Location _____ Nuremberg

The grounds of the former Bucker-Werke and Rangsdorf airfield are being redeveloped to create a new residential community. terraplan acquired the site of over 1 m sqm in Rangsdorf in the summer of 2018 and is now busy developing a modern estate in cooperation with local residents and authorities. The listed industrial workshops will be refurbished and repurposed as apartments, a school and a nursery. Further, new buildings are planned for residential use. Sports venues and a day-care centre complete the offering. The listed airfield shall remain tangible and become a local recreation ground, while a museum will inform visitors of the site's historical significance.
