

HOUR RHO WALL LIGHT

The Nikau Palm - *Rhopalostylis Sapida* sprouts singular female flowers, while the male flowers appear in pairs. The design of this wall light playfully appropriates the species with its single and twin iterations. Bec is drawn to these subliminal stories when researching a body of work, which in turn inform honest design decisions. The lamp champions the beauty of the natural world with luxe lathe-turned timber, hand-finished metal and hand-dyed raw silk diffusers in earthy hues of dusk, dawn and rise.
