“ At Amthor International, we are more than made in America. We are reliable solutions keeping you on the road. ”

Amthor offers a variety of vacuum tanks, both code and non-code, round portable restroom and flat portable restroom trucks.

Amthor International has the largest variety of tank trucks for the portable restroom and vacuum industries. Each tank is custom built right here in America by our dedicated workers. We set the industry standard in fully customizable tanker trucks. Each of our products can be fully customized to meet all of your business' needs. We also have an array of tank options that can increase the safety and efficiency of your tank. Any combination of tank options and chassis can be made to your tanker at Amthor International.

With innovation as our foundation, Amthor International constantly strives to make cutting edge industry innovations including patents and improvements to existing products, improving employee training and education, and improving communication with customers through technology. Our extended network of dealers, distributors, and repair locations ensures quick and reliable service wherever you may be.

As a family owned and operated company, the Amthor family takes pride in each and every one of our products. That's because every tank that rolls out of our facility bears the Amthor name. Hands on owners Butch and Brian Amthor are always available throughout every step of the process to ensure your tank is built to the highest standards

Amthor International has everything you need under one roof. Get in house financing with our sister company Horizon Capital Services.

We are able to finance your unit on the spot and offer a simple, one page application with quick approvals and turnarounds. Financing is available on new and pre-owned units with low rates, terms up to 72 months, 100% financing, skip and seasonal payments, and other unusual and special situations.

Purchase your next tank, customized complete unit installed on the chassis of your choice, or turnkey stock unit today!

Sincerely,
Brian and Arnold "Butch" Amthor

Two handwritten signatures in black ink. The first signature is on the left and the second is on the right, both appearing to be the names of the Amthor family members mentioned in the text above.
