

Sudbury RC Annual Regatta 6th August 2022 – Emergency Action Plan

Introduction

This Emergency Action Plan is designed to act as an aide memoire for personnel involved with dealing with an incident or accident should it occur during the Sudbury Annual Regatta.

First Aid Incident

A suitably qualified first aider will be available at all times, located at the first aid tent.

Anyone suffering a first aid incident is to be directed to First Aid which is situated close to the Race Control Tent. First Aid will advise whether the individual requires further treatment at A&E and if the casualty can be taken by a family member or colleague or if an Emergency Ambulance is required.

If the individual is not mobile then First Aid are to be advised and will decide whether to attend on foot or by vehicle

Full PPE must be worn by any individual providing first aid and disposed of in the correct fashion in the interest of infection control.

The club have a defibrillator which will be available in the event of cardiac arrest

Incident or Injury on the Water

In the event of an incident or injury on the water the nearest Marshal or Umpire will determine the requirements and summon the Safety Boat and / or First Aid via Race Control using the radio communications and make use of the throw line. Other SRC members will support as appropriate.

Race Control will suspend racing as appropriate by contact with Start Marshal and Boating Marshal and public address system and contact the Safety Adviser

Serious Incident

In the event of a serious incident such as multiple casualties on the water, fire or other incident in a marquee or tent or serious casualty incident on land the following course of action will be taken

- Race Marshals, Umpires, Safety Boat and other Officials have radio communications and will advise Race Control of any incident. Race Control will co-ordinate any response
- First Aid will be despatched to the scene
- Regatta Secretary and Safety Adviser will attend the scene and direct support from Marshals, Umpires and other SRC members
- Race Control will become the Incident Control Centre
- Race Control in liaison with the Safety Adviser will manage the incident including
 - Contact with Emergency Services and other external agencies
 - Despatch individuals to direct any incoming Emergency Services and to control vehicles leaving the site
 - Identify a safe location and despatch individuals to direct competitors and the public to safety
 - Public Address announcements
 - Suspension or cancellation of racing
 - Dealing with enquiries from family and colleagues of those involved
 - Tasking members of SRC with actions
 - Maintaining a log of actions
 - Dealing with the media
 - Prompting an initial enquiry into the incident and reporting to interested parties
