QUALITIES LOUNGEWEAR

95% VISCOSE | 5% ELASTANE / 230 GSM
Almost every season we use the fabric composition jersey viscose. The blend of viscose and elastane is the perfect balance between being washable and easy care, a soft smooth finish which feels lovely against your skin and you also have the comfort of wearing a stretch fabric. The fabric is comfortable and lovely to wear as the fabric does not sweat and is a breathable.

85% VISCOSE | 15% ELASTANE / 280 GSM
This is our Premium Quality viscose blend. Same as our bestseller viscose elastane quality but heavier and tightly knitted which makes it even more comfortable to wear; provides freedom of movement and a high quality outlook. Furthermore it keeps the same characteristics as our regular viscose quality, so a breathable fabric which is easy in care with a soft smooth finish but with even more stretch.

100% COTTON
Cotton is a natural material that absorbs a lot of moisture and is comfortable to wear. This fabric has a print on one side; and melange fabric on the other side so you can wear it two ways. This style is padded with 100% polyester padding which means it is incorporated it provides insulation and warmth, creating more shape and makes it better resistant to wind. Thanks to its durable structure this item can be worn for many years.

48% VISCOSE | 48% POLYESTER | 4% ELASTANE
Polyviscose fabric is a blend of viscose and polyester. Blending polyester with viscose gives the best of both worlds and is best described as a semi-natural or semi-synthetic fibre. By blending viscose and polyester to make a new fabric quality, poly-viscose largely retains the pleasant drape and feel of standard viscose, so its touch is quite natural to handle. But the added polyester means polyviscose is much easier to care for. Combined with elastane it makes the fabric more elastic and to bring the items back into shape.

100% COTTON - 2X2 RIB
Cotton is a natural material that absorbs a lot of moisture and is comfortable to wear in summer as it will keep you cool due its breathable structure. For our summer collection we knitted the cotton fibres into a rib knit. Rib knit is a different way of knitting that creates the appearance of raised vertical lines in the fabric. The main advantage of this fabric is the high degree of elasticity. The fabrics are more elastic and durable than other jersey knits and tend to fit the body. One other advantage is that it doesn't wrinkle. The elasticity of the structure allows the fabric to get back to its original shape easily.

80% COTTON | 20% POLYESTER - NICKY VELVET
Nicky velvet is a versatile fabric made in a similar way to familiar jersey knit fabrics but knitted with larger loops. These loops are then shaved off giving the fabric a soft, fuzzy feel. Nicky velvet is mostly made from a high proportion of cotton (80% in our case) and a blend of another fibre, such as polyester (20% in our case). Besides stretch it's giving a high level of comfort. Nicky Velvet fabric is a luxury fabric quality. The soft velvet fabric is ideal for creating comfortable home- and loungewear.

SUSTAINABILITY

Pip Studio does not own any factories, we work together with our carefully selected partners. We believe that the manufacturing of our products should be done in a responsible way. We aim to create collections with well-thought-out solutions that bring a sparkle to everyday life. Our partners' philosophy is to build a trustworthy and long-term relationship with our suppliers in order to ensure continuity of the quality, look and delivery of our collections. All Pip Studio products are produced in a sustainable way and marked with the Pip Studio sustainable icon in the care label.

WASH CARE INSTRUCTIONS

To enjoy your Pip Studio products till the end of times, please follow the recommended care instructions of the care label on each garment carefully.
