Average	14.84%	7.88%
Best	23.49%	29.72%

Fund overview

The Kernel Balanced Fund primarily invests in growth assets with some allocation to income assets. The fund targets a 60% equities and 40% fixed interest asset allocation, investing mainly in several of the other Kernel funds. The fund is designed to fluctuate less than the High Growth Fund due to the diversification with income assets that are generally more stable. This fund may be suitable for investors with a medium to high risk appetite, and has approximately 1/7 chance of a negative year.

Benefits

The Kernel Balanced fund can be used in a variety of strategies:

- Portfolio core
- Low-cost global equity exposure
- Gain access to NZ and global fixed income

Performance³

Further information

The information is not investment advice. Kernel has taken reasonable steps to ensure that the information in this document is accurate and up-to-date. Kernel does not accept any responsibility for any error or omission or for any loss resulting from the use of this information, except to the extent required by law.

1. The offer documents are available at www.kernelwealth.co.nz

2. 12 month volatility is the standard deviation of daily returns, annualised by multiplying by square root of number of periods.

3. Performance assumes distributions reinvested. Gross tracking difference is before fees, expenses and tax. Rounding may cause a difference of 0.01%.

4. Gross return is estimated from the 0.25% management fee.

5. Growth of a hypothetical investment in the index (no allowance for fees or taxes) and no further contributions.
