

i-bin hygiene 15

Touchless women's sanitary bin

Redefining feminine hygiene disposal with touchless operation, odour-sealing tech, and eco-friendly materials for a fresh, modern restroom solution.

Touchless Operation

No need for lids ensures convenient touchless operation, reducing the spread of germs.

Intelligent Monitoring

Equipped with sensors, it delivers real-time data to cleaning service providers for efficient planning.

Digital Integration (Pro)

Offers a digital solution through a smartphone app or API integration, enhancing convenience.

Multiple Colour Options

Available in 4 colours.

Eco-Friendly

Uses 100% natural foil with biodegradable components. TÜV certification guarantees our commitment to plastic-free practices.

Antimicrobial Protection

Treated with Microban Antimicrobial product protection to minimise the spread of bacteria.

Fresh Fragrance

Enhance restroom experiences with a delightful fragrance by incorporating i-scent.

Fixed Fixture

Unlike mobile models, the i-bin is a permanent fixture, aiding in restroom cleanliness.
