HEALTH AND DRUG POLICIES: IT'S TIME TO CHANGE

December 17th and 18th, 2012

Location: Oswaldo Cruz Foundation - Fiocruz

Organizers:

Ministério da Saúde

FIOCRUZ

Fundação Oswaldo Cruz

The seminar's main objective is to reflect on the current health system as it relates to drug use and determine new potential strategies for the improvement of alcohol and drug user treatment in the three levels of health provision: primary, secondary and tertiary care.

The seminar will present successful international and national case studies regarding drug-related public health policies.

At the end of the seminar, the participants from the working groups will write a report with proposals that could aid in the construction of new public health practices.

Program

Dec 17th, Monday

9h - Opening

Paulo Gadelha, president of CBDD and Fiocruz;
Rubem César Fernandes, executive director of Viva Rio;
