## SUMMARY

I have developed modern iOS applications, including "Spyquest," which has reached over 6,000 users on the App Store, managing the entire process from the idea stage to publication and revenue modeling. I have a proven track record of creating high-performance, user-focused products using SwiftUI, Combine, and MVVM architecture. Combining my technical expertise with my Computer Programming degree, which I completed with a 3.70 GPA, and my ongoing studies in Visual Communication Design and Management Information Systems, I produce projects that align with both aesthetic and business objectives. In addition to my mobile expertise, I also develop modern web solutions using Next.js, keeping my technology portfolio broad.

## SKILLS

- Programming Languages: Swift, Javascript, Typescript, C#, HTML, CSS
- Mobile App Development: iOS SDK, SwiftUI, UIKit, Combine, Core Data, Swift Data, Swift Package Manager, Cocoa Pods, MapKit, Localization, Accessibility, Xcode
- API's & Libraries: RESTful API, Firebase, Supabase, RevenueCat, Google Mobile Ads SDK
- Web Development: Next.js, React.js, Sanity
- Others: Git, Unity, Blender, MS Office, Postman

## EXPERIENCE

### Intern Frontend Developer - Teknoritma Yazılım Hizmetleri A.Ş

Jun 2023 - July 2023

- I played a role in the company's corporate website renewal efforts using C# and .NET alongside my team.

## PROJECTS

### Spyquest: Find the Spy

Aug 2024

- It is a modern iOS adaptation of the popular party game Spyfall. (6,000+ downloads)
- Technologies: SwiftUI, MVVM, Combine, Firebase, RevenueCat, Google Mobile Ads

### WakePoint: Transit Alarm

May 2025

- WakePoint alerts users when they reach their specified location.
- Technologies: SwiftUI, MVVM, MapKit, Combine, CoreLocation, RevenueCat, Google Mobile Ads

## EDUCATION

### Management Information Systems, Bachelor's Degree (Distance Education)

Oct 2025 - May 2029

İstanbul University

### Visual Communication Design, Bachelor's Degree (Distance Education)

Oct 2025 - May 2029

Anadolu University

### Computer Programming, Associate Degree

Oct 2020 - July 2022

Ankara University - 3.70/4 GPA

## OTHERS

- **Languages:** Turkish (Native), English (Intermediate, B2)

- **Certificates:**

- Introduction to iOS Mobile App Development (*Meta*),
- Programming Fundamentals in Swift (*Meta*),
- Version Control (*Meta*),
- Programming Foundations with Javascript (*Duke University*),
- Cybersecurity Essentials (*Cisco Networking Academy*)
- *IELTS Academic CEFR LEVEL: B2 (British Council)*
