Evaluating drug policy: a seven-step guide to support the commissioning and managing of evaluations

EMCDDA, Lisbon, October 2017

Summary

This document summarises the main issues concerning evaluation in the field of drug policy. Aimed at those managing rather than undertaking drug policy evaluations, the guide acts as an introduction, providing links to the wider literature. Recognising that there is no single correct way to undertake an evaluation, this publication is designed to assist people in choosing the best approach to suit their circumstances and to maximise the value of any evaluation.

A companion [web page provides more information and resources on policy evaluation](#) [1]. It includes information on EU drug policies as well as links to further resources.
