

Post-Op Medication Information

<u>Medication</u>	<u>Direction</u>	
Norco 10/325 mg (#40)	Take 1-2 tabs by mouth every 4-6 hours as needed for pain.  *Because of recent laws, the pharmacy may not fill the entire prescription.	Norco is an opioid for pain reliever. It contains hydrocodone and acetaminophen.  Federal law requires a handwritten prescription. Please call our office to pick up a prescription if additional refill is needed.  Side effects may include constipation and nausea.
Zofran 4 mg (#10)	Take 1 tab by mouth every 8 hours as needed for nausea	Pain medication such as Norco and anesthesia may cause nausea. Take Zofran as directed if needed.
Colace 100 mg (#50)	Take 1 capsule by mouth 2 times per day as needed for constipation	Pain medication such as Norco and anesthesia may cause constipation. Take Colace as directed if needed.
