

# vac 6

## Powerful electric commercial vacuum

The vac 6 is a powerful and practical high quality vacuum cleaner, packed with features. This vacuum is built to be indestructible while retaining class-leading suction and high-tech features.

### Quiet mode

Choose high-power (62 dBA) or low-power (58 dBA) settings for daytime cleaning.

### Resilient body

Virtually indestructible body. All components assembled with screws, instead of rivets.

### Dual-reinforced hose

No compromises - double reinforced at both ends for ultra-long life.

### Whizzo

Patented Whizzo indicator makes a loud high tone when bag is full, or the vacuum is clogged, preventing motor damage and costly repairs.

### Durable

Heavy duty stainless steel extendible wand to suit varying height operators.

### Ultra fine, double filtration

Choose from Standard, medical-grade HEPA 14 or even ULPA filtration. Dual filter design - both pre & post-motor- enable the highest possible levels of air quality.

### Tangle-free cable

Internally glued cable strands to eliminate cable twisting and extend cable life.

### Fragrance cassette

Inbuilt fragrance cassette leaves a pleasant aroma after vacuuming.

### Durable wheels

Long-life wheels made of shock absorbing materials.
