STRAIGHT SOFA

3

The straight sofa module is 2.5 meters long and enclosed by side panels. This sofa can work as a tall space division or a low upholstered bench. These modules can be joined together to create rows of different uses.

ROOM DIVIDER

4

The room divider module is a 2.5 meters long partition enclosed by side panels. This divider can work as a flexible space partition and can host AV units for meetings and presentations.

MATERIALS
Powder-coated mild steel
Larch veneer birch plywood
Polyurethane foam

ADDITIONAL PARTS
Power & data

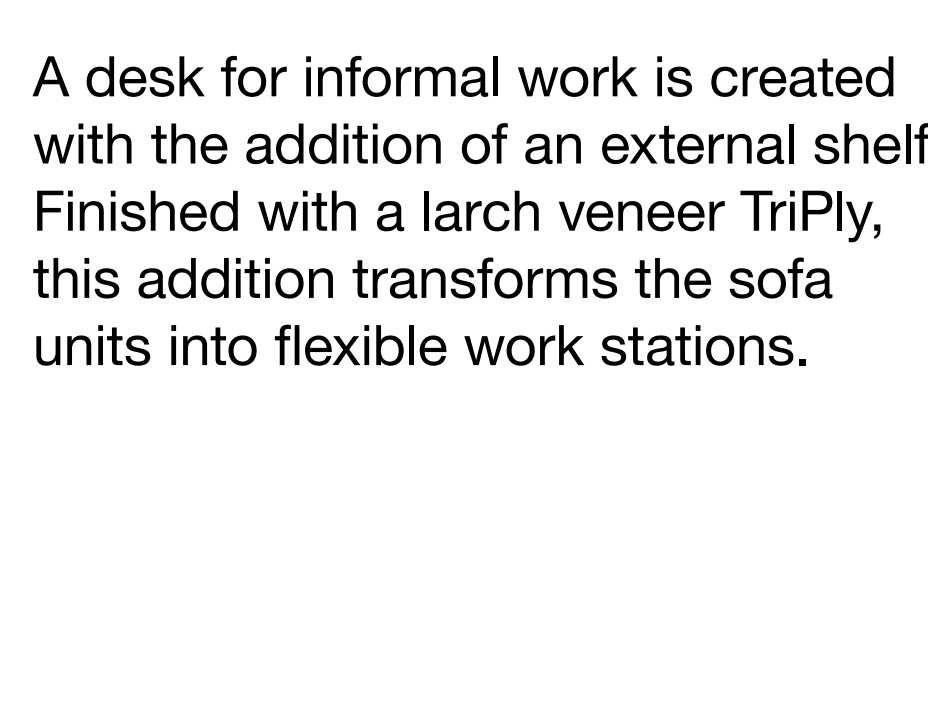

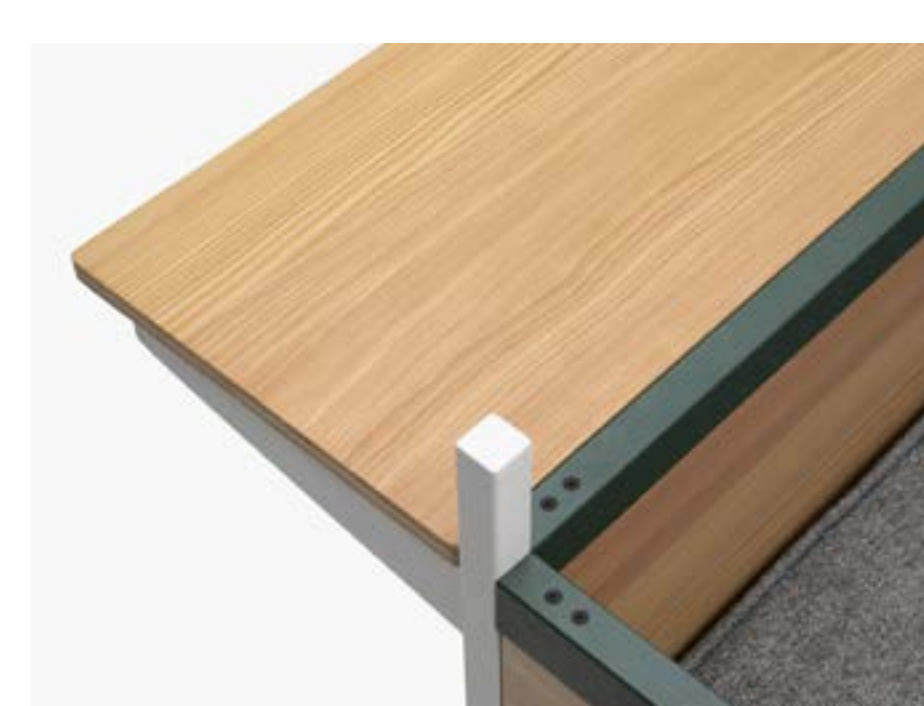

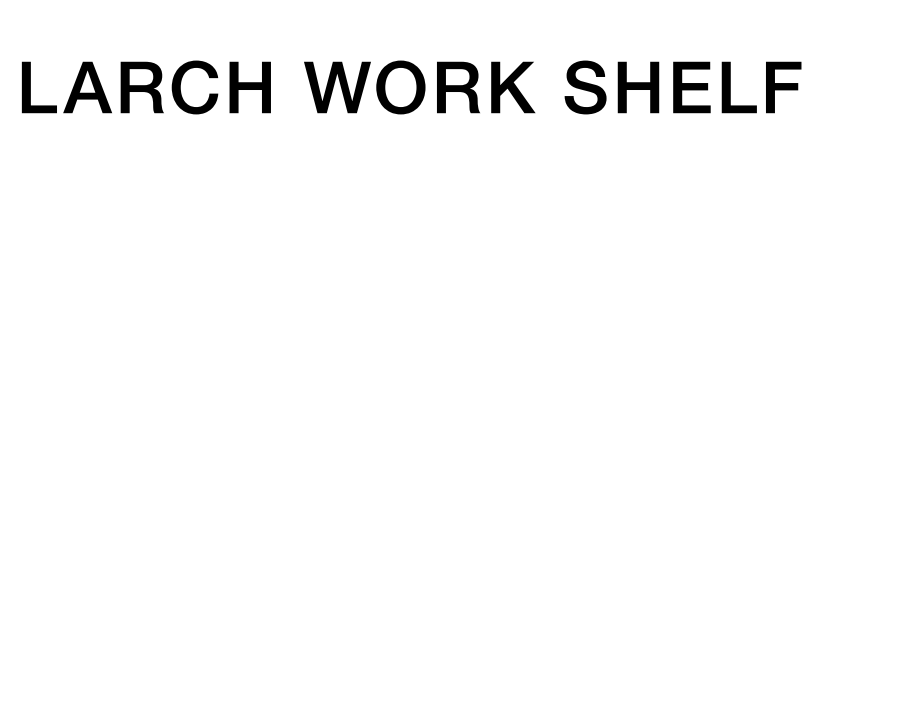

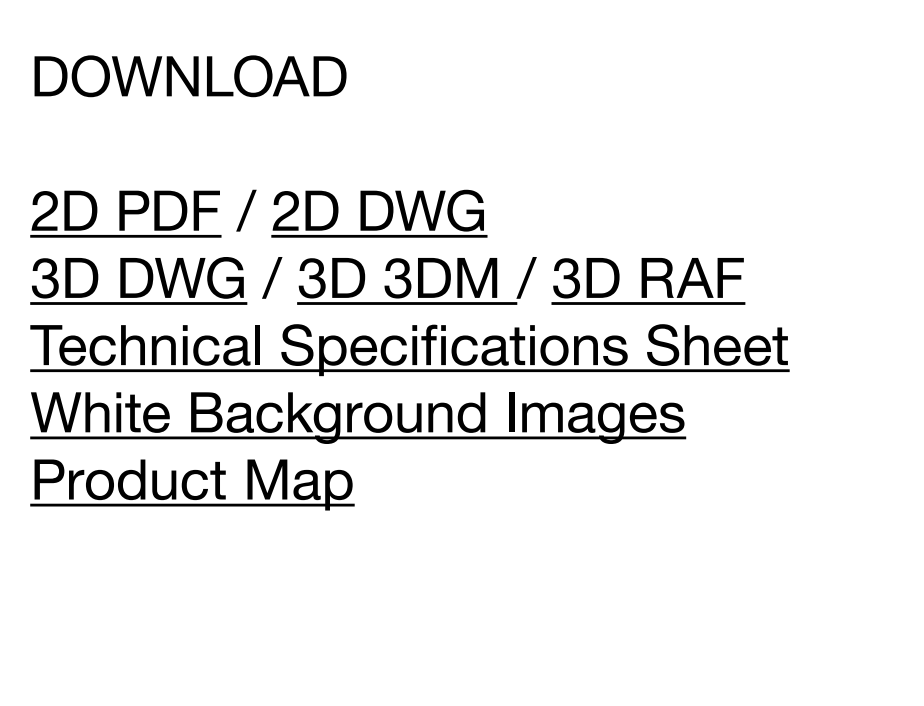

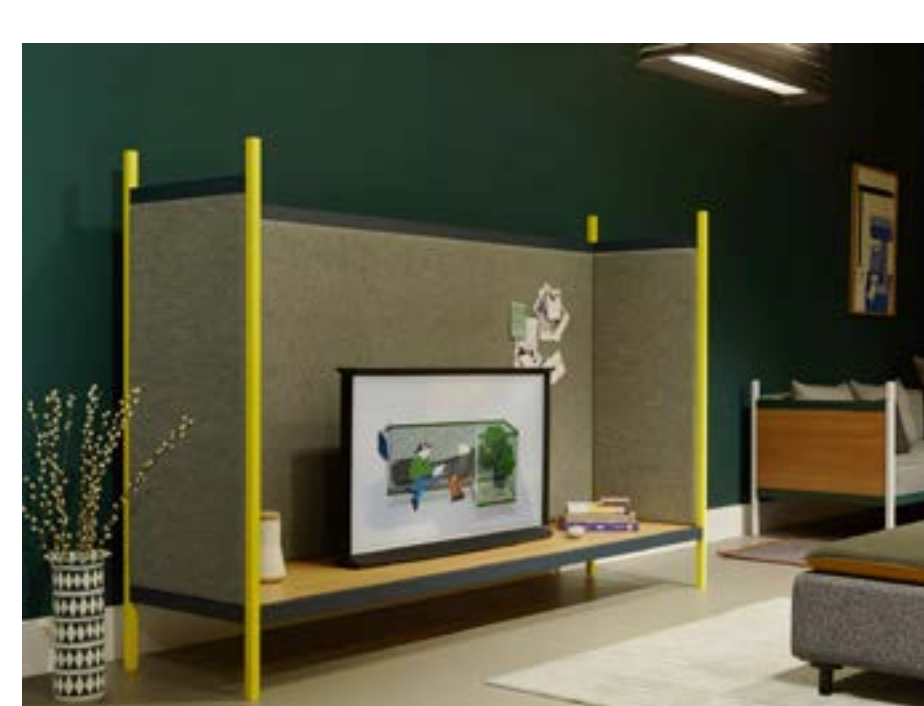

DIMENSIONS
Tall - L2486 x D600 x H1600
