Fund overview

The Fund provides investors with a diversified exposure across a range of sectors including utilities, real estate, telecommunications, and healthcare to 20 of the largest companies listed in New Zealand. Large and liquid, many of these companies export globally and collectively account for over 80% of the value of the entire investable NZ stock market.

Benefits

The NZ 20 Fund can be used in a variety of investment strategies, for example:

- A core allocation to NZ equities
- A tactical exposure to NZ blue-chips
- A low-cost alternative to other active managers

Performance⁵

Index eligibility criteria

The S&P/NZX 20 Index comprises 20 of the largest and most liquid securities on the NZX Main Board (NZSX). Dual and overseas listings are eligible. There are relative and absolute liquidity requirements to ensure that only stocks that are regularly traded are included. The index is weighted by float-adjusted market capitalization, to a maximum weight of 15% at rebalancing reference dates.

Top 10 investments

Company		% of fund NAV
Fisher & Paykel Healthcare	NZ	14.59%

The Top 10 investments make up 77.90% of the fund

Further information

The information is not investment advice. Kernel has taken reasonable steps to ensure that the information in this document is accurate and up-to-date. Kernel does not accept any responsibility for any error or omission or for any loss resulting from the use of this information, except to the extent required by law.

1. 12 month Yield is the last 4 quarterly distributions divided by unit price 12 months ago. This is the experience an existing investor would have had.

2. Indicative Dividend is the index calculation of the underlying dividends in the last 12 months divided by the current valuation.

3. The offer documents are available at www.kernelwealth.co.nz

4. 12 month volatility is the standard deviation of daily returns, annualised by multiplying by square root of number of periods.

5. Performance assumes distributions reinvested. Gross tracking difference is before fees, expenses and tax. Rounding may cause a difference of 0.01%.

6. Growth of a hypothetical investment in the index (no allowance for fees or taxes) and no further contributions.

7. Global Industry Classification Standard (GICS)
