

To our valued patients and friends,

As part of our COVID-19 safety protocols, we will be pre-screening our patients by telephone before the date of the appointment, checking for any symptoms, close contact with someone who has tested positive, and high-risk travel. We will ask the same questions again when the patient arrives and will check temperatures before they enter the practice. We ask that you not bring additional people with you to your appointment unless it is necessary for the patient to have a helper or caregiver.

We are committed to providing all your dental needs in a safe environment and have added air filters to remove all chemicals and microbes. Keeping the air in our dental office as clean as possible at all times is an important part of our infection control regimen. Our PPE (Personal Protective Equipment) is compliant with new CDC and ADA requirements and we require all patients and visitors to wear a mask. We have made every effort to make your visit a safe and secure one and have always maintained the strictest infection control procedures.

If you have any questions, feel free to call us at (408) 578-0240.

Sincerely,
Dr. Kenia Martinez and Staff
