## Fund overview

The High Growth Fund is made up of over 98% growth assets, such as shares and listed property. This globally diversified fund is designed to help investors build long-term wealth while lessening volatility through geographical and sector diversification. It is suitable for an investor with an investment time horizon of at least 5 years.

## Benefits

The Kernel High Growth fund can be used in a variety of investment strategies:

- Portfolio core
- Low-cost global equity exposure

The Top 10 investments make up 34.94% of the fund

## Further information

The information is not investment advice. Kernel has taken reasonable steps to ensure that the information in this document is accurate and up-to-date. Kernel does not accept any responsibility for any error or omission or for any loss resulting from the use of this information, except to the extent required by law

1. 12 month Yield is the last 4 quarterly distributions divided by unit price 12 months ago. This is the experience an existing investor would have had.

2. The offer documents are available at [www.kernelwealth.co.nz](http://www.kernelwealth.co.nz)

3. 12 month volatility is the standard deviation of daily returns, annualised by multiplying by square root of number of periods.

4. Performance assumes distributions reinvested. Gross tracking difference is before fees, expenses and tax. Rounding may cause a difference of 0.01%.

5. Gross return is estimated from the 0.25% management fee.

6. Growth of a hypothetical investment in the index (no allowance for fees or taxes) and no further contributions.

7. Global Industry Classification Standard (GICS)
