## SESSION DETAILS

“\*” Indicates a required field

- Title\*
  - Max character limit: 100 (including spaces)
- Description\*
  - Max Character Limit: 1000 (including spaces)
- Session Type\* (select 1)
  - Panel: An engaging exchange of opinions with counterpoints among peers on a specific topic. This session is 45 minutes total. (1 moderator + 3-4 panelists)
  - Presentation: A talk about technology, research, and/or career tips to advance women in tech. This session is 45 minutes total; 30 minutes for presentation with 15 minutes for Q&A. (1-2 presenters)
  - Workshop: Sessions offering hands-on activities for practical learning and tangible takeaways in skills development, personal growth, or technology demonstrations. This session is 60 minutes total. (2-3 facilitators)
- Details\* (Max Character Limit: 5000 (including spaces); Links to external documents accepted)
  - If Panel is the selected session type
    - Panels are topical discussions between a group of experts with different backgrounds and perspectives. These sessions are not intended to be a series of presentations or one-on-one panelist interviews. Please provide an outline of this session. Think about:
      - How will the moderator guide the conversation between the panelists?
      - How will bringing your proposed group of speakers together create a lively discussion?
      - What are their diverse views or experiences?
      - What is the core point of contention?

- What information, skills, behaviors, or perspectives will attendees gain from the session?
  - If Presentation is the selected session type
    - Presentations are talks about technology, research, and/or career tips to boost technologist's growth and inclusion in STEM. Please provide an outline of this session. Think about:
      - How will you engage the audience?
      - What information, skills, behaviors, or perspectives will attendees gain from the session?
  - If Workshop is the selected session type
    - Workshops should include hands-on, educational solo or small group activities. Provide an outline for this session. Include the activities you intend to guide attendees through during your proposed session. Think about:
      - How you will use the 60-minutes of time to engage the audience.
      - The supplies attendees are expected to have in order to participate.
      - What information, skills, behaviors, or perspectives will attendees gain from the session?
