

### All-In-One Touchscreen Hub

The Alloy Fusion hub is a smart home panel that allows users to control all their smart home devices from one location. Using the on-wall touchscreen unit, users can change the temperature, lock or unlock doors, control smart switches, plugs and more all from one intuitive interface. Likewise, users can download the companion app to control their devices and grant access remotely for guests, vendors or delivery drivers.

- Z-Wave hub
- WiFi enabled
- Cell backup\*
- Touchscreen Interface

### Technical Specifications

**Regulation**  
FCC

**Physical Dimensions**  
7.88 (L) x 7.88 (W) x 0.60 (H) inches

**Operating Condition**  
32° - 104°F (0° - 40°C)

**System**  
Quad-Core Cortex ARM CPU  
Mali400 MP2 GPU  
2GB RAM, 8GB FLASH

**Color**  
White

**Power Supply**  
100-240VAC, 50/60z  
Power input 5.2VDC

**Warranty**  
One (1) year standard

**Network**  
Ethernet  
WiFi 802.11 b/g/n
