Further information

The information is not investment advice. Kernel has taken reasonable steps to ensure that the information in this document is accurate and up-to-date. Kernel does not accept any responsibility for any error or omission or for any loss resulting from the use of this information, except to the extent required by law.

1. 12 month Yield is the last 4 quarterly distributions divided by unit price 12 months ago. This is the experience an existing investor would have had.

2. Indicative Dividend is the index calculation of the underlying dividends in the last 12 months divided by the current valuation.

3. The offer documents are available at www.kernelwealth.co.nz

4. 12 month volatility is the standard deviation of daily returns, annualised by multiplying by square root of number of periods.

5. Performance assumes distributions reinvested. Gross tracking difference is before fees, expenses and tax. Rounding may cause a difference of 0.01%.

6. Growth of a hypothetical investment in the index (no allowance for fees or taxes) and no further contributions.

7. Global Industry Classification Standard (GICS)

8. Benchmark is S&P Global BMI. See explanation of Trucost methodology.
