COATING

Powder coating is a durable finish created by applying and curing a dry powder to a surface, resulting in a hard, chip-resistant coating.

PRODUCT CARE

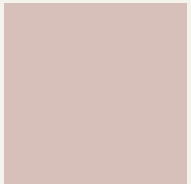

To clean, use a soft cloth or brush with a mild soap and warm water solution. Rinse thoroughly with clean water and dry. Do not use harsh chemicals, solvents, or abrasive cleaners, as these can damage the powder coating.

NOTES

Bronze Black and Terracotta available on request

Limited custom colours available upon request
