## Innledning - illustrasjonen

- Illustrasjonen på forsiden viser to artikler som er publisert fra Universitetet i Wuhan.
- Begge har Lin Zhang som første forfatter, men **de er to ulike personer**. I *ORCID* (orcid.org) er det registrert mer enn hundre forskere verden over med dette navnet.

## Innledning - hensikten

- Forskere i andre land er både søkere og samarbeidspartnere, og de er **viktige for norsk forskning** – sier forskningsmyndighetene.
- Hvordan unngå beslutninger på et **generelt grunnlag** som samtidig er **diskriminerende**?
- Hvordan kan institusjonene og fagmiljøene **raskt selv** vurdere søkere og samarbeidspartnere i det **enkelte tilfelle** og på sitt **eget selvstendige grunnlag**?

## Innledning - verktøyet

- Jeg skal vise et verktøy man selv kan bruke raskt for å:
  - Bekrefte opplysningene i en CV
  - Få oversikt over forskerens fagprofil og resultater
  - Finne personer som kan brukes som referanser
- Verktøyet bruker *Web of Science* sammen med *ORCID* som kilder til uavhengige data. (*Scopus* kan brukes i stedet for *Web of Science*.)
- Kildene er tilgjengelige ved **alle norske forskningsinstitusjoner**.
- **Forskningsbibliotekene** har ekspertisen på å bruke dem.

## Innledning - illustrasjonen

- Den ene av de to Lin Zhang ved Universitetet i Wuhan har gitt meg tillatelse til å bruke henne som eksempel.

Considerably little effort has been devoted to systematically exploring the landscape of government-funded innovation schemes, leaving policymakers and academics little empirical evidence with which to grasp the overall situation of national R&D funding strategies.
