Fund overview

This fund invests in global real estate companies with weighting towards sustainable practices. Using the independent assessment of GRESB, this fund invests in companies owning and operating real estate. This ranges from traditional office and retail to residential providers in the US, Japan and Europe, to more specialised real estate including storage companies, hospital owners and hotels. The sustainability dimension is recognised through overweighting those companies with relatively high GRESB scores and underweighting those with lower or zero scores. The fund targets a position of being fully hedged back to NZ dollars.

Benefits

The Global Property (NZD Hedged) fund can be used in a variety of investment strategies:

- Provide an income stream and protection against inflation
- To diversify a portfolio and manage risk. Property often has a low correlation to other asset classes

Performance⁵

	1 month	3 months	1 year	3 years p.a.
Index total return	3.32%	10.55%	17.09%	10.88%

What does the fund invest in?

This shows the GICS⁷ weighting for the fund:

Asset allocation

Asset	% of fund NAV
Cash and cash equivalents	-0.17%
Listed property	100.17%

Impact⁸

Carbon Footprint:

6.68 metric tons per USD1m invested. 90% below global benchmark. Operational and first tier supply chain greenhouse gas emissions.

Carbon Efficiency:

80.06 metrics tons / USD1m revenue. 50% below global benchmark. The index's absolute owned greenhouse gas emissions divided by the sum of revenues.

Fossil Fuel Reserves:

0 metric tons per USD1m invested. 100% below global benchmark. The carbon footprint that could be generated if the proven and probable fossil fuel reserves owned by index constituents were burned per USD 1 million invested.

The Top 10 investments make up 47.65% of the fund

Index eligibility criteria

Start with Dow Jones Global Select ESG Tilted RESI Index and then:

- Assign GRESB Real Estate Assessment score
- Companies in bottom 50%, reduce weight 30%.
- Distributed to companies ranked top quartile.

The GRESB Real Estate Assessment is structured around seven aspects and contains approximately 50 indicators. The assessment evaluates performance against seven sustainability aspects, including information on performance indicators, such as energy, GHG emissions, water and waste.

1. 12 month Yield is the last 4 quarterly distributions divided by unit price 12 months ago. This is the experience an existing investor would have had.

2. Indicative Dividend is the index calculation of the underlying dividends in the last 12 months divided by the current valuation.

3. The offer documents are available at www.kernelwealth.co.nz

4. 12 month volatility is the standard deviation of daily returns, annualised by multiplying by square root of number of periods.

5. Performance assumes distributions reinvested. Gross tracking difference is before fees, expenses and tax. Rounding may cause a difference of 0.01%.

6. Growth of a hypothetical investment in the index (no allowance for fees or taxes) and no further contributions.

7. Global Industry Classification Standard (GICS)

8. Benchmark is S&P Global BMI. See explanation of Trucost methodology.
