

# World's First **Energy Positive** Carbon Capture Solution

*Direct Air Capture decarbonising  
& generating Carbon-Free Power*

# Increase Usage in AI & Cloud Technology

**Power demand will double by 2026**

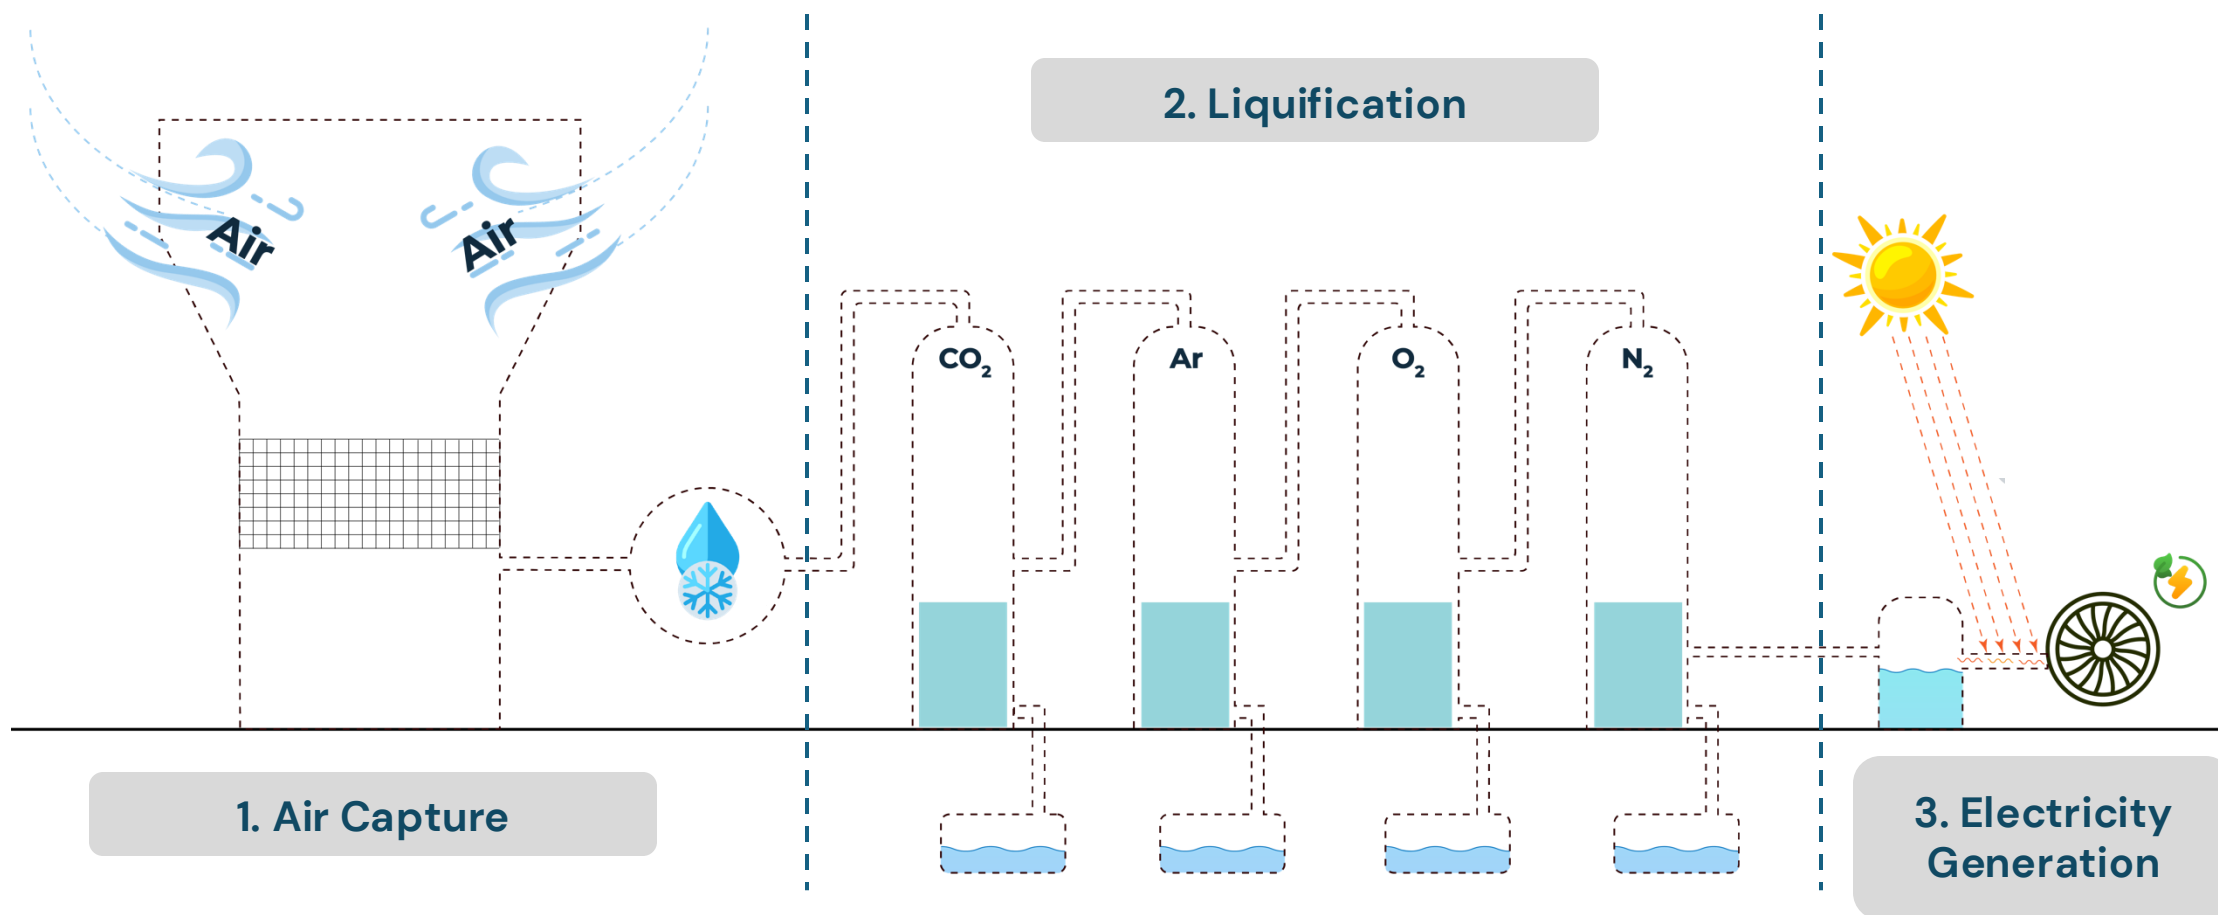

**Pressure to reduce 45% emissions by 2030**

**Cost of Direct Air Capture £500+/Tonne of Co2**

# REVFRACC is our patented Direct Air Capture solution

# Target Market

# Team

**Vinny Patel**  
*Co-Founder & CEO*

**Shamir Budhdeo**  
*Co-Founder & CTO*

**Daryna Radionova**  
*Financial Board Advisor*

**Daniel Fernandes**  
*Head of Engineering*

**Pallavi Mane**  
*Technical Analyst*

# Partners & Traction

green future investments ltd

Pre-seed £1.4m – June 2024

Seed £5m – April 2025
