[Our Values – SPARK](#)

Our company values are at the core of everything we do. How we do our work is equally important as what we do for work. We hire people who align with these values. We call them our SPARK values.

Job Description

An electrician is responsible for installing and repairing complex electrical controls, wiring, and lighting systems working from technical blueprints on large-scale, new-build construction renovation projects. This position also assists in supervising and training apprentices in electrical installations.

Our SPARK values need to permeate our day-to-day activities and interactions. How we do our work is equally as important as what we do for work. Our co-workers and those outside the organization should have excellent experiences interacting with the Kraun team.

Roles & Responsibilities

- Install electrical controls, wiring, and lighting systems
- Read and interpret technical diagrams, blueprints, drawings, and specifications
- Troubleshoot electrical issues using appropriate testing devices
- Replace equipment, electrical wiring, or fixtures

- Install life safety systems, including fire alarms, nurse calls, emergency lighting, and generators
- Prepare and assemble conduits and connect wiring through them
- Complete work within expected timelines
- Complete work per Electrical Safety Authority (ESA) code
- Take ownership of a job and provide leadership and training to assigned staff as needed
- Professionally represent Kraun and demonstrate SPARK values consistently
- Perform other duties as assigned

Qualifications and Education Requirements

- 309A Construction-Maintenance Electrician License
- Valid Ontario license

Preferred Skills

- Proven work experience as an electrician in new commercial construction
- Thorough knowledge of safety procedures
- Excellent critical thinking and problem-solving ability
- Able to work well on a team
- Able to work within a schedule-driven environment, with the ability to meet deadlines and manage work tasks efficiently
- Able to communicate clearly in English, both verbal and written
- Well-organized and reliable
- Able to instruct apprentices with proven results
- Must be able to work independently, with minimal supervision
- Ability to understand all types of drawings and technical specifications
- Knowledge of the Ontario Electrical Code, Ontario Building Code, fire alarm, and other systems

Working Environment & Physical Demands

- The working environment includes but is not limited to capable of lifting and carrying a minimum of 50 pounds without assistance, working on construction sites and in customer spaces, and driving extensively
- The physical environment requires the employee to work inside and outside in various environmental conditions.
- May be requested to work overtime and weekends to support team members and carry out installations.

Tools Provided

- Power tools

- Annual clothing allowance
