

REATIL PARTNER

PEVINO

Inspired by passion - crafted for perfection

ABOUT PEVINO

Pevino begins with the belief that wine cooling can become part of the home's refined composition. In the quiet space between architecture, atmosphere and anticipation, we create wine cooling for those who understand that every bottle carries more than vintage and origin. It carries time. Intention. The memory of a place, a maker, a season - and the promise of a moment not yet lived.

Rooted in Nordic restraint and shaped by precise engineering, Pevino brings refined wine care into the modern interior with calm authority. Each line is measured. Each material is chosen with purpose. Each technical detail is resolved to preserve, present and honour the wine.

WHY RETAILERS CHOOSE PEVINO

- Danish design and engineering heritage, developed with professional wine collectors.
- Flexible single- and dual-zone cooling in every series.
- Market-leading low noise levels across the premium range.
- A retail-ready line built for kitchens and living spaces, not just cellars.

Become a Pevino retail partner

We're always glad to hear from retailers who share our standards for design and quality. Get in touch and we'll follow up with our dealer terms and product materials.
