JURY TRIAL DEMANDED

CLASS ACTION COMPLAINT

Plaintiffs Mike Huckabee, Relevate Group, David Kinnaman, Tsh Oxenreider, Lysa TerKeurst, and John Blase (“Plaintiffs”) bring this Class Action Complaint against Defendants Meta Platforms, Inc., Bloomberg L.P., Bloomberg Finance, L.P., Microsoft Corporation, and The Eleutherai Institute (“Defendants”), and allege as follows:

NATURE OF THE ACTION

1. Large language models (“LLMs”) are a type of artificial intelligence (“AI”) that are designed to understand and generate human language. These models are characterized by their size and complexity, with millions of parameters that allow them to process and generate text in a way that appears highly intelligent and contextually relevant.

(c) Use of Content to Improve Services. We do not use Content that you provide to or receive from our API (“API Content”) to develop or improve our Services. We may use Content from Services other than our API (“Non-API Content”) to help develop and improve our Services. You can read more here about [how Non-API Content may be used to improve model performance](#). If you do not want your Non-API Content used to improve Services, you can opt out by filling out [this form](#). Please note that in some cases this may limit the ability of our Services to better address your specific use case.

ChatGPT

When you use our non-API consumer services ChatGPT or DALL-E, we may use the data you provide us to improve our models. You can switch off training in ChatGPT settings (under Data Controls) to turn off training for any conversations created while training is disabled or you can submit [this form](#). Once you opt out, new conversations will not be used to train our models.

API

OpenAI does not use data submitted to and generated by our API to train OpenAI models or improve OpenAI’s service offering. In order to support the continuous improvement of our models, you can fill out [this form](#) to opt-in to share your data with us.

Og valget av LLM kan ha sine egne utfordringer
