Things to Remember...

By now, you have likely discussed your procedure with your doctor, however we encourage you to continue to communicate your questions and concerns with your doctor in order to assure your complete safety and satisfaction with your experience.

A San Francisco Surgery Center Pre Operative Nurse will call you the day before your surgery. If you have not received a call by 3:00pm, please call us at 415-393-9600 to ensure that schedules are aligned and nothing has changed.

Please arrive at the San Francisco Surgery Center one hour prior to your scheduled surgery time to allow for plenty of time for you to fill out paperwork and prepare for surgery. This will also allow for our staff to keep you on schedule with your surgery.

Remember to have someone drive you home after surgery and stay with you through the night. If you have questions about this or need assistance with arranging transportation, please let us know and we will do what we can to help. Please provide us with the name and phone number of the person giving you a ride and/or staying with you so that we can let them know when you are out of surgery. We can also provide you and your guests with a list of nearby hotels.

Please bring your photo ID and insurance card with you on the day of your surgery as well as your preferred pharmacy information, should we need to call in a prescription for you.

Our lobby is equipped with WiFi should your guests need it while they are waiting.

Should you have billing or insurance questions, we have a team of specialists available to help answer them. They can be reached at 877-489-2470.

We accept Visa, MasterCard, Cashiers Check, Money Orders and Cash. Sorry, no personal checks accepted.

One more thing, please remember not to drink or eat anything after midnight the day before your surgery!
