The combination of elegant, clean geometric shapes and simple details is truly magical. The Charm collection is made up of glass spheres that look simple at first glance, but hide a secret. This sculptural object, reminiscent of a reflective jewel, hides a second, glowing sphere. When the light is switched on, this hidden sphere reveals its beauty. The light penetrates the glass, creating a new, beautiful and unexpected shape.

Colours & Shapes

* Standard overall height of pendant (including cable) is 2500 mm / 98,43 in. The cable can be adjusted by shortening the wire

** All glass components are handmade – exact dimensions & colour can vary slightly.
