies).

Pursue an Online MBA at WHU
If you are interested in pursuing the Global Online MBA at WHU at a later point in time, you may choose to participate in all three Online Certified in Programs. You will be granted 10 ECTS (16% of an MBA at WHU) per Online Certified in Program which can be accredited to the Global Online MBA at WHU. Please contact us via openprograms@whu.edu for further information.
