[Our Values – SPARK](#)

Our company values are at the core of everything we do. How we do our work is equally important as what we do for work. We hire people who align with these values. We call them our SPARK values.

Job Description

This individual possesses a genuine passion for interacting with and serving customers. This individual must be friendly, comfortable in new situations, and enjoy working at different locations daily. Customer service must be of value to the successful candidate.

A service electrician must possess extensive experience in commercial & industrial applications and have strong troubleshooting skills.

Role and Responsibilities

- Install electrical as per design/specifications/drawings
- Troubleshoot & repair system failures
- Conduct routine maintenance and test
- Rewire faulty electrical systems
- Replace electrical components and test
- Inspect electrical systems, including lighting, wiring, distribution
- Install new electrical in small renovation applications

- Meet directly with customers, providing on-site solutions and exceptional customer service
- Educate customers on proposed electrical work and safety hazards
- Understand job requirements and ensure materials and required staff assistance are ordered in a timely fashion
- Participate in rotating on-call schedule for after-hour emergency calls (including residential calls)
- Complete work within expected timelines
- Ensure excellent quality workmanship which upholds company standards, complies with the ESA code and follows safety requirements
- Take ownership of a job and provide leadership and training to assigned staff
- Adhere to safety and performance standards
- Professionally represent Kraun and demonstrate SPARK values consistently
- Perform other duties as assigned

Qualifications and Education Requirements

- 309A Construction-Maintenance Electrician License

Preferred Skills

- Proven experience as an electrician in commercial, industrial and residential environments
- Thorough knowledge of safety procedures
- Excellent critical thinking and problem-solving ability
- Excellent physical condition and flexibility to work efficiently and whenever needed
- Able to find and present faults and concerns in electrical systems without receiving explicit direction
- Able to work within a schedule-driven environment, with the ability to meet deadlines and manage work tasks efficiently
- Able to quickly learn and use software programs
- Able to communicate effectively, both in writing and verbally, in English
- Comfortable interacting with others, including customers
- Knowledge of the Ontario Electrical Code, fire alarm code and Ontario Building Code
- Must be able to work independently, with minimal supervision
- Ability to understand all types of drawings and technical specifications

Working Environment & Physical Demands

- Will work on job site(s); therefore, the individual must work in all weather conditions, drive/walk/navigate and be in good physical condition, given the role's nature.
- The working environment includes but is not limited to being capable of lifting and carrying a minimum of 50 pounds without assistance
- working and meeting in customer spaces & driving extensively

Requirements

- Valid Ontario drivers' license – must provide drivers' abstract
- Background screening includes previous employment, education and criminal history

Tools & Benefits Provided

- Computer technology to work effectively
- Professional training courses as deemed helpful
- Cellphone
- Uniform Allowance
- Vehicle (stocked with tools and materials)
- Extended health care
- Vision care
- Dental care
- RRSP Match
- Life insurance
- Employee assistance programs
- Education reimbursement
- Disability insurance
